Interesting News Likely to Be Received from the South Const of Cuba Almost Any Day.

WASHINGTON, May 25 .- There seems to be no longer any doubt that the Spanish fleet now in Santiago harbor is Commodore Schley's squadron and that escape is almost, if not quite, impossible. Members of the cabinet are exultant over today's news and although they are not willing to make public the as perfectly trustworthy.

It is authoritatively stated that the situapose, could successfully prevent the escape can get arms. of the Spaniards, thus relieving a consider-able part of both Sampson's and Schley's night that the rebels had attacked the fleet for operations elsewhere. KEY WEST, Fla., May 25 .- There is nothing definitely known about the operations in eastern Cuba, but the view is accepted at this place as a fact that the Spanish fleet is blockaded in Santiago harbor, in which event the naval opinion here is that the Spanish fleet has "committed suicide." It is now no breach of confidence to say that Commodone Schley and Rear Admiral Sampson are believed to have Admiral Cervera within their reach and if the Spaniards are in Santlago harbor they can be blockaded and starved out. A single heavy American vessel can hold the harbor's narrow exit, through which the Spaniards could emerge only singly. The Spanish fleet is very fast, but it is not composed of heavily armored Indeed any of Admiral Sampson's battleships could, in the opinion of naval experts, engage the entire Spanish fleet with a fair chance of coming off victorious. The American commander has not only ships for battle, but for the chase as well. This is the view here, where the American fleet is well known. Among navy officials and peoplc at Key West generally there is the most thorough confidence in the skill and energy of both the American commanders and it is believed their triumph in West Indian waters is assured

The question that agitated the Navy de partment this morning was whether or not the Spanish squadron under Admiral Cervera is at Santiago de Cuba. The department hopes and believes it is, but so far is not possessed of sufficient evidence on the point. It is also its belief that the Spanish squadron when last heard of ten days ago, was in that harbor, and has not been seen anywhere else, in spite of the fact that the scouting vessels of the navy fairly swarm in the West Indian waters, and that the United States consuls on every is land are on the alert to watch and reporthe movements of the Spanish fleet. The department officials, accepting the view that Cervera is in Santiago harbor, are of the opinion that he is likely to remain in there for a long time, weeks and months per-

Conbort After a Supply Ship. (Copyright, 1898, by Press Publishing Co.) KEY WEST, May, 25 .- (New York World Cablegram-Special Telegram.)-A supply ship was chased by the Spanish for an hour yesterday off the northeastern coast of Cuba. It was made out at 4:30 this morning by a small Spanish gunbeat which headed for the supply ship, formerly the Illinois. Everybody watched the race The supply ship put on all steam; gunboat about ten miles off. The supply held its own, but as it had not a single gun, Lieutenant Roberts, its commander, did no take any chances and freed the ship. The Spaniards fired no shots but suddenly veered off, probably at the sight of a American ship, as Sampson's squadron had just passed the same point. The chances are that the gunboat will be captured.

Japanese War Shin Honors the Yel low Panner at Manila, the First Occasion Since Dewer Came.

NEW YORK, May 25 .- A cablegram from Manila bay, via Hong Kong, to the Evening Telegram, says:

"Arriving here yesterday on the McCulloch I found the American squadron anchored off Cavite, except one ship, which was patrolling the outside by turns. The foreign war ships Immortalite (English), the Brinx (French), the Irene Commeron (German), and two Japanese war ships, were anchored off the city of Manila.

"The Japanese boat Naiwa had arrived the night before, and at noon saluted the port with twenty-one guns, which salute was returned by the shore battery. This is the first salute the Spanish flag has received from any war ships since the blockade was established. One Japanese vessel leaves tomorrow for Hong Kong.

War Pourd Asks for Legislation to Suppress the Publication of Plans of Fortifications by Papers.

WASHINGTON, May 25 .- Secretary Alger sent to the house today a communication, enclosing a letter from a publishing house in Philadelphia, in which it urged a correspondent to adopt means to get photographs of the defenses, despite the prohibition.

This concern, in this letter, which was turned over to the government, said it had emphatically been refused permission to make photographs of the League Island navy yard and Fort Mifflin, but the next day it hired a tug boat, and its photographer stopping in front of the yard, took several views, and urged its agents to secure photographs of all the fortifications by these or similar means.

Rear Admiral Steard, president of the war board, recommends that the publication and exposing for sale of views of the navy yards, fortifications, new ships, and other government structures for military or naval service, should be forbidden by law during the war.

All That is Mortal of Mr. Gladstone Now Rests in Westminster Abbey Awaiting Final Ceremonies.

