NEW WAY TO MAKE RUBBER

Discovery Which May Make Marshalltown Important Manufacturing Center.

WILL BE A GOOD THING FOR THE TOWN

Scheme on Foot to Manufacture Crude Rubber, Which Will Be Made into Bicycle Tires and Other Articles.

MARSHALLTOWN, Ia., May 7.—(Special.)—The discovery of a way to make a superior quality of rubber by vulcanizing corn oil made by chemists at the Chicago plant of the glucose trust promises to give Iowa an important industry.

The largest works of the trust are located in this city and if the experiments now being made to test the new discovery prove satisfactory the manufacture of rubber on a large scale will be at once commenced at the factory in Marshalltown. Not only will the crude rubber be made, but this in turn will be manufactured into bicycle tires and other articles. It is claimed by the company that the new discovery will give them control of the rubber market of this country.

BIG CROWD COMING TO DES MOINES. Ten to Twelve Thousand People Expected at Review.

DES MOINES, Ia., May 7.—The railroads today schedule 205 coaches to arrive in tomorrow's excursion. Arrangements are being made for the accommodation of 10,000 to 12,000 visitors. The camp officers have agreed to arrange a dress parade from 4 p. m. to 5:30 p. m.

Attempted Jail Breaking. OSKALOOSA, Ia., May 6.—(Special Telegram.)—Dr. Desmond, in jail at Montezuma under indictment for assaulting two little girls at Searsboro last winter, made a bold attempt to escape last night, but was stopped by the heroic work of Mrs. Binegar, wife of the sheriff of Potosi county. With a large stove poker, which he secured in some mysterious manner, he succeeded in making a hole through the wall of his cell. Sheriff Binegar was away from the house during the evening and his wife, hearing a strange noise, went to investigate. As she opened the door leading to the cells, Desmond jumped at the open door. Mrs. Binegar was too quick for him and slammed the door shut and locked it on the outside. She then secured a large club and ran around the building to give the alarm. Noticing a strange hole she stopped. Just then Desmond's head appeared through the hole and he would have made good his escape, but she called to him to halt. She told him she would kill him if he did not go back, and raised the club to put her threat into execution. Desmond weakened and drew himself back into his cell. Mrs. Binegar saw two men in a buggy nearby, who disappeared when she gave the alarm. The dirt had been dug away and part of the hole in the wall made from the outside, which leads to the conclusion that the men were assisting Desmond to escape. A clew has been found to the strangers and the sheriff and posse are now after them.

Notes of the Millitia. DES MOINES, May 7.—(Special Telegram.)—Governor Shaw today received a call from the government for a hospital corps to consist of five hospital stewards, five acting hospital stewards and 108 privates.

Captain Jerald A. Olmsted, United States master officer detailed to muster in the Iowa troops, today received instructions from Washington to accept all officers recommended by Governor Shaw whether they pass the physical examination or not. Officers are to be examined, however, and receive a pass to protect the government. In case an officer doesn't pass the examination he can go to the front in command of his men, but he is ineligible for a pension. This end what promised to be a big disturbance, many officers having been turned down because of underweight.

Grocery Closed Up. MISSOURI VALLEY, Ia., May 7.—(Special.)—The store of J. Rhodes, cash merchant, who closed up last night under the attachment of a number of creditors, whose several claims will amount to about \$1,000. These claims will more than cover the value of the stock and there are a large number of small accounts standing out around town not figured in the above total. Several Omaha firms are supposed to be heavy losers, as it is known that Rhodes dealt largely with them, while the largest attachment is made by an Ohio party for borrowed money. Rhodes himself left town nearly a week ago and has not been heard from since.

In the Butter Industry. DEWITT GOODE, a Woodbury county farmer and owner of a creamery, has been commissioned by Secretary of Agriculture Wilson to manufacture twenty-one square boxes of butter, each box to contain fifty-seven pounds. This butter will be sent to England to show the people of that country what fine butter can be made in Iowa and also to find out the grade of goods desired. A close record of how the butter is made will be kept for use in the Agricultural department. Mr. Goodrich is an expert butter maker, having been in the great dairy contest at the World's fair.

Attacked by a Bull Dog. WATERLOO, Ia., May 7.—(Special Telegram.)—A gang of fifteen rascals, living here last night, supposed to have been implicated in the Ogden postoffice robbery. A quantity of dynamite caps, drills and punches was found upon them. They will be held for identification.
