DISAGREE ON A TRIVIAL AMENDMENT

Senate Proposes Paying Naval Officers for the Use of Their War Inventions, but the House Deelines to Accept It.

WASHINGTON, April 26.-Today's sension of the house was devoted chiefly to the consideration of the conference report on the naval appropriation bill, presented yesterday by Chairman Boutelle. The report was rejected ofter three hours of debate and further conference will follow.

The only ground upon which the fight against the report was made was found in officers for government use of their inventions and authorizing them to have their agreed to, 118 to 42. the senate amendment to compensate naval. claims for such compensation adjudicated in the court of claims.

r. Boutelle (rep., Me.) called up conference report on the naval ropriations bill in the house toThe speaker announced that the house adjourned yenerday pending the dis-position of a point of order made by Mr. Cannon (rep. III.), that the conferces had exceeded their jurisdiction by introducing into the report matter that was not in difference between the two houses. The speaker recognized Mr. Cannon. Mr. Cannon said his point was based upon the pro-viction inserted by the conferees providing for additional officers, non-commissioned officers and 1,500 men in the marine corps. ANXIOUS FOR EARLY ACTION.

Mr. Boutelle said he was anxious to secure the earliest possible action upon the naval bill in order to equip and support to the utmost the forces the country had sent to war, to the end that the earliest success to our arms might be accomplished. Accordingly he was not inclined to insist upon technicalities that might delay the passage of the bill, but wes willing to make any reasonable arrangement that would give the house a fair opportunity to consider the amendment in queetion. POWERS PRESENT NO PROTEST

Territory is Attempted. WASHINGTON, April 30 .- It is semi-officially stated in the bighest diplomatic quarters representing France and Germany that no protest or representation of any character respecting the operations of the American fleet at the Philippine islands have been made or are likely to be made. It can be ! stated also that neither the German nor the French ambassador at Washington has received any instructions touching this subject and the idea is scouted that such representa-tions have been thought of in official quarters. The report that German war ships have left Kao Chou bay for the Philippines, in order to interpose armed resistance to a bombardment is denied. If a German war ship has started from Nagasaki for Manila, as reported by cable, it is said this is for the purpose of protecting German residents and not as a protest. These reports, it is pointed out, emanate from Madrid, and are designed to provoke irritation in this country against Germany and France. So far as France is concerned, it is said to have no nportant interests in the Philippines. Its

carest interests are those at Tonquin. A leading diplomatic official in discussing he report said that if the United States lesigned territorial extension in the Phillippines, then possibly the European powers might feel warranted in seeking an explanation. He said, however, that it was obvious the United States had no such territorial purposes, and that lacking these, its effective conduct of the wer was a subject solely for this country to determine. Germany's inter-ests in the Philippines are more extensive than those of France, but the German authoritles have every confidence that these interests will be safeguarded and that no territo-rial questions will arise.

Germany has not yet issued a proclama-tion of neutrality and it is now accepted as settled in diplomatic circles that no formal proclamation will be issued. This, it is explained, is not unusual so for as Germany is concerned, but is part of its general policy of refraining from decrees of neutral-ity while at the same time maintaining strict seutrality. The last instance of this course prior to the present, was when Germany withheld a neutrality decree during the Turko-Grecian war. It is said the orders

orado, Montana, Idabo, North Dakota, South Dakota and Nebraska Mobilize Here.

WASHINGTON, April 30 .- (Special Telegram.)-Congressman Mercer today called upon the president and secretary of war in relation to mobilizing the troops of Colorado, Montana, Idaho, North and South Dakota and Nebraska at Omaha. Should this rendezvous be decided upon it would assemble at Omaha between 6,000 and 7,000 men. Mercer urged upon the president and secretary the importance of mobilizing near a base of supplies in proximity to department headquarters, and as Omaha has two government reservations with an unlimited opportunity to secure additional, ground if necessary for erection of an immense camp. Mercer felt that he had good reason to hope for a favorable decision, after the troops in the states mentioned have been accepted by the government.