LONDON, May 26 .- Mr. Gladstone's remains arrived at Westminster, London, today, accompanied by Herbert and Henry Gladstone. Mrs. Gladstone will come to attend the public ceremony. A group of thirty or forty men, who are connected with the ceremonies, including the duke of Norfolk, aw ited the arrival of the train at the station. About 2,000 of the public looked on. The coffin has been placed in position for lying in state. This was done about 3 o'clock this morning, when Canon Wilber force conducted a special service in the presence of Henry and Herbert Gladstone and several members of the House of Com-

LONDON, May 26 .- (New York World Cablegram—Special Telegram.)—Intense in-dignation is manifesting itself in liberal circles at the action of Queen Victoria in omitting to make any mention of Gladstone's death and public services in the court circular. When a statesman or man of eminence like Tennyson, personally known to the queen dies, it is always her custom to pay some graceful tribute to his memory written by herself. In the case of Gladstone the queen has merely sent a telegram of sympathy to Mrs. Gladstone without allusions to Gladstone's colossal services to the state. It is now asserted that the prince of Wales has advised his mother of the bad effect created by her silence and it is expected she may retrieve the position to some extent by repairing the omission after the funeral. The truth is the queen never forgave Gladstone for adopting home rule for Ireland and was still further embittered against him by his last speech in the House of Commons, when he urged his party to a crusade against the House of Lords. When Gladstone took leave of the queen on his resignation she never accorded him even a formal word of thanks for his life-long serv-

ices, although Gladstone's sincere loyalty

After Leaving Bahia Captain Clark Kept Everything in Readiness to Do Battle with Spanish Fleet.

WASHINGTON May 25 -Secretary Long has received an official dispatch appouncing arrival of the battleship Oregon in Jupiter Inlet, Fin. Its sefe arrival in the inlet was reported immediately to the presi-

been received regarding the bottling up of the Spanish fleet at Santiago. The only 'aformation of this kind had been received from the press and not from official sources. The Oregon left Mare Island, Cal., 13,000

miles away from Jupiter, on March 19, so it has averaged 200 miles a day for sixty-five days. As a matter of fact the versel has made much better speed, for a good many days were lost in taking coal at the South American ports. The Pacific coast contingent in Washington cannot restrain their enthusiasm over the remarkable performance of the creation of the slope workshops. Representative Hilborn called at the Navy department to verify the news of the ship's arrival and he found the officials were fully disposed to agree with him in all that he had to say as to the Oregon's great record. He says that by this performance the ship has silenced forever the congressional critics of battleships, who had declared that no battleship ever had or would cross the Atlantic, for the Oregon's run was fraught with more peril and involved straightaway stretches of greater length than the Atlantic passage in any season.

The locating of the Oregon came about in peculiar way, by means of the beach watchers, who are on the alert for the approuch of hostile ships. These beach patrols continue night and day and last night the patrol was rewarded by sighting the big American battleship. Signaling was begun by the use of torches and in this way messages to and from the battleship were exchanged through the night. In turn these messages were sent to the Navy department. which is connected by wire with the signal station near Jupiter inlet.

NEW YORK, May 25 .- A special dispatch to the Evening World from Jupiter, Fla., says that Lieutenant A. R. Davis of the battleship Oregon came ashore there last "Our race," said Lieutenant Davis, night. 'was a most exciting one, especially after we left Bahia, for we then knew of the possibility of interception. Captain Clark, however, kept the little fleet in constant readiness, and had we run into the Spanish fleet we should have been heard from. As it is, we are all happy that our race from San Francisco is now ended and that we will have a chance to take part with the fleets now looking for the Spaniards." Sailors who know the Pacific and the Caribbean seas are well aware that delay is the essence of a naval war. They re-member that Nelson found it difficult to dis-cover the Spanish fleet somewhere between Jamaica and Cadiz, and they realize tha this slow procession is not interesting. The presence of the gunboats around the suller islands means that the American officers are getting the range of every gun of the batteries that will later oppose the landing of the troops, just as Nelson did on a simllar occasion.

CRITICAL IN THE PHILIPPINES.

Necessity for Hurrying Reinforce ments to Dewey is Apparent. NEW YORK, May 25 .- A special to the Times from Washington says: Important and disquieting news has been received from Europe and Dewey. It caused an immediate and strenuous effort to be made to hasten the forwarding of troops. One republican senator, who discussed the Philippine situation with the president, said, after after he came out of the White House;

"From the present outlook I do not ex pect to see the Monterey in these waters again in ten years. If it becomes a matter of deciding whether troops shall first be hurried to Manila or Cuba, they will go to the former, as the situation there is vastly more critical.

