SPAIN CANNOT STAND ANOTHER REVERSE

Should It Come the Done Would Be Compelled to Sue for Peace in the Opinion of Foreign Diplomats.

WASH NGTON, May 2 .- At the foreign embasoles and legations intense interest is shown in the news of the decisive victory of the American fleet at Manila. It was stated by killing of dogs by the poundmaster could be surervised by someone in authority.

The bill of James A. Keller, poll tax collector, amounting to \$24.80, was objected to also by Alderman Casper. After considerable discussion \$13.60 was allowed and orable discussion \$13.60 was allowed a a high diplomatic official today that another such vistory would end the cause of Spain and | brooms. that this stroke in the Philippines will be fol-lowed immediately by aggressive action in Cuba. Aside from the immediate effects of years. This is because of the change in the Manila engagement foreign representatives here say it is likely to precipitate an internal convulsion in Spain. This has been apprehended by the European powers and has been the chief cause of their activity, as it threateno to bring the war to the continent of Europe. Official advices of the Manila fight had not

been received at any of the establishments representing the great powers of Europe up to noon today. From the fact reported from Madrid that Commodore Dewey had opened communication with the British consul at Manila, it is expected that the news reports, other than those of a Spanish character, will come from British sources. It is understood that the British consul at Manila, Mr. Raw-son-Walker, has assumed charge of American interests in the Philippines and under such circumstances he is at present charged with the importent duty of protecting the lives of the Americans on shore at Manila and else-where. It is believed that Commodore Dewey will give his first attention to looking after these Americans ashore. The cable from Manila, it is learned, is a British and not a Spanish cable, and it is believed that Britain operators have charge of the cable station. While they would be subject to Spanish censorship, yet there is no doubt that the British ownership would ensure a more prompt and unprejudiced transmission

NOT RIPE FOR INTERVENTION. Leading diplomate say no step toward European intervention is likely to be hastened by this disaster of Spain. It is looked upon simply as a war reverse which cannot be turned into political channels by Spanish appeals to the powers. This is the view alike British, French and German quarters. It was rather expected from the British, but none the less apparent among French and German officials, who regard the time for mediation or intervention as past.

One of the members of the diplomatic corps

said grave fears were entertained of the effect of the reverse at Madrid. The government there is threatened on two sides, one the Carlists, the ether the republicans. The humiliation over the defeat naturally will find expression against the Sagasta re will find expression, against the Sagasta re-gime and the throne itself. Whether the authorities will be able to resist popular indignation is much doubted by those con-versant with affairs at Madrid. Today's cable advices state that martial law may be one of the aides attached to an embassy

here said the battle at Manila disclosed the inadequate preparation made by Spain and giving good reasons for resentment at Ma-drid. He said it was now made plain that the quiet and constant preparations carried on by the United States were for a good purpose and had worked vital results. He purpose and had worked vital results. He pointed out that within eight days of the issuance of the declaration of war, the American fleet had sailed 700 miles and had struck a declaye blow. This, at the outset of a campaign, was of double importance, as it carried enthusiasm to the victors and brought confusion and demoralization to the ranks of the Spanish forces and locations. surprise that the Spanish defense at Munila the city. Until the city was taken he sold the real results of the operations could not be determined, as Commodore Dewey's fleet had not yet passed the danger line, in that its coal was reduced and its ammunition depleted by the engagement of yesterday He said a'so that the weakness of Spain in the Philippines doubtless was an indication of the same weakness in Cuba and Porto Rico. The Spanish authorities, he pointed out, had failed to send abundance of coal to Cuba, Porto Rico and e sewhere, and now their reverses were a natural result of their own improvidence.

OFFICERS OF THE FLEET CONFER.

Indications Point to Action Soon by the Navy. (Copyright, 1898, by the Associated Press.) KEY WEST, Fla., May 2 .- On Board the Dispatch Boat Dauntless, Off Havana, May 1. -A demonstration by the fleet off the coast of Cuba is hardly expected today, but it is understood a movement has been planned.

A howling gale is blowing and the sea is running high. There was a long conference on board the flagship New York yesterday between Rear Admiral Sampson, Captain Evans of the Iows, Captain Taylor of the Indiana and Captain Chadwick of the New York, the purpose of which could not be

ascertained. Early yesterday morning the New York steamed to the westward past Havana, which was in plain view from the vessel, and picked up the Indiana and then the Iowa, taking the commanders of both ships aboard. Tugs were then sent out, calling in all other vessels of the fleet in that vicinity, and at noon the following ships were lying off the batteries west of Havana and within eight miles of the shore: The nagship New York the battleships lows and Indiana, the cruisers Detroit and Marblehead, the gunboats Castine, Mayflower, Hornet and Mangrove, and the tugs Osceola, Wampatock and Tecumseh.
There were also four newspaper dispatch
boats in close proximity, all the vessels
being within a radius of 1,000 yards and
plainly visible from the shore. There was

Held for Larceny.

Robert Richardson, who is charged with the larceny during the night time of a gallon of wine from the residence of Mrs.

Christina Weeberg near the motor bridge, was arraigned before Justice Burke yesterday morning and his hearing set for today. Richardson is also charged with stealing eight of Mrs. Weeberg's chickens. He was arrested in Omaha while endeavoring to dispose of a like number of fowl, but claimed they belonged to him.

The Ladies' Missionary circle of the First indication that a concerted movement of some kind was in contemplation and those on the flagship, who were ignorant of the object of the conference, confidently expected that the recent bombardment of the Spanish batteries at Matanzas and the firing upon a troop of Spanish cavely at the formidable batteries near Havana.

The weather conditions, however, were anything but favorable for an attack, for a forty-knot gale was blowing and the waves were tremendous.
