Corn Planting Throughout the State Makes Little Progress and Grains and Grasses Walt on the Sunshine.

United States Department of Agriculture elimate and crop service of the weather bureau: Weekly crop bulletin of the Nebraska section for the week ending Monday, May 9, 1898:

The past week has been cold and wet with less than the normal amount of sunshine. The mean temperature has been be low the normal in all parts of the state The average daily deficiency ranged from six degrees in the eastern counties to nearly ten degrees in the western. The temperature extremes have been unusually low, The maximum was generally slightly above sev enty degrees, and the minimum was slightly above freezing in the eastern counties. and slightly below in the central and western countles. Frosts were general on the 6th and 7th. The frost of the 6th was heavy in the western counties. Fruit was damaged slightly in many places, but generally no serious damage was done.

The rainfall has been above the normal in all sections of the state. The rain did not of acres of corn are being planted daily, fall in heavy showers, but light rain was nearly continuous for the first three days of plowing especially being very mellow. If the week. Light snow fell in the extreme western counties May 1.

The cold, cloudy and wet weather of the week has materially retarded farm work. Practically no corn was planted during the first half of the week and generally very little was planted during the last half. Only a very small portion of the corn has been twenty years. planted; in an average season, about onehalf of the crop is planted by May 10. The cool, wet weather has been favorable for wheat, and it has made a rapid growth. News for the Army.

WASHINGTON, May 11-(Special Telegram.)-The following army orders were issued today: Leave of absence for ten

days is granted Captain Zebree Smith, Third artillery. Captain William @. Gibson, ord-nance department, will make not exceeding four visits during the months of May and June, 1898, from the works of the Morgan Engineering company, Alliance, O., to the works of the Walker company, Cleveland,

O., on official business. Captain David A. Lyle, ordnance department, will make not exceeding three visits to the Pennsylvania Steel Works, Steelton, Pa., on official business.

Acting Assistant Surgeon Llewellyn P. Williamson, United States army, will proceed from this city to New York City and report in person for duty to Major George H. Torney, surgeon-in-charge of the hos-

pital ship. Acting Assistant Surgeon W. Patterson, United States army, will proceed from this city to Atlanta, Ga., and report in person for duty to Major Blair D. Taylor, surgeon-

ertson of Louisiana called at Secretary Treasury-Elijah W. Adkins, surveyor of Alger's office in the interest of J. C. Wickliffe of Louisiana, who desires authority Justice-Charles A. Leland of Ohio to be from the department to proceed to enlist associate justice of the supreme court of one of the special regiments. Mr. Wickliffe has been at West Point for several years. Duncan H. Hood, a son of the noted confederate general of that name, has requested permission to raise one of the immune regiments. Other persons who have volunteered to raise independent regiments are General Sypher of this city and Colonel Hines. Some of the applicants are not only willing to raise the regiments, but express their intention of fully equipping them for

the service of the government.

GET CAMP GROUNDS IN READINESS. Ample Accommodations at New Or-

leans for Volunteers. NEW ORLEANS, May 11 .- Officers at the fair grounds, of both the regular and volunteer forces, are waiting anxiously for some news confirmatory of the press dispatches

intimating that troops are to be sent to Cuba very shortly. If any orders have been received, however, they have not yet been given out. The work of mustering the Louisiana Guards is progressing rapidly and the regiment of volunteers is also steadily being increased in numbers. The announcement that Iowa, Illinois and Indiana troops

have been ordered to New Orleans has stirred the officers at the fair grounds to activity and preparations are being made for the encampment of the western troops provided they are to remain here for any length of time before taking transports for the islands. The grounds and accommodations here are ample for the several thousand troops that have been ordered to New Orleans.

Decline Belmont's Offer. CHICAGO, May 11 .- A Journal special from Washington says:

"O. H. P. Belmont's offer to build, equip and command a dynamite gunboat during the war with Spain has been refused by

the naval board of construction. "When Belmont made the offer to the president he was referred to Secretary Long and the latter today asked the naval board of construction to pass on the offer. The board's report is unfavorable because of Belmont's stipulation that he must be com-

THE AMERICAN NAVY

The United States has few prouder pages in her history than those given to the exploits of her navy. Are you familiar with them? How many of these names do you know well—well enough to recall all that is associated with them—Serapis, Levant, Cyane, Peacock, Shannon, Phoebe, Penguin, Boxer? Are they unfamiliar? Every one of them is an important name in Ameri-can hostory and most of them are names of honor, although they are not names of American ships.

Of course you can find out about them from any one of the naval histories, but then you would get nothing but naval history. Any good United States history will tell you of them-but then you will get nothing but United States history.

You will find all about them and all history besides. It will be a constant astonish-ment to you to find how thoroughly even the little details are covered in a single work. If ever a history deserved the title universal, this does. What do you know about tehe Philippine Islands—how long they have been sub-ject to Spain—about the natives—amount of annual exports and imports, etc.? If you turn to Vol. III, page 770, you will find some very interesting information.
