RULES TO PRESERVE ITS ORTHODOXY

Recommendations of the Committee to Draw the Lines a Little Closer Are Adopted After a General Debate.

The first thing taken up by the United Prestyterian general assembly, when it reconvened in the morning, was the report of the committee on introduction of young men

into the ministry. The first of its resolutions-that enjoining presbyteries to greater carefulness as to the abilities and character of candidates for the ministry-had already been adopted without objection, but the second, giving to the seminary the right to assign the student to his class on his entrance into the institu found opposition, and was lost. Rev. W. R. Butchison of the Le Claire, In., presbytery, questioned the "inberent right," as the resolution read, to do this. While the semina ries are not under the presbyteries, yet the students are, he said, and the matter of assignment of the novitiate to his grade was directly the province of the presbytery. was giving to the seminary faculty the right that belonged to the presbytery. The reso-

lution failed by a vote of 29 to 34. On the third of its resolutions there was considerable discussion. The gist of it was that in case of dismissal from seminaries the faculties should report to the presbyteries the cause. Rev. J. H. Gibson of the Pittsburg seminary was opposed to it, because he thought it gave to the faculties too much power. Dr. John A. Wilson of the Allegheny seminary came to its championship, explaining that it merely provided for proper information from the proper source concerning the cause for dismissal, no this resolution went through without further op-

Defending the Seminary.

It was necessary for Dr. Wilson to make a strong defense of the last of the resolutions recommended by the report. This was to have the seminaries take a yea and sacred character of the Lord's day?" nay vote on the question, "Shall candidates for the ministry be required to present to the presbytery certificates from United Presbyterian seminaries as a condition of license?" The objections to it were that such a proposition, contemplated by the resolution to be submitted to the church in overture for a vote, were based upon the fear that its effect would be to too narrow inasmuch as it might exclude learning outside those of the United Presbyterian denomination. One brother made a remark about "corkscrew theology." intended as a sarcastic fling, to which another retorted with the query, equally sarcastic; What is that?"

Dr. Wilson referred with pride to the fact that the first theological institution of this country was established by the old Covenanters-the United Presbyterians of their day. Without bringing any "railing accusation" against any other church, he could sidered. not avoid being reminded of the manner in which the larger Presbyterian church had suffered in respect of admitting candidates from other of a man inside or outside the church. denominations indiscriminately and with (Loud applause.) very lax inquiry into their orthodoxy. Rev. J. C. Kistler of Buena Vista, Pa., came to Dr. Wilson's assistance, remarking as a shot presbytery should get proper assurance of a candidate's orthodoxy and he hoped that the poes on it would be few.

A vote was finally taken and the resolution was adopted by a large majority. came up on reconsideration, Dr. Robert ot carry a little cheap Stewart of the Wheeling presbytery making with the church people by giving Young Men's Christian Association the motion to reconsider and was widely a little sacred music. Every Woman to Save the Drunkard.

A TRIAL PACKAGE OF THIS MAR-VELOUS HOME REMEDY MAILED PREE TO ALL WHO WRITE FOR IT.

Can Be Given in Ten. Coffee or Food, Thus Absolutely and Secretly Curing the Patient in a short Time Without His Knowledge.

There is a cure for drunkenness that has shed a radiance into thousands of hitherto desolate firesides. It does its work so silently and exresp that while the devoted wife, sister or daughter looks on, the drunkard is reclaimed even against his will and without his knowledge or cooperation. The discoverer of this grand remedy, Dr. Haines, will send a sample of the remedy free to all who write for it. Enough of the remedy is mailed free to show how it is used in tea, coffee, or food and that it will cure the dreaded habit quietly and permanently.

Sunday Opening Up Again The Sunday opening question then came assembly was kindled into religious flame. It came before the assembly on a report made by Dr. John C. Boyd of Pittsburg who, with Dr. W. T. Meley of Chicago, had been appointed a special committee to communicate the anti-Sunday opening resolu-

ion to the exposition management Dr. Boyd said President Wattles of the exposition had received the committee very courteously and had nasured it that, inasmuch as the board of directors of the exposition could not be called together for some time, he would lay the matter before the executive committee immediately. He asked the assembly to give audience to R. W. Richardson, special commissioner of

the exposition. Mr. Richardson, on behalf of the exposition, extended an invitation to the assembly to pay a visit to the exposition buildings and grounds during the afternoon, promising to

## Summer Colds: How to Prevent Them.

Timely Advice to People Who Are Slightly Affected By Chronic Ailments and Especially Those of a Catarrhal Nature.

The season for contracting summer colds is now on and physicians advise that every one should be exceedingly cautious. A cold in the spring or summer is more lasting and dangerous than in the winter reason.

La gripple germs are more active now than at most any season of the year and the ordinary person is more susceptible to their evil effects now than ever.

This is due mainly to the climatic changes and the prevalence of catarrhal affections, says Dr. Shepard. Then if one s system is at all run down he is far more susceptible to an attack of la grippe or influence. The germs are in the air and are absorbed by the system through the throat and lungs mid-reliant schools.

constitution is below par there is slight chance to escape is grippe. This is nothing more than the old influenza that has been known for years. The complications are what cause trouble.

'The only way to guard the system against attack is by taking good care of one's self and getting rid of any catarrhal trouble that may be present. A few warm days should not tempt one to change from winter to summer clothing. In this olimate it is not safe to make a change until June 1. Then a good tonic every morning will assist the system in throwing off the impurities and tone up the constitution so that it may more the constitution so that it may more readily resist the evil influences of influ-

Rev. F. E. Haughey, pastor of the Christian church, Chester, Neb., "Dr. Shepard's system of treatment for ca tarrhal affections and hay fever is highly successful. It affords relief at once. Monase is proof of this fact. For a lon-time I was afflicted with catarrhal in flammation of the nose, which developes obstruction and tumor. The reflex symp-toms were headache, duliness of feeling toms were readacte, duliness of feeding and nervousness. I was very quickly re-lieved of all my trouble and I shall never cease to be grateful for the permanent results given me. I am a warm advocate of the Shepard treatment."

"Enough time has now elapsed since I finished my treatment with Dr. Shepard for me to safely say that my cure is certain and enduring. It is three years since the doctor said I was entirely cured, and I've been walting to see if the old catarrhal symptoms would return. They have not done so in the least degree.

"My trouble was in the head and throat—nostrils slopped tight, headache, blurring of the eyesight, etc. My voice was weak from the disease so that I could seldom speak clearly. But a brief treatment made me entirely well." 15th St. and Capitol Ave.