A special to the Tribune from Washington says: Official advices received from Admiral Dewey, while confirming the belief that his supreme control of Manila harbon is as firm as ever, indicate that the necessity for reinforcing him with a powerful military force is daily increasing, and is not safely to be delayed through any ordinary difficulties that may be encountered.

General Merritt's foresight in demanding 15,000 men for the first expedition and securing the president's promise that 25,000 additional soldiers would be cheerfully furnished, if they were required, is indicated in the opinion of military authorities, and throughout the day preparations to expedite the departure of the advance guard and to secure the necessary transports for the remaining force were aggressively hurried by War department officials. The reference in Admiral Dewey's dispatch to the forces being organized by Aguinaldo had the effect of disturbing the equanimity of officers whose advocacy of the eccutation of the Philippines has developed in the last week. No disposition is manifested to place too much reliance in insurgunt assistance after the dis couraging experience with the Cubans, who were unable to fulfill the promises made in their behalf before hostilities began. A determination was expressed on all sides to make Admiral Dewey tadependent of all foreign assistance at the parliest time.

ONLY A FEW YET TO MUSTER IN

One Handred and Twelve Thousand Volunteers Now Rendy.

WASHINGTON, May 25.-One hundred and twelve thousand men have now been mustered into the volunteer army of the United States and the official reports show that the greater number of these are ready to move to the front. Over two-thirds of the states have entirely completed their musters and should the emergency arise are prepared to begin anew the work just completed.

The failure of some of the states, notably four or five in the south, to furnish the men called for up to this time is a surprise to the army officers on duty here, but is ascribed, not to a lack of patriotism, but to a belief. probably shared by many of the national guardsmen who had home ties and business connections which they could not well afford to give up, that plenty of other persons not so encumbered would readily be found to take their places. Ample time will be given the states referred to to fill the apportionment made by the War department and the expectation here is this will be accomplished without further unnecessary delay. Should any of the states default, the probability is that the fact will be reported to congress formally by the secretary of war for such action as may be deemed best under the circumstances. No resort can be had to draft measures without express authority therefor from the national legislature.

The Second was commanded by General Compton, composed of the Fourth Ohlo, Third Illinois and Fourth Pennsylvania; the Third, commanded by General Hulings, and composed of the Sixteenth Pennsylvania. One Hundred and Fifty-seventh Indiana and Second Wiscon-The maneuvering was determined from

the start, and during the progress of the movements portions of the command were scattered to various parts of the field. Here a company would charge and put to retreat a detached squad of the opposing command elsewhere skirmish lines were thrown out and at times forced back. As timbered sections were reached, skilled movements were made to gain shelter of the trees.

Repeated charges were made against General Burt's front, only to be gallantly repulsed. The doughty commander had lost none of the spirit that characterized him upon the same field when it ran red with the carnage of the actual battle a third of a century ago.

At last, Generals Compton and Hulings decided upon a combined front and flank attack. The Second brigade attacked the front, while the Third was thrown to General Burt's right flank. Right gallantly was the new movement met by the First, but at last the Third succeeded in outflanking the First, and gained the rear, cutting off General Burt's retreat.

At 11:01 o'clock the "battle" was declared to have been won by Generals Compton and Hulings.

Serious Casualty Occurs. A serious casualty occurred during the

progress of the battle. Lieutenant Batty of the Sixteenth Pennsylvania, in command of a squad, was surrounded by a detachment of the First Ohio regiment, and was ordered to surrender. Instead of surrendering Lieutenant Batty ordered a bayonet charge. While at close range a member of the Ohio command shot directly at Lieutenant Batty, the charge striking him in the face and neck, inflicting painful and serious injuries. Both eyes were badly injured, and the vision may be destroyed. Bad blood was engendered by the accident and the men rushed together. It was only by the coolness and presence of mind of officers that bloodshed was averted.

The volunteer army at Chickamauga park now numbers 35,914 men, and this will be increased by 10,000 by the last of the week. The Eighth New York infantry arrived this morning at 10:30. The regiment is composed of twelve companies, with a roster of 1,025 men and officers, and is comled by Colonel Henry Chancey, ir. This command has an interesting history, its organization dating back to 1673, when it was known as the Burger guard, and was formed for the purpose of defending the New Netherlands against British invasion. of the revolutionary war, and has preserved its organization intact. The Eighth was turned over to General "ade's Third corps and will be brigaded in that command.

The second requisition of 4,500,000 rations s being received and distributed by the quartermaster's department, the first requisition of 1,200,000 rations having been consumed. Consignments are coming from Chicago at the rate of forty carloads a day It is estimated that the 4.500,000 rations will provision an army of 50,000 for ninety days. Contracts have been let for the construction of four big warehouses at Chicka mauga for storing supplies.

