The events that have succeeded the blowing up of the batlleship Maine and the sac-rince of 266 innocent victims, the patriotic seamen of the United States, have ated in war with Spain and our beloved

Whatever may have been the individual opinions of Americans prior to the declaration of war there now can be no two opin-ions as to the duty of the loyalty of the Americans. A resort to arms was determined upon by the chief executive of the nation; with the advice of both houses of congress and, after consultation with his cabinet officers, but not until every effort had been exhausted to bring about an hon-orable and peaceful solution of our diffi-culties with Spain. The patient calmness, the dignified forbearance, the subdued firm-ness of President McKinley during the trying time that intervened between the destruction of the Maine and the declaration are beyond all praise and should command the admiration of every true American. We, the members of the Catholic church, are true Americans, and as such are loyal to our country and our flag and obedient to the highest decrees and the supreme authority of the nation.

We are not now engaged in a war of section against section, or state against state, but we are united as one man against a but we are united as one man against a foreign enemy and a common foe. If, as we are taught by our holy church, love of country is next to love of God, a duty imposed on us by all laws, human and divine, then it is our duty to labor and to pray for the temporal and spiritual well-being of the brave soldiers who are battling for our beloved country. Let us faithfully beg the god of battles to crown their arms on land and sea with victory and triumph, and to stay every unnecessary vision of blood. to stay every unnecessary vision of blood, and speedily restore peace to our beloved

land and people.

To this end we direct that on and after
the receipt of this circular, and until the close of this war, every priest shall, in his daily mass, pray for the restoration of peace and victory for our flag. We also direct that prayers for the brave soldiers and snilors that fall in battle be said every and snilors that fall in battle be said every and satiors that fail in battle be said every day after mass. These prayers shall be said aloud with the people, and shall be one Our Father, and one Hail Mary and the De Profundis. We pray that God may bless and preserve our country in this great crisis and speedily bring victory, honor and peace

NO GOVERNOR FOR PHILIPPINES Question One Which Requires Ample

Consideration.
WASHINGTON, Ma y10.—The cabinet meeting today was shorter than usual, and the business transacted was not of an impertance character. Although the government has a number of swift vessels on the Atlantic doing scout duty no reports up to incon today have been received as to the whereabouts of the Spanish fleet, and on this point the officials are quite as much in the dark as are outsiders.

Published reports that the president is considering the appointment of a military governor for the Philippines when our forces shall have taken possession, is denied by members of the cabinet. The question of a government of the islands is regarded as serious one, and no action will be taken regarding it until after the matter has received much consideration.

RATIONS TO BE SENT TO MANILA. Order Indicates Expedition Will

CHICAGO, May 10 .- A special from Washington says: An order was sent from the War department today to Captain Baldwin, assistant commissary of subsistence at San Francisco, directing the immediate purchase of nearly 1,000,000 rations for the military expedition to the Philippines. The administration was unwilling to take time for having the subsistence supplies sent across the continent and the order was therefore given to have the supplies bought in San Francisco to avoid delay. The government has not announced when the expedition will mbark for Manila, but in case the ships can be equipped with the necessary supplies for the voyage the start will probably be made before Monday.

Rush at Chickamauga.

CHATTANOOGA, Tenn., May 10.-At hickamauga park today officers and men f the regular army regiments are rushing as they have not been called upon to do since the days of the civil war. The order for the entire army to pack up and go to tion. the front at once was announced at 9 o'clock, and since then things have been moving at a tremendous pace. The railroad men have been running all available cars to the park, and as rapidly as they arrive they are loaded with the camp equipment, horses, supplies, etc. The work of moving the big command during the next few days, as they are expected to do, is an immense job for the railroads. They had received no intimation of the sudden orders, and had made no adequate preparations. The two lines to Tampa, the Southern and the Western & Atlantic, are doing everything possithe infantry division, composed of the Second, Seventh, Eighteenth, Sixteenth and Twelfth regiments.

