National Eclectic Medical Association Refuses Them Membership.

DEVOTE THE MORNING TO BUSINESS

Doctors Then Decide to Take the Afternoon and Evening to View the Exposition-Levy a Per Capita Tax on Members.

Gynecology, surgical and medical, was the subject engrossing the attention of the National Eclectic Medical association until noon yesterday. It was divided into two sections, that discussing the surgical phase being presided over by Dr. E. L. Standlee of St. Louis, who submitted a paper on "Salpingitis," and that covering the medical being presided over by Dr. Thomas Garth of Clarion, Ia. In the latter section papers were submitted by Drs. George Covert of Clinton, Wis .: T. E. Casteline of Edgar, Neb.; M. A. Carriker of Nebraska City and

During the early morning proceedings the amendment to the bylaws, submitted by Dr. G. W. Boskowitz of New York a year ago to provide for a levy of a per capita tax of 10 cents for the benefit of the national association, was adopted after it had been thoroughly sifted. Dr. Boskowitz, in explanation of his amendment, said it was simply applying the idea of certain secret societies in their methods of supporting their grand lodges.

Later in the session Dr. J. F. McClanahan of Boonville, Mo., proposed an amendment to the bylaws to cut down the annual dues \$2. The membership fee is now \$2, and the annual dues \$5. Dr. McClanahan desires to make it \$5 altogether, and said he knew a a great many doctors who would join the national association if the proposed reduction were made. Under the rules his amendment will lie over for a year.

The credentials committee reported that it had refused the application of the New England Eclectic Medical society for recognition as an auxiliary body on the ground that it cannot be recognized as either an auxiliary or a subordinate society, because it is an organization of a general character, drawing its membership from the several New England states. To a certain extent it competes with the national association and its rules are not so strict, he said. The report was adopted, as was also its recommendation that a number of state and other societies, which had been accustomed to send delegates, be admitted as auxiliary bodies. Cost of Trip to Paris.

Dr. J. K. Scudder of Cincinnati, chairman of the committee on the Paris 1900 exposition, conveyed the information in a report that through correspondence with several transportation companies his commithad ascertained the cost a trip to Paris, by way of England, stopping a week in England and devoting two weeks to Paris, to be \$210, inclusive of twelve admissions to the Paris exposition. If less time were spent in England the figure might be cut down to \$190. Additional time in Paris would entail an extra expense to the visitor of \$2.25 per day. However, if the trip were made from New York direct to Havre, the cost might be reduced to \$160. The committee desired more time and it was there-

fore continued.

On the president's address Dr. Farnun named Drs. A. W. Smith of Chicago, J. R. Duncan of Crawfordsville, Ind., and R. L. Thomas of Cincinnati as the committee. The committee on necrology reported reso lutions in memory of Drs. Julia R. Howe of Chicago, George Kirkpatrick of La Harpe, Ill., and James Anton of Lebanon, committee to receive contributions for the King memoria tablet, it had been stated in the president's address as having been appointed by the late Prof. John King and Prof. Uri Lloyd of Cincinnati, consists of Drs. J. K. Scudder of Cincinnati, G. W. Boskowitz of New York and D. Maclean of San Francisco.

After the second section of discussion had closed the association adjourned until this morning, intending to give up the remainder of the day to the exposition. The doctors visited the exposition in an

informal manner, although at first it was the intention to go out in a body, but the heat interfered with the original plan. All the afternoon and a good part of the evening were speat in viewing the sights and going through the buildings, and when they returned to the Millard hotel they had nothing but words of praise for the Transmississippi Exposition. All the doctors who have their wives here with them took them along.

Confederation of Colleges.

Before the start was made for the exposition grounds a meeting was held at the Millard hotel by the Confederation of Colleges. Two out of the seven eclectic medical colleges of the country were not represented, those at Atlanta, Ga., and San Francisco. The others were represented as follows: Dr. Edwin Younkin, that at St. Louis; Dr. W. S. Latta, that at Lincoln, Neb.; Dr. J. K. Scudder, that at Cincinnati; Drs. N. A. Graves and E. J. Farnum, that at Chicago, and Drs. G. W. Boskowitz of New York and P. E. Howes of Boston, that at New York. The meeting resulted in a decision to stick to the four-year term and refuse to yield to the five-year agitation, but the Georgia college is to be notified that it must adopt the four-year term or be dropped from the list of the national association. At present the college at Atlanta has only a three-year course for medical preparation. Dr. Younkin was re-elected president of the confederation and Dr. Scudder secretary and treasurer. Dr. Latta was made vice president, an office which previously did not

This morning will probably take place the election of officers of the national association. If the section of sanitary science, to which it had been intended to devote yesterday evening, is not entirely omitted from the program, which is hardly likely, Dr. Howes of Boston is to submit a very inter-

National Association of the Hahnemann School Meets This Evening.

