RESTS WITH THE COUNCIL. Prospect for a Direct Line to the Exposition Grounds. TERMINAL COMPANY'S PROPOSITION. General Manager Webster Makes a Statement to the City Council of What He Is Willing to Do if Allowed. The question of whether the people of Council Bluffs shall have direct means of transportation to and from the Transmississippi Exposition grounds now lies with the city council to determine. The Omaha Bridge and Terminal company is prepared to afford the desired means, providing the city will grant it certain concessions in the matter of terminal facilities at this end. At the adjourned special session of the city council yesterday morning General Manager Webster of the Terminal company was present and submitted for the consideration of the aldermen an ordinance amending the ordinance of the city of Omaha, No. 11, which ordinance granted the Terminal company a right-of-way over and along Union avenue, from Ninth street and Broadway to the Union Pacific transfer grounds. All that the company now asks is that this ordinance be amended to meet present conditions. The company owns the vacant portion of the western end of Union street and Broadway, opposite the Union Pacific dummy depot, and Mr. Webster stated that his company contemplated building its depot there. Another depot, he said, would also be built at Broadway and Eighteenth street to accommodate the residents of the western and southwestern portions of the city. If the amended ordinance is passed by the council, Mr. Webster says his company will at once go to work and complete the laying of the track so that the service will be ready by June 23, the day set for the dedication of the Iowa State Exposition at the exposition. In answer to the query as to the fare that the company intended charging, Mr. Webster stated that the present idea was to fix the single fare to or from the exposition at 15 cents, or the round trip at 25 cents. The service he promised would be frequent and rapid, and the trip to and from the exposition would take less than twenty-five minutes. The matter was, after considerable discussion which showed that the aldermen were evidently in favor of granting the request made by the Terminal company, turned over to a special committee consisting of Councilmen Johnson, Johnson and Atkins, and the mayor and city attorney. The committee was instructed to report at the regular meeting of the council Monday night. How to Keep Cool. It will be hot enough; no need to worry about that. That being the case, the best thing to do is to try and keep cool and enjoy life to the hilt. In doing this there is a nice, easy hammock. There are lots of hammocks, but when buying get a good one and something that will last more than one season. We have just got in our large order for the season's trade and if you want a hammock, we want to sell it to you. Come in and see the lot. In Council Bluffs for the smallest amount of money. Davis, the drug, paint and glass man, 200 Broadway. Moquette carpets from 85 cents up at the Stockert Carpet company, 205 and 207 Broadway. Don't go fishing on Sunday. Stay at home and go to church. You can do this if you buy your fresh fish today of Sullivan, the grocer, 343 Broadway. Lawn mowers \$3.00 at Cole & Cole's. MOTOR COMPANY'S NEW PLANT. City Council Grants the Permission to Start Its Erecting. The ordinance granting the Omaha & Council Bluffs Railway & Bridge company the right of way for a side track or turnout across Broadway and Avenue A between Twenty-eighth and Twenty-ninth streets was passed by the city council at its adjourned special session yesterday morning. This right of way is needed by the company in order to haul coal and other material to the new power house which it will erect west of the car barns between Avenues A and B. Ground for the power house will be broken tomorrow morning by Wickham Bros., who have the contract for the brick work, the iron and steel work being let to C. E. H. Campbell. The contract provides that the building shall be completed ready for the installation of the machinery within fifty days. The power house, which will cost upwards of \$20,000, will be a handsome structure of red pressed brick with white stone trimmings. There will be two tiers of windows on the sides and three on the ends, giving the building the appearance from the side of a two-story structure and from the end of a three-story one. The dimensions of the building will be 41x129 and forty-two feet high to the cornice. The south side will face the track on Avenue A and passengers between here and Omaha will be able to see the massive machinery at work from the car windows. The building will be set back sufficient distance from the track to allow of a handsome lawn in front. All the machinery that will be placed in this house will be new and of the latest improved pattern. The engine room will be white-painted with white enamel tiles bricks to a height of six feet from the floor. The balance of the walls being painted white. All of the floors will be of polished hard wood. The building has been planned large enough to admit