Edward O. Kimball Explains the Doctrine of Christian Science.

DEFENDS TENETS OF THE SCIENTISTS

Members Work to Build Up Them selves and Others Through Pure Trust in God and Following in His Ways.

A defense of the principles of the belief of Christian science and a thorough explanation of what constitutes the belief made up the theme of a lecture delivered at Boyd's theater last night by Edward O. Kimball of Chicago.

The theater was filled and many people came who found no vacant seats downstairs and turned away. The lecture attracted all classes of people and the followers of the science were much in evidence. The speaker was introduced by A L. Clark, a newspaper man who is a prominent member of the St. Mary's Avenue Church of Scientists. His words of introduction were brief and quite to the point. lecture was free, as all Mr. Kim-

ball's lectures are. The expenses actually ing otherwise than good natured. The incurred are all that he requires. In this Forepaugh and Sells Brothers present a beevent the expenses were made up by the two local organizations. The lecture was kind which one expects to see in a circus at 50c. listened to by an audience entirely demo-

Elmself a Witness.

Mr. Kimball is said to have been restored from a long decline to health and vigor through the ministrations of the power known to those who find understanding and satisfaction in the study and interpretation of this belief. Since that time he has set to work championing its advancement, correcting misstatements of facts concerning it, denying what is charged to it and elucidating its tenets. The best part of the speech may be said to be what seems like a practical application to the needs and requirements of everyday life,

He said that the science gives a rational, satisfactory and unerring interpretation of Divinity. It enlarges a man's capacity for good, broadens him mentally, makes him better and sounder physically and morally. The disclosures of Christian science, the speaker stated, are that instead of being subject to material causation, mind rightly directed-and this means much-can present and cure disease and demonstrate its mastery over pain and sickness. A man without hope and lost in the mazes of sectarian and doctrinal clashings, while searching for the peace of God, should turn to the way of peace-Christian science. The scientific treatment is not vague or intangible, but is seen to be the only natural way and the operation of divinely natural law; indeed, he asserted that while Christian science is not at all of the nature of what is called faith cure or prayer cure, it is actually the manifestation of God with us healing us.

Buttling Against Ignorance. Mr. Kimball dwelt upon theological va-

garies to a large extent. He pointed out that the rising of a new creed for years after its advent upon the world called ignorant, unbelieving and non-understanding. Christian Science bas been assaulted -often absurdly assaulted-as a damnable heresy. He deprecated the fact that there should be objection to a belief or religious system because its founder is a woman. Christian Science teaches man how to know himself and God.

"We cannot go into an explanation of the exact nature of Christian Science treatment," he said, "but in the matter of sickness greater results have been thus effected than have been achieved by meditreatment. These include the healing of cancers, consumption. inaccessible tumors, abnormal growths, epilepsy, locomotor-ataxia and many other functional and organic diseases that have been considered incurable. Regardless. then, of what anyone may think or say it is incontestably true that hundreds and hundreds of malignant cancers have been healed by Christian Science. I understand that medical records do not record a single case of cure since the world began." Among other things Mr. Kimball, in con-

clusion, spoke as follows: We believe, among other things, in the efficacy of righteous prayer. Silent prayer discourages insincerity.

Knowing as we do that we are worship-ers of God, that He is the spirit that is omnipotent, good, life, truth and love; knowing that we are followers of Jesus Christ and striving to obey the ten commandments; that we are striving to cast evil out of ourselves and others; to bind the broken-hearted and heal the sickis it a wonder we ask this generation, "For which of these things are, we being stoned."

Excursion to Salt Lake City Via the Union Pacific.

SPECIAL EXCURSION TRAIN under the auspices of "THE CRITIQUE," Denver, Colorado, will leave Omaha on June 30th, 6:30 p. m., VIA THE UNION PACIFIC. HOT CHASE AFTER A THIEF

Two Policemen and a Householde Run Down a Daring House Burglar.

Frank Stewart, a stranger in the city, made a daring attempt at midday burglary vesterday and was captured, and is now locked up in the city fail. Before his capture he led his prospective victims and two police officers a long chase and was only stopped by a fusillade of bullets.

The house Stewart sought to loot is the residence of R. Phenix at 315 North Eighteenth. He entered the residence by

HEALING THROUGH BELIEF a basement window and made his way to He had collected all the valuables he could lay his hands on when he was discovered by Mr. Phenix. When he was told to throw up his hands Stewart broke and ran with Phenix in hot pursuit. A block away from the Phenix house Police Officer Dougherty joined in the chase and his revolver barked simultaneously with that of Phenix's, but Stewart only ran the harder. Officer Burns, who heard the shooting, joined in the chase and his revolver added its notes to the fusiliade. The other two pursuers were pouring after the fleeing man. Finding the shower of lead was beginning to grow too incomfortable, Stewart stopped and allowed himself to be captured.

City Ticket Office, No. 1302 Farnam St.

...AMUSEMENTS...