Five hundred passenger coaches to carry Colonel Sheridan of General Brooke's staff, speaking for the general at noon today, said: The order does not say rush to the front; t simply instructs us to get there as soon as we conveniently can. Of course, we will move as rapidly as possible, but it will probably be several days before all are out. There are 6,000 men with hundreds of horses and a large amount of equipment in the park and the whole business cannot be moved within a few hours."

Colonel Sheridan refused to give any opinion about what the order meant. The majority of the officers, however, do not hesitate in saying that it means they will land in Cuba as soon as they can get there. Besides the infantry division, the Third and Sixth cavalry go to Tampa. The Second illery was sent out several days ago. General Brooke and staff will remain here

In reply to a query tonight, Adjutant Gen eral Sheridan said that before Friday night all the troops will have been moved south, an accomplishment due to the fact that ev ery command has been on waiting order for a week, and each command has disposed of all its surplus baggage and equipment. SEWALL COMMANDS IN VIRGINIA. Lee, Wilson, and Wheeler Sent to

Chickamnuga. WASHINGTON, May 10.—Major General W. H. Sewall has been assigned to command the concentration camp near Falls Church, Va. This is taken as an indication that the general has concluded to accept his military ommission, risking his tenure of office as a senator thereby. The order issued from the War department today reads as fol-

ordered to report to the adjutant general for duty with the troops to go into camp at Washington, D. C.: Major General Scwll, Brigadier Generals Poland, Ken foung, Randall, Schwan and J. C. Bates. None of the corps commanders have yet been assigned finally, although the entire list of commands has been prepared. Sumner, Henry, Lawton, Chafee and Davis, General Schwan, who is one of the brigadier generals assigned to duty at the Washington concentration camp, is at present principal aide to Adjutant General Corbin and has just been promoted to the rank of brigadier general.

It is understood at the War department that important changes are contemplated in the points of mobilizing the volunteer army. Fewer troops than contemplated will be sent to Chickamauga, it being the desire of the department to concentrate them further south. Many of the western troops originally intended for the east will be sent to California and general changes may be made in the scheme of mobiliza-

TASK WILL BE ONE OF GREAT MAGNITUDE

With the Fleet at Cadis the Oregon Will Be Safe and the Invasion of Cuba Can Be More Succensfully Conducted.

WASHINGTON, May 10 .- It is hard to tell whether the naval officers were relieved or a law-abiding citizen, but when a man perdisappointed by the news that came late sists in his victous course he should this afternoon to both the Navy and State dealt with accordingly. He then spoke of departments to the effect that the Spanish flying squadron had arrived at Cadiz, Spain. The safety of the Oregon from attack is now completely assured, and the way is clear for military operations in Cuba without running the risk of having the occupying army's line of communication cut off.

On the other hand, it is believed that no enduring peace can be secured until the Spanish navy has been destroyed, and it appears that to do this our sailors must make up their minds to go after the Spanlards, a task much more difficult than that of meeting them near our own shores.

It was suggested by some of the members of the war board that there was just possibility that the Spanish squadron might take a quick passage into the Pacific through the Sucz canal and attack Dewey at Manila. It is said that contrary to the common

We all know that the air passages in the head were made to heat and dry the air before it reaches the bronchial tubes and lungs. We all know that one single drop of water in the pindpipe will almost cause strangulation, and that moisture of any kind cannot enter the bronchial tubes and lungs. How, then, can you expect to cure diseases of these passages with liquid medicines, which are simply forced through the nostrils into the mouth, and are prevented by anture itself from going farther. This attempt to drown the baccill of catarrh, which thrive and grow on moisture, would be amusing, if it were not for the serious injury which often results from the use of strong liquid medicines forced into the delicate air passages by powerful sprays, couches and atomizers. The difference betwen the old and new method of treating catarrh, bronchills and consumption is so great that any one can readily understand why the medical profession throughout the whole country have accepted the later as the only natural treatment for these diseases. The first mentioned being against all the laws of nature, the later, nature's own remedy, carried to all parts of the head, throat and lungs by the air you breathe, and killing at once the germs which cause the disease. All this without any effort on the part of the patient, except the simple act of breathing.