of placing a duplicate plant in it and this motor company proposes to do in the near future. As soon as the building is completed and the machinery in working order the present power house will be abandoned and placed on the market for sale with all its machinery. The company has recently expended several thousand dollars for copper feed wire and from the new power house feed wire will be strung to Thirty-fourth street, to Fairmount park, to Pearl and Fifth avenue, to Pearl and Broadway and to the end of the line on South Main street. This will insure the best of service on every part of the system as these feeders will be so arranged that if one feeder of the road is interfered with, trains on the other parts will still be able to run and prevent as at present the shutting off of all power along the entire system when any break occurs. Loblomax at the lowest possible price at the Stockert Carpet company, 205 and 207 Broadway. Fruit for the Wigwag. At a meeting of the Council Bluffs Grape Growers' Shipping association yesterday afternoon the members expressed themselves as being willing to furnish all the fruit necessary for an exhibit in the Potomac waterway. The members, however, did not feel that if they furnished the fruit they should be called upon to bear the expense of hauling it to the exposition and putting it in shape for the exhibit. The

matter was discussed informally and at the suggestion of President Hess it was decided to hold another meeting next Saturday, when every fruit grower in the county will be invited to attend and arrangements for the exhibit made. The first assignment of the season of home grown strawberries was received yesterday at the association's headquarters on Broadway were put on the market by Manager G. M. Allinson. The berries brought \$2.25 a crate, considering the competition of imported fruit, was very satisfactory to the association. The members all say the prospects for a big crop of all kinds of berries this year are very bright. Charles Koenigsmacher of the First National bank was re-elected treasurer. The visitors to the great exposition should not miss the opportunity of seeing the big variety of fresh fish at the store of Sullivan, the grocer, 343 Broadway. His display of the finny tribe beats 'em all. Easy payments on steel ranges, refrigerators and gasoline stoves at Cole & Cole's. TO RENEW INCORPORATION. Iowa's Attorney General Makes an Important Ruling. NOT NECESSARY TO REPAY ORIGINAL FEE. Only a Small Recording Fee is Required to Renew When Life of the Organization Has Expired. DES MOINES, June 4.—(Special Telegram.)—Attorney General Remley today submitted an opinion relating to the renewal of articles of incorporation. He holds that when the time for which a corporation is organized has expired and a renewal is desired, the company will only have to pay a small recording fee, and will not have to repay the original fee, which in many cases amounts to several thousand dollars. Many concerns in Omaha and Council Bluffs are interested in the opinion. That the proportions of A. C. Stocker of Chicago, who has solicited a large amount of business in the life insurance business, offering a 5 per cent reduction in rates for risks in a long list of standard companies, which caused considerable consternation among Des Moines insurance people, cannot be carried out, is the indication from a letter received by the Hayvee insurance company today. It came from H. C. Eady, resident secretary of the Commercial Union Assurance company, limited, of London. It was addressed "To whom it may concern" and said that A. C. Stocker & Co. have no connection with the company and had no authority to write risks for the company, but that if in any list of companies they submit there is the name of the company, it should be noted that the use of the name is wholly unauthorized. The Commercial Union was one of the companies in the Stocker list. This afternoon Judge Bishop of the district court rendered the decision of the arbitrators in the case of James Gallman, W. O. Curtis, assistant, and James Savary. All the findings of the board were affirmed and every one of the objections raised by both parties was overruled. The case involves several hundred thousand dollars and was decided by the arbitrators about a month ago. It grew out of a division of the property of the American Emigrant company, in which Callan and Savary are interested. Neither party was satisfied with the original decision and it was carried into the courts with the result as above stated. Receiver R. H. Layman of the Reigelman Millinery company, whose failure caused somewhat of a sensation a week ago, and has been in the courts ever since, filed his report today showing assets aggregating \$250,000 and liabilities amounting to \$172,000. The court today overruled the motion made by the creditors asking for the removal of Layman as receiver. Moral Iowa Town. WEBSTER CITY, Ia., June 4.—(Special Telegram.)—Wallace's circus billed this town for the 10th inst., using the ordinary show posters and erecting a great number of bill boards.
