MINNEAPOLIS, May 19 .- A special to the

Journal from Wausau, Wis., says: The tor-

last night about 7 o'clock did its most

severe damage at the village of Antigo, in

Langlade county. It took an almost straight

course northeast from one end of the county

to the other. That it did not sweep through

the city of Wausau, the heart of which lay right in its path, is due to the fact that at

Rib Hill, southeast of the city, it seems to

have deflected from its course. Passing

north and east of Wausau it struck the

farm house of August Hanke, about a mile

and a half from Ziegler postoffice, which was

demolished, and Mr. and Mrs Hanke and

four children perished in the ruins. Passing

on toward Taegge, the sawmill of the Curtis

and practically demolished. The storm cen-

his stock in pile blown about. From there

At Antigo it struck the north outskirts of

the village and made a path about a quarter

of a mile wide where the village extends

for about three-quarters of a mile. There

were about thirty-five houses destroyed.

The dark, funnel-shaped cloud swung along

toward the village with terrific velocity. It

seemed to be coming straight toward the

business part of the city, when suddenly

it was seen to veer slightly to the north and

he damage was much lessened by the slight

change of course. Following is a list of the

# FASHIONABLE SICKNESS

Physicians Who Treat Women Often Lack Discernment.

THEY DO NOT GRASP THE DEPTH OF THE SUBJECT.

We often read of women who patronize he physician for a so-called slight ailment and seem to be always sick and yet are able to be round. But at length these women abandon the physician and take up with one or more of the numerous bottled remedics so widely advertised. The real truth of the matter is that the physician does not divine the true state of affairs nor is the bottled remedy of the slightest eid. When a woman uffers with leucorrhoea or wornb displacement or painful monthly sickness she goes to the doctor in the hope that she will get a medicine that will help her. And she alnost invariably fails. She takes up with the stomach dopes of commerce with the same opeful feeling. And here too she falls. The whole plan of treating women by such means is radically wrong and all women who suffer realize that such is a fact. There s only one method whereby woman may cura herself of the distressing condition known as female troubles and that is by local appli-cation. There is a remedy recently introduced that has worked wonders in curing all forms
