Improvement in the Weather Gives Wheat a Downward Turn.

JULY AND SEPTEMBER EACH CLOSE LOWER

Other Markets Are Also Weak and Corn and Oats and All Lines in Provisions Show Declines.

CHICAGO, June 22.—Improvement in the weather and details from France of damage by rust turned wheat downward today. July left off 1/4¢ lower and September lost 1 3/8¢. Corn and oats are 1/4¢ down. Pork declined 1/4¢ and lard and ribs 1/2¢ each.

Wheat started weak on the fine weather throughout the country. The demand from Paris of any amount was cut to the French crop was also a factor at the opening. Liverpool cables were an additional disappointment to the bulls, as it was expected that the sharp decline yesterday in Chicago would be reflected on the other side. Under such conditions the bulls soon began to feel nervous and let go a good deal of their high priced wheat. September, which closed yesterday at 82¢, sold down to 81 1/2¢. July, which left off last night at 74 1/4¢, declined to 73. The domestic crop reports were not unfavorable by any means, but offerings on the market were the market's weakest.

French house in the grain trade was reported, and the name of the principal being credited was at the middle of 1914. A great firm of Louis Dreyfus & Co. of Paris, which closed a long time ago, was mentioned. There was a sharp rally from the lowest point when it was known that the Dreyfus firm had been bought by a significant concern doing a small business on a limited capital. Domestic receipts were heavy. Chicago receipts, 3,000 bushels, including and Duluth, 57. The Atlantic port clearances were equal in wheat and flour to 10,000 bushels. Flour, 10,000 barrels. 70,000 bushels, declined to 72 1/2¢, then sold up to 73 1/2¢ at the close. The range in lard and ribs was 1/2¢ down to 87¢, then rallied to 87 1/2¢ at the closing price.

WHITNEY HAS THE HEDGE. West Point Exploit of the Lieutenant Who Explored Porto Rico.

In the last few days many stories have been printed about Lieutenant Henry H. Whitney, Fourth artillery, who received a commission from Porto Rico with valuable information for the War department. There is one incident of his career relates the Detroit Free Press, that he did not find any way into the newspapers.

Whitney is the son of a clergyman, and today is in the army. He was a soldier in the army, and he was a soldier in the army. He was a soldier in the army, and he was a soldier in the army.

There was only one thing for him to do—run the hedge and take his chances. He did so, made his call, said everything but what he intended to say, and then he ran the hedge and took his chances.

Whitney was a soldier in the army, and he was a soldier in the army. He was a soldier in the army, and he was a soldier in the army. He was a soldier in the army, and he was a soldier in the army.
