Lincoln Local Notes.

Two disastrous fires this season have developed the fact that Lincoln is deficient in fire fighting apparatus, and that the water power is too weak to be efficient in battling with a big blaze. At the burning of the Fitzgerald building the other night the streams that were turned on failed to reach the two upper stories of the building, and when the heat drove the firemen further away the streams were of no use whatever in fighting the fire and were turned on the adjacent wooden buildings to prevent further spread of the flames. It is generally believed that if the water pressure had been strong and the fire department had possessed a good tower or aerial ladder the fire could have been confined to the upper floors of the creamery and the building might have been saved.

The students of the university summe school will go to Omaha Wednesday and Thursday to visit the exposition, the recitations for those days being adjourned. The students are to have special rates and special coaches for the excursions.

The twenty-third session of the Lancaster County Teachers' institute closed yesterday afternoon, the session having been more largely attended than any of the preceding ones. At the close the teachers passed appropriate resolutions commendatory to the work of the instructors.

Lincoln lodge, No. 19, A. F. and A. M. held its annual installation of officers last night, the following being installed: Frank M. Tyrrell, master; Edgar J. Hearn, S. W.; Alex E. Porter, J. W.; J. Narrow Escape from Death. CHADRON, Neb., June 25.-(Special.)-Mr. and Mrs. Lars Oleson and their daughter, Mrs. Charles Keith, had a miraculous escape from death this week at the home of the Olesons, situated on the Table, twentyfive miles south of this city. Mrs. Keith is the wife of a railroad man and was visiting her parents when a violent electric storm arose. The house was struck by lightning, the bolt descending a chimney into the room where the family was sitting. Mr. Oleson was struck by some of the debris caused by the lightning and was painfully short time. Fortunately, all of the vic-

In this city it amounted alof this city waged throughout this portion most to a torusdo and left wreckage and ruin in its track. Fortunately no lives were lost. The wind blew from the northwest and was accompanied by incessant flashes of lightning, while the terrific roar and the crash of falling trees aroused the populace, which fled to places of safety. It lasted but ten minutes, but in that time hundreds of trees were blown down, chimneys leveled, barns and outbuildings down, but no one injured. A large ice house was leveled, some of its timbers being blown several blocks. The linseed oil mills were unroofed and the glucose plant dam aged. Limbs of trees were blown through roofs of houses and plate glass windows and telephone and fire alarm wires broken and