CONVENTION OF UNUSUAL IMPORTANCE

Matters of Deep Interest to the Pro fession Will Be Discussed During the Week-Outline of the Program.

The convention of the American Institute of Homeopathy, which commences today in this city, will go on record as one of the most important medical gatherings this country has witnessed for a great many years. It will remain in session at whole week, a period of time unusual for annual meetings of medical associations. The time, however, was made ample this year so as to give the several hundred delegates and their wives plenty of opportunity to take in the exposition and gain a personal experience of transmississippi progress.

The sessions will be held at the Creighton Medical college at Fourteenth and Davenport streets, but the opening meeting of the institute proper will be at the First Congregational church, at Nineteenth and Davenport, this evening. A materia medica conference is to be at the Creighton college this afternoon, beginning at 3 o'clock, and among others an important paper is expected from Dr. Timothy F. Allen of New York.

This is the fifty-fourth annual convention of this national body. It claims to be the character is appreciated in Omaha. the First Congregational church this evening, according to the program-Governor Holcomb on behalf of the state, Mayor Moores on behalf of the city, and one also from Dr. O. S. Wood, the chairman of the local committee on arrangements. The annual address of the president of the assoclation, Dr. A. R. Wright of Buffalo, N. Y. is also expected. As did President Farnum of the Eclectic association, Dr. Wright will recommend that measures be taken to bring about such legislation by the different states as may result in a uniform law all over the country governing the licenture of physicians and the regulation of practice. He may urge an extension of the college term, and, if so, will differ from Dr. Farnum in this respect, but the homeopaths have always been very much inclined to the longer term. It has been due principally to homeopathic agitation that the college terms in the past have been extended; they are now desirous of seeing the five-year term inaugurated.

On Professional Business.

On Friday morning the technical part of the program of the institute proper will begin with a section on clinical medicine and will be the papers and discussion on pneudiscussion of the use of antitoxines in the cure and prevention of diseases will be started by a paper from Dr. Charles Gatchel of Chicago, editor of the Medical Era. Dr. Gatchel has also written a song of a very patriotic character, having Rudyard Kipling's "Lest We Forget" in mind. It is entitled "We'll Not Forget," and will be sung by the choir at the First Congregational church this evening. Saturday is to be largely devoted to the bureau of surgery and that of diseases of the eye, ear and throat. On Saturday evening there is to be a reception at the residence and art gallery of George W. Lininger. On Sunday evening the memorial services of the institute are to be held at the First Congregational church. Addresses will be delivered by Dr. O. S. Runnells of Indianapolis in memory of the deceased senior members of the association-those who had been members for twenty-five years or more-and Dr. Julia Holmes Smith of Chicago for the funiors. There will be appropriate music by Homer Moore's choir.

The election of officers is about the next thing on the convention program and Monday forenoon will probably be given over mostly to that, apart from the technical work. The remainder of the day is to be occupied with a discussion of sanitary sci ence, particularly along the lines of the powers and limitations of city boards of health. Sanitation of military camp hospitals and all the branches pertaining to military climate, will afford a rather unusually in teresting day's work and quite opportune considering the war in progress. This bureau is to be presided over by Dr. Edward Beecher Hooker of Hartford, Conn. A reception and ball at the Millard hotel are dow for Monday evening, to be given by the Wednesday are to be taken up principally

women of the ladies' auxiliary of the local committee on arrangements. Tuesday and with the bureaus of diseases of women and children, nervous diseases and electro-

City Ticket Office, No. 1392 Farnam St. therapeutics. A business session Thursday is to conclude the convention.

Local Committee's Work.

The local committee has been for some time making the necessary arrangements for the coming here of the American institute. and Chairman Wood has so systematized a subcommittee on excursions; Dr. D. A. of Agriculture. Poote, the secretary, was assigned the press; to Dr. C. H. McAdow, the hotels and banquets; to Dr. Fred Teal, the reception and locating of guests, and to Dr. W. H. Hanchett, P. C. Moriarty, S. J. Quinby, R. W. Connell, various other matters, and Dr. P. J. Montgomery of Council Bluffs is to look after the members from Iowa.

