Board of Trade.

JULY WHEAT DECLINES TWENTY CENTS

Auxiety to Realize Profits Precipitates Break, the Drop Being Made in Fifteen Minutes, but Half of it Was Later Recovered.

CHICAGO, May 10 .- Wildly fluctuating 2c a bu., wheat today closed at \$1.14 for July. a loss of 6%c compared with the final figures yesterday. A collapse from \$1.25, a new high record for July, to \$1.05, chiefly in the last quarter of an hour, was the main spec-tacular features. Sales to realize profits principally caused the fearful slide. A hair raising quick rally of 10c, due to covering by shorts, followed just before the closing gong. May closed at \$1.85, the highest point of the season, and a net advance of Ec. Leiter reported sales of 550,000 bu. cash wheat abroad, at an advance since yester-day of 9c, apparently proving that foreign-Liverpool. Corn and oats ruled weak on realizing. July corn lost 1443-8c, oats 44 7-sc; provisions ruled dull, finishing at de-clines of 15c for pork and 2½95c for lard,

realizing. July corn lost 1443-8c, oats 348
7-8c; provisions ruled dull, finishing at decilines of 15c for pork and 2½65c for lard, with ribs unchanged.

Intense excitement in the wheat pit marked the day from the start. Liverpooi showed a decline at the opening of 6½c a bu for May and ½c for September. This was offset by a preliminary jump of 9½c in July. But the second cables showed a sudden slump in July also. This unlooked for procedure on the part of the English market caused a weak opening here. July began with declines of 266c. Trades were on a range of 31.1761.18. Four subsequent quotations reduced the price to \$1.654. Here the supply of wheat suddenly vanished and quotations steadily advanced to \$1.25, the highest point reached yet by the July option. May wheat was only heard from at long intervals. Trading in it began 2c lower at \$1.73. The succeeding sales were at \$1.75, \$1.80 and \$1.85. It had occasional reactions to \$1.80, but was immediately picked up. About 11 o'clock, when July touched \$1.25, it rebounded to \$1.24, returned to \$1.25, and took a steady downward course. Stop orders on long wheat seemed thick, and close under the market. The downward flight was checked temporarily at around \$1.17. Trade was narrow and ordinary orders were hard to execute. Routine hews cut little figure in the early dealings. Local receipts were 25 cars, compared with ten last year. Minneapolis and Duluth got \$11 cars, against 488 the year before. Today's primary receipts aggregated \$16,000 bu. compared with only 275,000 bu. last year. Atlantic port clearances of wheat and flour were equal to £0,000 bu. The closing quotations from continental markets showed advances at Paris equal to 4c a bu. for May and 31-8c for September-December. Antwerp was up equal to 25-8c a bu. A quarter of an hour before the close the flood of long wheat broke loose. The selling was based largely upon that presumption that today's government crop report might be bearish. Scalpers ventured to put out short lines. July slumped in a couple of the presumption that today's government crop report might be bearish. Scalpers ventured to put out short lines. July slumped in a couple of minutes from around \$1.18 to \$1.15. Most of the traders were a full cent apart. When the liquidation was exhausted shorts tried to even up and the market rushed up again to \$1.15. closing at \$1.15, and \$1.55. closing 10c net higher at \$1.55. \$25. tancy Messina, \$2.093.50. LEMONS—California fancy, \$3.00; choice, large stock, per bunch; \$2.5002.55; medium sized bunches, \$1.7502.00. MISCELLANEOUS.

Trading in corn was moderate. Fluctuations followed wheat on a small scale. The market opened lower, railled to yesterday's close and eased off, finally getting under the opening. Country offerings were large. Chicago received 1.186 cars. Scaboard receipts were 1.000,000 bu. When wheat slumped near the close, corn became weak, July touching \$5c. reacting slightly on covering. July opened at \$36.356c. compared with \$3.7.8673.38 yesterday, declined to \$5c. and closed at 144713-8c lower at \$5.86c.

The oats market shaped its course after wheat and corn. A bulge followed the opening weakness, but free selling by July longs, helped by the break in wheat, caused a slump near the close. Favorable weather checked buying. Local receipts were \$6.000 to \$1.000 to \$1.0

On the Produce exchange today the butter market was steady; creameries, 13@16c; dairies, 12@14c. Cheese, dull and unchanged. Eggs, fresh, 10c. Live poultry, in fair de-mand; turkeys, 8@9c; chickens, 8@8½c; ducks, 6@7c.

COTTON MARKETS. Prices Rally Near the Close and Show NEW YORK, May 10.—The cotton market was only moderate today. During the forenoon traders were disposed to hold off for the bureau report, with some liquidation following the opening advance of 163 points, which caused a net loss of 1 to 2 following the opening advance of 16/3 points, which caused a net loss of 1 to 2 points before the report was announced. But that precious document was so badly mixed up that traders, one and all, were at a loss to know what it meant and it fell flat. In the afternoon the market hung around at about yesterday's prices, with trading slack, partly owing to the sensational developments in wheat and partly in anticipation of important news from the threatened naval engagements. Near the close prices railled slightly on covering. The scope of the market was only a matter of 4 to 7 points and the tone finally set at net unchanged prices to an advance of 4 points. Spot, steady; middling, 6 3-Sc; receipts, 540 bales; gross, 4,840 bales; exports to Great Britain, 1,400 bales; to France, 131 bales; to the continent, 1,402 bales; forwarded, 430 bales; sales, 1,225 bales; spinners, 325 bales; stoke, 181,426 bales. New York Dry Goods Market.

New York Dry Goods Market.

NEW YORK, May 10.—The situation in dry goods is not a lively one. The pleasant weather of yesterday and today has had a tendency to create a better feeling in the market, but trading is still of a perfunctory nature. There are few buyers in the city looking for goods and mail orders show little, if any, increase in the more staple lines. Fancy lines are well sustained, particularly with jobbers, to whom the war excitement has been of benefit in the increased sale of novelties of the national colors. Print cloths were reported slightly firmer. Staple cottons are quiet except in special lines. Print goods are quiet. Woolen goods have been strengthened during the last two weeks by the government demand. The market for both men's wear and dress goods is generally quiet, though there is considerable strength displayed in fall styles.

The rate of discount in the open market for both short bills and three months' bills, 24 Der cent.

Foreign: Financial.

LONDON, May 10.5 The market for American securities advanced at the opening and remained steady all day on a more buoyant feeling. The closing tone was steady and the demand generally light. Amount of buillon taken in the Bank of England on balance today was \$230,000. Gold is quoted at Buenos Ayres at 156.20. Spanish is decided.

was late in opening and slow when it did open.

As a general thing the market was 57 loc lower, the decline, as might be imagined, being the most pronounced in the coarse and heavy cattle, while handy little natives were the least affected.

Considering the total number of cattle here the offerings of butchers' stock were extremely light, buyers reporting less than a dozen loads of cows and helfers on raie. The demand was of about the usual proportions and the market, in consequence of the light offerings, very firm.

The stocker and feeder market did not show any material change, the offerings meeting with fair sale at just about steady prices. Representative sales:
