Senor Castilla is Endenvoring, by Making Concessions, to Have France Change Its Position.

(Copyright, 1898, by Associated Press.) BERLIN, June 4 .- The last week has wit essed important negotiations between Ger many, Russia and France, Russia this time being the prime mover, for intervention in the Hispano-American war.

Upwards of a fortnight ago Russia aproached France with this object in view, and this communication was opened between the czar and Count Muravieff, the Russian minister for foreign affairs, on the prefer the Meclin to the Valenciennes one side and President Faure and M. Hanolace. Both are suitable for summer teaux, the French minister for foreign affairs, on the other,

Although France at the outbreak of the Miss Britt is with war was most anxious to bring about intervention, it is now positively said, notwithus at present demstanding the fact that Russia gave assurances that it would back up any new at "Automatic" Skirt tempt, that France has flatly refused to participate in renewed efforts in this direc-

It was owing to this peremptory refusal. She will be glad to have the ladies come so greatly at variance with France's former and see them. They are easily adjustattitude, that Senor Leon v Castillo, the ed and will keep the heaviest skirt Spanish ambassador to France, went to from sagging. These have a special Madrid, and direct negotiations between Spain and France were opened. Senor Castillo has now returned to Paris, bearing Hosiery Ladies' Black Cotton formal and specific offers of the exchange of a definite understanding between the two powers in regard to the war.

with double toe, sole and heel, in drop The main feature of the Spanish offers is the cession to France of a number of coal depots in the Balearic and Capar Ladies' Black Gauge Cotton Hose, with islands which would be of immense service to France in the event of a naval war in the Mediterranean.

It appears, however, most doubtful whether France will accept this offer, as the French government has about concluded that the preservation of the friendship of the United States is more important than Since introducing improving the relations of France with the "Cresco" Corset,

No reply has yet been made by France, the only corset made other to Senor Castillo or to the Spanish that cannot break at government. But there is strong evidence that the reply, when made, will not be the waist line, we what Spain desires.

have received many In the meanwhile Russia has approached Germany with a similar offer to support a complimentary comnew effort at joint intervention. Count Osensaken, the Russian ambassador to Germany, has had three lengthy interviews When you can get such a combination with Baron von Buelow, the German minof comfort and corset correctness as ister for foreign affairs, this week, but the the "Cresco" offers, at the same price correspondent of the Associated Press can of old style corsets, don't you think it would be well worth your while to state that Germany has unreservedly regive the matter a careful investiga-tion? When next you buy a corset fused to join the proposed attempt of intervention at the present juncture.

Emperor William's Position. Emperor William, who is fully informed in regard to these negotiations, had a long audience with Baron von Buelow on Wednesday last, and fully endorsed the latter's attitude.

The German government acutely feels the anomalous position which has been created by the fact that while the government and the inspired press earnestly desire an unbroken continuance of the friendship of the United States, 98 per cent of the newspapers persist in venting their spleen against the government and the people of America.

A question which has been repeatedly and persistently discussed in government circles here is whether something cannot be done to prevent the persistent auti-American newspaper campaign, as it is highly injuri- tained in influential political quarters where, ous to national interests. But no law has while talk of an alliance is treated as been found which is applicable to the case. chimerical, there is a growing desire for n the meanwhile, the German newspapers ontinue to display news unfavorable to the countries. United States, most of which is with little truth. The alleged recent Spanish victory at Santiago de Cuba has been enlarged upon with accompanying comments affirming its

portionately small compared with the American forces." All the news from Spanish as doubtful or being lies. Many papers, as

All attempts to set public opinion in the right have been rendered futile by the refusal of the German newspapers to publish communications and news items tending in that direction. Even corrections of glaring misstatements sent out by the American em bassy here have not always been printed.

The news of the conclusion of the Franco American reciprocity treaty displeases Germany. The Tagleblatt comments on it as

follows: "The main fact is that France has ob such American products as petroleum."

German exporters, it is announced, will shortly memorialize the government on the

Emperor William has finally settled or October 18, the birthday of the late emperor Frederick, as the date for the consecration of the German church of the Redeemer in Jerusalem. Sir. Tischendorff, the German counsel at Jerusalem, who has just arrived here from that place, has been given an audience by the emperor. He brought the unwelcome intelligence that the sultan of Turkey had secretly rescinded the cession of the coenaculum, which he had promised to Emperor William for the use of German Catholics. This action of the sultan is said to have been due to the strenuous objection of the Russian arthodox population of Palestine, backed up by the Rusisan ambassa-

dor at Constantinople. A new political party, styled national socialists, which has been formed throughout Germany, is making great efforts to insure its success in the coming election. The party is strongly nationalistic, with tendencies toward all kings of social reforms and The soldiers are well armed, but I do not greater political liberties. Many prominent

The Prussian government will shortly eight months. There are 15,000 troops in issue decrees that a special decoration be conferred on "monarchic" laborers and trades people who have sworn their loyal convictions for thirty years and upwards. The government and the emperor believe this action will tend to check the inroads of socialism among the working people.

Lieutenant General Vonderhide Colts has been selected to take the place of General Vogel von Falckenstein as inspector general of fortresses. The latter suddenly resigned his office in consequence of a disagreement with Emperor William in regard

to the fortifications at Metz. The newspapers here are urging the people of this country to use Russian instead of American petroleum in order to free themselves "from the insufferable tyranny of the American petroleum ring.

ceptionally favorable. Prof. Stoerck of the Greifswald university

in an article in the Deutsche Revu, a highclass monthly, under the caption "American International Rights," says: "America has no right to interfere in Cuba," and continuing he says he rejects Monroeisu as "dangerous to the whole world." The professor then says: "A country where lynch law survives is unfit to play the judge of other countries."

Prot. Stoerck also says he expects a European coalition against the United States to be an outcome of the present war, contending that this is necessary in order to protect the rights of the European continent in the questions of production and

#### BANQUET TALK DISCUSSED

(Copyright, 1898, by Press Publishing Co.)

Angle-American Alliance Chatter Affords London Gossios a Little Vocal Exercise.

LONDON, June 4 .- (New York World Cablegram-Special Telegram.)-The speeches at the Anglo-American banquet last night have elicited a remarkable protest from Canon Doyle, who was present and is an ardent advocate of amity between the two "I rebelled," he says, "against the and summer offer them. ontinual use of the word Anglo-Saxon in every speech. If this alliance is to have any solidity it must be broad at the base. then, should the races upon whose bones this empire has been largely built up, Irishmen, Highlanders and Welchmen, be excluded? It is very easy, by talking of the Anglo-Celtic race and Anglo-Celtic alliance, to draw them all into one common sympathy. It is equally easy, by relaying the narrower term to allenate those sympathies. It may seem to so-called Anglo-Saxons to be a mere matter of sentiment to a man with Celtic blood, who inherits among other qualities certain sensitiveness of disposition, it appears to be a very practical natter and his support or opposition may depend upon how far he is recognized or gnored. The fervid sentiments expressed by the

peakers at the banquet have on the whole been re-echoed by the press. Taking the first conservative journals which have been east friendly in their support of an Anglo American rapprochement, there is a no iccable change of tone. The Globe says: 'Neither country has anything to gain by its attitude of mutual suspicion, and a friendly understanding is likely to benefit both. But something different from the aspirations of those who organized the dinner is required. The extravagance of their notions was shown even in the decorations of the banqueting room. The blending of the union jack and stars and stripes in a common flag, the embrace of the British ion and the American eagle aptly typify the unpractical character of their ideal,

The St. James Gazette says: "Misunderstandings and jealousies have been as frement as they would naturally be between son and heir and his pushing younger brother, for as Bishop Ripon put it, we are in the relation of children of the same stock rather than that of child and parent. But when England and America stand side by side they will act as brothers against a common enemy.

The Pall Mall Gazette says: "There should be no rush for an alliance tomorrow. Hasty welding would only give a machine which might crack at the first or second strain but kinsmen are gravitating together surely now, and pleasant functions like last night's not only illustrate the fact but tend to strengthen the inevitable tendency."

The Westminster Gazette says: "It is all to the good that gatherings of this kind should take place, and it is the fact of their taking place much more than anything in particular that is said at them that is important. Our common language and letters was the one toast, and it was one that should certainly suggest how much against the light it is for the two countries to be anything but the greatest friends."

These views fairly reflect those enterthe friendliest relations between the two

SPAIN CONCENTRATES ITS TROOPS. Removed to Santiage far New York.

(Copyright, 1898, by Associated Press.) KINGSTON, Jamaica, June 4 .- (On board the Associated Press dispatch boat Wanda, bound for Santiago de Cuba, off Point Cayo Moa, on the northeastern coast of Cuba, June 3.)-While steaming along at fifteen knots an hour, at 5 a. m. today, a small sources is believed, whereas information fishing smack was sighted creeping out of Sagua de Tanamo, going east. Apparently for Glasgow. Arrived-La Touraine, from frightened, it attempted to get back under the shadow of the mountains, close in shore but the Wanda soon overhauled it and ran alongside the small craft.

She had a crew of four men, one of whom spoke English. He came on board the Wanda and told of the situation in the inerior in the eastern part of the island. He pied the chair. had not heard that the Spanish fleet was blockaded in Santiago, but he had heard the total membership was now 763, includrumors that Spain would soon send forty

"Are these ships really in Santiago? asked the Cuban with the deepest interest He begged to be taken on board the Wanda o that he might see a great battle. The Cuban also said the Spaniards had troops in nearly all the towns in the east end of the island; but he explained the insurgents were in the central part of the country and were gradually closing in on the towns. At Sagua de Tanamo, according to the Cuban, there were 2,000 Spaniards, at Porto

there were 4,000. He further said that there were Spanish troops in Baracoa, Holguin and other towns. The troops from the towns on the north-

east coast, he asserted, were being rapidly moved to Holguin, the railroad point, and from there they were to be taken by rail o Santiago de Cuba. He had heard there was to be a general concentration of all troops in the eastern part of the island at Santiago de Cuba, but he did not know the significance of the movement until told that the Spanish fleet was there.

General Garcia, he said, was at Bayamo with a good army, and had issued a proclamation to the people in all the towns to the effect that when the Cubans captured the town, as they soon expected to do, citizens and their property would be protected. The Spaniards have been drawing in their

outposts and concentrating their forces for weeks, while the insurgent forces are now strongly increased around Holguin, Gibara ind Sagua de Tanamo.

Finally, the Cuban reported that an important expedition had landed at Cabanso, two days before, and it was thought it may have been the Florida expedition

RESOURCES OF THE PHILIPPINES Rich in Mineral as Well as Products of the Soil.

WASHINGTON, June 4.-Notes on the Philippine islands have been issued by the State department as No. 131 of the advance sheets of the consular reports. One expert extensively quoted, Frank Karuth, says extensive gold diggings have been opened quite near the sea, insuring a large output for many years to come. It has been proved that they extend over a wide district. Alluvial gold is found in the island of Mindaro and there are extensive copper deposits in Luzon. While there is no true coal there, there is lignite of a good quality, quite as useful for steam vessels. This is in great quantities. Roughly washed alluvial gold has been known to contain rubies and hyacinthes. There is no want of labor at cheap rates and on the whole attention they merit. the general conditions for mining are ex-

# URGED AS VITAL BY DOCTOR SHEPARD

The Lesson on the Opportunity of Spring and Summer Treatment-Its Supreme Importance to Those With Enfeebled Constitutions, Weak Lungs and a Tendency to Consumption.

The lesson to those with enfeebled constitutions, weak lungs or a tendency to Bronchial Trouble or Consumption, of the vital opportunities that spring

The best teaching is the teaching that will save the most lives.

And this lesson to those with the slightest predisposition to Consumption

will save more lives than any that could be taught. In the spring and summer Catarrh may be more speedily cured; with Na-1 ture helping the work, the result is more certain; after the cure, the constitution resumes its normal condition more quickly; those so feeble that they should not even expose themselves to the weather during the winter may visit the

offices, and are helped in theorogress of

treatment rather than injured by the

xposure to the outer air. This is what the opportunity of the spring and summer mouths means. Indeed, with many of the more serious ases-where long neglected Catarrhal disease invading the bronchial tubes which convey the air to the lungs has taken its advance into the tissues of the

ungs themselves, has reach of the road lined with the mucous memgrane upon which it lives and feeds, and finding no new tissue settles down to ced upon the lung cells-with many of hese serious cases treatment during the spring and summer months is the only Little if any help can be prom sed them during the winter.

It is then during the spring and summer that Catarrh in its early stages, involving maybe the nasal passages and throat and vocal cords and windpipe, may be most speedily cured, and the dang r of its extension into he desper part of the Bronchial Tubes or Throat averted.

It is then only during the spring and summer months tha those most desperate cases involv-

archipelago contains nearly 2,000 islands.

Two of them are larger than Ireland, Luzon

If Doctor Shepard were asked what medical teaching would accomplish the greatest good he would unhesitatingly be treated with any hope. So there is abundant reason for dwell-

ing upon this matter.

Spring and summer do afford the time o cure Catarrhal conditions.

It has been seen even during the indement and unfriendly influences of the severe and changeable weather how this treatment, even against influence of th eclimate and weather, reaches and cures common Catarrh and Catarrh of the Throat and Catarrh of the Yocal Cords, Deafness, Bronchial Catarrh and Catarrh of the Lungs.

From now on these notable tests will be made even under more favorable influences, and all sufferers from Catarrhal or Bronchial difficulties, from diseases of the Ear, the Throat, the Bronchial Tubes or Lungs should recognize this and avail themselves of this knowledge, In the spring and summer Nature lends her aid to the work of the physician, the causes that produce Catarrhal conditions are less active and liability to

cold is reduced. One month of summer treatment is worth two months of the most careful winter treatment and if all who suffer from Catarrh were wise enough to devote a little of the summer to treatment, there would soon be few cases of Catarrh to treat; cases of Deafness would become rare; head noises a curiosity, and chronic coughs and Consumption would be reduced to a minimum.

Every one who is subject to HAY FEVER during August and September should begin treatment now. The recurrence of this annoying and distressing mulady may thus be pre-

"The Spaniards laid a few mines last win ter, but on May 5 the work began on a larger scale. I saw men at this work in the cross from Morro castle to the buoy which marks the shallow water opposite. Directly and two mines each, so that the entrance to

"I visited all of the forts and I am sure that the only modern guns in use are those taken from the cruiser Reina Mercedes There are two of these guns at Morro and the others are at La Zacapa and Punta Carda. There are 160 soldiers at Morro fifty at La Zacapa, and 160 at Point Blanco believe they are good gunners, at least 1 persons have joined the ranks. never saw them practice during my stay of the province of Santiago, and 8,000 in Santiago and outlying towns. They are well ordered and well armed."

NEW YORK, June 4.—A package six nones long, two inches wide and two inches seep, with a wrapping of manila paper, and tied with a string, was received in the gen-oral postoffice yesterday, addressed to Mayor Van Wyck. The package happened to break and a dynamite cartridge four inches long was exposed. A fuse was attached to one end of the cartridge. It was admitted at the city hall today that such a package had been received, but no further information was given. The postmark of the package

Frank P. Williams, who is receivers' agent del Padra there were 1,260, and at Gibara of the Harney Peak Tin Mining company's properties at Hill City, S. D., is in the city taking in the exposition. Mr. Williams, in talking of the bearing of the current war on the mining industry, said that the war had the effect of shutting off the inflow of mining capital. In the southern hills he said several young and promising enterprises have been suspended as the result of the war. All of the big companies, however, are in active operation and getting out their usual monthly shipments of gold bullion. Mr. Williams spoke very encouragingly of the prospects of the Holy Terror mine becoming one of the bonanzas of the southern hills in the very near future. The Jennie shaft is now down 600 feet, and a very rich body of ore has been encountered. company has purchased the Keystone Mining company's grounds, contiguous to its own, and will develop it. Of the Black Hills mineral exhibit at the exposition, Mr. Williams said the people of the hills are confident that the exhibit will turn the attention of exposition visitors toward the minng regions, and will doubtless be the means of turning the trend of much mining capital hillsward.

> Ray Hubbell of Northville, N. Y., stopped in Omaha on his way to the far west and while taking a "turn" through the exposition is visiting the exposition and sight-seeing grounds. Although a democrat. Clay Davis the first time in a western city. Hubbell says that he had very strange glad to meet. ideas about what western civilization was ike and was pleasantly disappointed in that respect. Mr. Hubbell was delighted with the exposition and does not hesitate to say that it is the finest exposition in many respects which has even been held in the United States. The opinion prevails in the east, Mr. Hubbell says, that Nebraska is a fair and be says the exposition is equal very uncivilized sort of a state and that acommodations are not good and furthermore that the exposition is a mere focal affair. but he thinks that after a few eastern people have returned home and told what a surprise was in store for them that Omaha and the exposition will receive the