R. B. Howell, former city engineer of Omaha, is in the city to take an examination for line officers in the navy. Howell is graduate from Annapolie in the class of 1885 and as men of his ability are greatly sought after by the Navy department it is expected he will receive a good assignment. He tendered his services to Secretary Long, who at once wired him to come on.

Captain Culver of troop A. Milford, is probably the happiest mun in Nebraska to-night over the decision of the War department assigning his cavalry company to Col-onel Grigsby's regiment of rough riders to be organized in the Dakotas, Nebrusku and Montana. Captain Culver has kept the Nebrueka delegation on the jump protesting to the War department against leaving his crack riders at home when war was ou, but until today his protests availed nothing Judge Stark of the Fourth district, who has been considerable of a militia man in Ne-braska, both as to patriotism and girth, camped on the trail of Adjutant General Corbin, General Miles and Assistant Secretary of War Meiklejohn, even going so far as to call upon Assistant Secretary Rocer-velt of the pavy to take the Milford company into his regiment. Conscription of Cubans is Worse Than

WASHINGTON, April 39.—Senor Quesuda of the Cuban junta said today that the or ler conscripting Cubans between the ages of 15 and 50 in the Spanish army showed the dire extremity to which the Spanish commander was driven. Mr. Quesada says that up to the present time the Spanish authorities have not utilized the services of a single Cuban company or regiment, knowing that cause of Cuba and would take the first opportunity to turn their arms against Spain. For this reason the volunteer forces at Havana and elsewhere, he said, are recruited forced to enlist under the Spanish flag will find an opportunity to use their strength in the cause of Cuba. The Cuban military authorities attached to Mr. Quesada's staff in Washington express the same opinion. They ridicule the conscription of Cubans for Spacish defense, saying that the danger which has kept General Blanco from utilizing these forces thus far will be doubly great now that the Cubans are aware that the United the stranger who he was, and he replied: States has taken up their cause.

Meeting to Be Held at the

There is not a member of the Thurston Rices who has not made a sacrifice and ment club at Tenth and Hickory. The meet- willingly and cheerfully placed his all upon ing was at the instance of President R. C. the altar of his country. It was a serious ordan and Secretary Henry Bauman, who step, prompted by a noble patriotism and a railroaders that has even visited Omaha will thought it about time the club was getting spend Tueoday next here looking over the together so as to be ready when the call grounds and buildings of the Transmissis- comes to choose delegates to the meeting of love and a father's blessing. For a year the State League of Republican Clubs, which these boys have applied a liberal portion of their salary each month to extinguish every dellar of indebtedness. The call to arms found them with \$500 unpuid, which assured by many of our business men will be paid by them to Mr. Samuel Gamble, treasurer of the business men's committee, at the Continental building, as well as the prompt extinguishment of any indebtedness of Omeha's other crack company—the Guards. This is most commendable in our business men and shows a splendid patriotio spirit characteristic of Omaha business men. But there is still an important duty de-volving upon the associate members of the Thurston Rifles. It is to care for the armory and by organized effort see that the interests of our boys are provided for at home and in the field. Our real work now begins. Let us be active and faithful until peace comes to our blessed country and "Cuba Libre" au established fact, where it will not be possi-ble again for any nation claiming to be such o starve women and children by the hundred thousand. As General Manderson well said, such a war is waged for suffering humanity, without any selfishness in it, and God will bless the American army and use it to punish those guilty of such monstrous crimes against poor, suffering, helpless women and children. We cannot see far in the future. Let us do our whole duty in the present. All associate members of the Thurston Rifles, all who desire to become such, all ex-mem-bers of Grand Army of the Republic boys and all friends of the company are invited to et-tend an adjourned meeting at the Thurston tend an adjourned meeting at the Thurston Rifics' armory Monday evening. May 2. While it is a business meeting, we hope to find room for everybody who can come, both women and men. We expect a little old-time partiotic music. Turn cut, friends! Let everybody have a part in the grand work of caring for our boys. Under the old fing, in active service, they are dearer to us than ever before and it should be a pleasure for us to sacrifice for them. Come, then, and
