GOSSIP ABOUT WOMEN.

Woman's ability to maintain, equally with men, a due composure in time of political or national excitement, is interestingly set forth in a letter by Alice Stone

In all the public discussion and excitehave shown themselves as strongly inter-ested as the men. One of the stock argunents against equal suffrage has been that if women were allowed to vote, political excitement would injure their health, and perhaps unhinge their reason. Representative Hayes of Lowell even went so far as life of the new law. to say in the Massachusetts legislature few years ago that if the woman suffrage an insane asylum in every ward in Boston. On the rare occasions when political excitement really does go up to white heat, the women inevitably it to the full. The fact that they cannot vote is no protection. An epidemic of intense political excitement in the community can no more be limited to one sex than can an epidemic of yellow fever.

Co-operation of men and women during hese exciting days recalls the words of John D. Long, uttered several years ago 'Men and women meet together many imes a year and engage in the same in terests, not only in private life but in public relations. If there is an industrial or agricultural fair, or a village improvement terprise, they are equally active. The effect on individuals of the new war revenue bill, says the New York Sun, is something that a very small proportion of the general public has given any thought to. The importers, manufacturers, jobbers, retailers, in fact, all merchants who hand their wares over to the general public for consumption, have not been so remiss in this matter, and the result is that most of those who come in for heavy taxes under the new bill have arranged things so that their share of the war revenue will be paid by the consumer. Then there are many other things in everyday use by the general public, such as bank checks, deeds, mortgages conveyances, notes and steamship tickets that the individual himself must pay the tax on. There is going to be a great number of surprised citizens on the first day that the new law goes into effect, which will probably be on July 1, because the ar-