DEATH RECORD.

P. J. Karbach

Omaha lost another of its oldest settler yesterday in the death of Peter J. Karbach, which occurred early in the morning at his residence, 622 South Nineteeuth street. Mr. Karbach came to this city in the early 50s and associated himself with the iron industry, with which line he has been identified since. For the first few years of his residence here Mr. Karbach was employed as a blacksmith and in 1868 opened a shop of his own. In 1870 he enlarged his business to include carriage and wagon making, to which department he has, in later years, given more attention. The establishment has rapidly enlarged under his charge and Mr. Karbach has been known for years as one of the substantia business men of the city. He was a member of the volunteer fire service of the city and his name is on the rolls of the Omehin Veteran Firemen's association. He was widely known and respected among the older residents of the city. Mr. Karbach's three sons, A. P., J. E.

and G. W. Karbach, bave been associated with him in his business enterprises.

MONEY FOR FRENCH EXPOSITION Delicate Diplomatic Situation Involved in Appropriation.

WASHINGTON, May 25.-While the provision in the sundry civil appropriation bill for the proper representation of this country at the Paris exposition, which was inserted by the senate has not yet been taken up in a formal way by the conference committee, the subject has had more or less attention from the members of the committee as individuals. The members appreciate the delicacy of the situation. They realize that they are acting largely in a diplomatic capacity in dealing with this subject, and accordingly are impressed with the necessity of proceeding with caution. Their attention has been called to both sides o the question and the fact has developed tha there is an element in this country opposed to making any appropriation at all, be cause of the alleged partiality of France to ward Spain in the present war. The fact has also developed that at least one member of the committee is personally of the opinion that no appropriation should be made under the circumstances. The indications are however, that this rule will not prevail un less some open act of hositility should be committed by the French people and so long as the French government continue to declare its good will. The prevailing opinion among the com-

mitteemen seems to be that the wise and proper policy is to proceed in the matter just as would be done if there were no war on. Some of the representatives of the house on the conference are of the opinion that the senate provision looking to the ultimate expenditure of about \$750,000 the exposition is too liberal, and that i would be at any time more than this country would be justified in expending upon foreign exposition. They are advocating reduction to the extent of a third of that amount, placing the limit at \$500,000 and it appears probably that this change may be made. However, this is not decided upon, nor is anything in connection with the provision. All that can be said definitely now is that the committee as a whole is favorably disposed to make provision for an exhibition of American products a Paris that will do credit to our country and be an earnest of our good will toward France. It may be added that some members of the committee even feel that the diplomatic situation is such as to render it more expedient than ordinarily would be the case to act liberally in the matter now has quietly presented this view. There a feeling that the appropriation should be made, and if subsequent developments should prove its expenditure unwise the president can be trusted to act in accordance with the best interests of the country. ANNEXATION IS TO HAVE A REST.

Republican Senators Agree Not Push the Measure. WASHINGTON, May 25 .- The active opponents of Hawalian annexation in the sen-

ate, it is learned, agreed to the arrange ment for daily sessions of the senate begin ning at 11 o'clock only after an understanding with a number of republican senators that the Hawaiian question should not b earnestly pressed in the senate in any form through the session. Democratic senators were appealed to to expedite the consideration of the revenue bill, and as a counter proposition asked that Hawaiian annexation be dropped. No party arrangement resulted from these propositions, the republicans being disinclined as a party to leave the Hawaiian issue go over, but a number of republican senators gave assurances that Hawaiian legislation should not be seriously pressed at this session. These assurances democratic senators bostile to annexation say, are sufficiently numerous to warrant them in believing an adjournment of congress will be taken without action by the senate on Hawaii. The advocates of Hawaiian annexation say a republican caucus of the house on that issue will be held mamediately after adjournment tomorrow They were active today and a sufficien number of senators for the calling of a cau cus have subscribed to a paper now in the hands of Representative Grosvenor of Ohio chairman of the caucus committee, but the call has not yet been issued.

Germans Deny the Story. BERLIN, May 25.-It is semi-officially denied that there is any truth in the story from Manila regarding the German consul threatening Rear Admiral Dewey for no permitting the landing of provisions from German ships, it being asserted that the consul said he would land them with the aid of German cruisers, and that the American commander in return threatened to fire on the German war ships if they interfered

THE EXCELLENCE OF SYRUP OF FIGS is due not only to the originality and

simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the California Fig Syrup Co. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP Co. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALI-FORNIA FIG SYRUP Co. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company -