Dr. J. H. McClelland of Pittsburg, who chairman of the Hahnemann memorial monument committee, had already arrived last night, accompanied by his family. There is a miniature of the Hahnemann monument among the numerous exhibits at Creighton college. The original monument, with its homeopathy, cost \$75,000 and is to be placed parts of Europe and some from more remonear the public library building at Washington.

In addition to Dr. Gatchel of Chicago there are several very well known editors of homeopathic journals in the association Dr. Frank Kraft of Cleveland, the recording secretary, is the editor of the American Homeopathist, published at New York; Dr. C. E. Fisher of Chicago is the editor of the Medical Century, and Drs. S. S. Smyth and S. W. Anderson of Denver are associated together on the Critique. Drz. Smyth and Anderson will endeavor to get up an excursion of the members of the institute to Denver and Salt Lake at the close of the convention.

Besides Da McClelland of the Hahnemann monument committee, the two brothers, Drs. T. Franklin Smith and Henry M. Smith of New York, the latter of whom is the secretary of the monument committee and the former the assistant treasurer of the institute, were among the early arrivals

Saturday night is the date fixed for the general Alumni banquet at the Millard. As the trains come in today bringing the visiting doctors they will be met at the depot by Dr. Fred Teal and an escort of High school cadets.

ONE DEVIL SLUGS ANOTHER Employes at the Big Rock Quarret with Disastrous Results to Both.

Two men employed in the "Devil's Rock," concession on the Midway, became engaged in a row last night just before 11 o'clock and one struck the other across the face with a chair, fracturing the bones of the nose and bruising the face in several places. The injured man was rendered unconscious for about an hour and was removed to the hospital in the ambulance. His assailant made his escape to the scaffolding in the bigh peak of the "rock." where he was dislogged with difficulty by the guard. He resisted arrest and kicked the arresting officer. He was removed to the police station on the grounds and afterwards taken down town to the city jail. He refused to give his name at the exposition jail or to discuss the trouble. When the injured man regained consciousness he gave his name as Aleck Acaille and his home as New York City, but his half conscious condition precluded extended questioning on the part of the hospital attendants. His injuries were not considered serious.

HEADQUARTERS NOTES.

Another

Today we call attention to another instance of the great and persistent value giving which has made The Nebraska famous from one end of the continent to another. This time it's Suspenders. We placed on sale yesterday the first thousand dozen of men's light weight suspenders in fancy webs, which we are able to sell for ten cents a pair without anybody loosing money by the operation. These suspenders were made for us in the regular way by our regular suspender makers, and they are the same grade as you usually find marked 23 cents in "great" sales as the result of some special misfortune. These are not misfortune suspenders. They are new, fresh, handsome goods, right from the hands of the maker, and the only misfortune about them is that we cannot always get as many as we want of them. They have the patent roller ends, patent cast off, patent saw tooth adjuster, and if you paid a quarter for them you wouldn't pay too much-in some stores. See them in our window. Only three (3) pair to a cus-

Suits Crash \$1.35, \$1.90, 82.00, 82.25 82.50, 82.75 83.50. The 1st Nebraska Regiment Responsible

The expedition to Manila, with the Nebraska regiments, caused crash cloth to advance 57 per cent.

Who don't believe it? The soldier

boys will wear crash suits on the

Philippines. Isn't that sufficient ground for a 57 per cent raise! Just think, what a maryelous foresight we have. Eighteen minutes before Dewey conquered Manila we bought a shiplond of crash suits. You are cruel not to believe that. Perhaps some other store could make

you believe that crash suits could not be had at less than \$2.50 a suit! Please believe it until you see our \$2.00 linen crash suits. Couldn't be sold less than \$2.50 anywhere. Quite right. It takes 50e more profit to run a high toned and desirably located establishment than a side-street,

away-from-town simple store. Cotton Crash Suits are but \$1.35 here-a profit of a dime is good enough. It will reach as far toward paying expenses of this store as a half dollar at a pretty big store. That's why no other clothing store bragger or belittler sell suits at \$1.35

Our \$2.50 Crash Suits are likely the same you pay \$3 to \$3.50 for everywhere. Crash Pants, 30 to 50 inch waist

and how much cheaper they can buy

things than we do.

шенвиге, 65с. Pancy Ducking Pants, 30 to 50 waist measure, 65c. Crash Single Coats, 75c.