Everybody in Omaha did not attend the ircus yesterday afternoon and last evening, but a very large number of them did, and like the usual circus crowd it was good at 49c.

natured; in fact it had no occasion for benatured. The stripes and checks; \$1.00 quality, almost perwildering amount of entertainment of the show set the spectators a good example in decorous behavior. The circus, like everything else, has gone through its process of evolution, and that is apparent in many ways, but in none is it more noticeable than in the behavior of those connected with it. From the days in which everybody in town expected a free fight when the "show" came to town It has become like any other business enterprise to recognize that to prosper it must cease to outrage the good order of the community. The Forepaugh and Sells people present a cean performance, free from vulgarity and objectionable features. There is crowded into the two and a half hours of entertainment about everything in the acrobatic line, together with some very fine equestrian exhibitions and some really marvelous examples of what can e accomplished by patience and intelligent training of the lower members of the animal kingdom. Of the latter the performing seals are easily the most interesting and most novel. In their orchestral selections they are hardly up to the standard of Theodore Thomas' productions, but out of very unpromising looking material their trainer has succeeded in evolving a most highly entertaining act. There is too much of the performance to render it possible to mention each of the acts separately which are worthy of it. The entertainment is never allowed to drag for an instant, another feature which is appreciated by the specta-The three rings are kept constantly occupied and those who behold are scarcely through applauding one clever turn until another en gages the attention. Of the things which are not new, but which are worthy of mention from the fact that they are particularly well done, are the aerial performance of Lozelle, Garnella and Ryan; the Deveres female acrobats; the riding of Bennett and down upon it the curses and sneers of the Reed and of the Misses Davenport, Livington and Hobson; and a catchy feature was the dog chariot race. They go from Omaha to Nebraska City today, to Lincoln tomorrow and return to Council Bluffs the next day.

> The drummer boy of Shiloh gave an interesting lecture, illustrated with stereoption views in the Young Men's Christian association auditorium last night, the proceeds to be donated for the benefit of the Burt street Old Ladies' Home. The entertainment was a pleasing one and it is to be regretted that only a few persons availed hemselves of the opportunity of hearing and seeing the views, which were composed of various facidents connected with the War of the Rebellion and the fight at Manila, together with the landing of our troops in Cuba. The lecture will be repeated tonight at the same place and a more profitable evening could not be spent anywhere.

That the management of the Trocadero nave realized their ambition is evidenced by the great Transmississippi Turnfest. tage performance was fine, the audience all hat could be desired in numbers and appreciation. Miss Josephine Sabel, rightfully the leader of this week's corps of perform ers, was greatly appreciated in her catchy song and dance sketches, for all of appearng in the last number of the program. Harry Armstrong, of old with Jack Haverly's minstrels, pleased with original sayings and songs. The well known Bison City quartet, recently with "The Texas Steer," enthrilled with military songs, backed by descriptive scenery. Miss Vinnie De Witt, an exception ally fine cornet soloist, also gained carned applause by adding to her selections several national airs. Miss Mabel Cassidy, descriptive and operatic vocalist, was well received. Little Lula, the trapeze artist, is a wonder for one of her age. But, excepting humanity, of course. Frank Gardner's trained monkey is the wonder of the amuse ment seekers at present in this city.

About Rheumatism and How to Cure

I have suffered a great deal from rheumatism and find that Chamberlain's Pain Balm always gives me prompt relief. It is the best liniment I have used —J. W. Brock, merchant, Bromley, Ky. Peopie who have suffered for years with rheumatism have been cured by a few applications of this liniment. The prompt relief from pain which it affords is alone worth many times its cost. Try a 25-cent bottle of it. You are certain to be more than pleased with

AK-SAR-BEN SUBJECTS

Visiting Physicians and Electricians Wait on His Highness.

The Knights of Ak-Sar-Ben were last who sought entrance to the court of the royal house. They had their every wish gratified and could have had more had they asked for it. Everything, from the ice in the lemonade to the eggs in the sandwiches, was just what it was cracked up to be. So were lots of other things.

It was somewhat after 8 o'clock when a courier announced to King Ak-Sar-Ben IV that five score of barbarians desired admission. The portcullis was lowered and the tribe advanced. They were not the barbarlans they had been painted, but turned out to be splendid ambassadors from friendly courts. The initiatory ceremonies were observed with the usual solemnity, and after that everything went. The assemblage was turned into a big fellification meeting, and light when the court functions were at an end and the refreshments enjoyed all united in three cheers for King Ak-Sar-Ben IV, the most regal host of Quivera.

Boys' Waists ...

Maybe you've seen boys' waists advertised in dry goods. stores at 19 cents or 23 cents or some other catchpenny figure and when you went to look at them you've found them so poor that you just dropped them and passed on to the next counter and bought the ones marked 67 cents. You won't have to do that here. Our prices on waists. start at 15 cents. From that they go by nickels and dimes up to \$1.25, and at any price we quote you will find a good, well-made waist and you will find us. just as anxious to sell you a 15 cent waist, if you don't want to pay any more, as we will be to sell you a. dollar waist, if that's the price you want to pay. Come in today and see some new ideas in Waists and Blouses and see a stock of waists that was made up specially for The Nebraska and will be sold at Nebraska prices, which as you know are always lower than other stores. get for the same quality of goods. Amongst the new things you will find a choice selection of patriotic waists. in red, white and blue, at 75 cents each, and as most women say who see them, "The buttons and badges on them are worth that."

The Up-to-Date School Teacher Does Not Get Confused

but soon sees the advantage of purchasing that plane from us-Newhere else can she find all the old standard makes. Nowhere else can she compare one with anotherside by side on the same floor. The up-to date school teacher knows a good make from a poor one. The name on the piano tells her the story. Then again she generally knows when the price is right. We have 27 different makes including all the

bave 27 different makes including all the great leading pianos that are manufactured. Perhaps the new pianos we are selling at \$125 to \$185 ton time if desired) may interest her. Perhaps SHE MAY EXERCISE THE GREATEST ECONOMY BY INVESTING IN A CHICKERING AND BECOMING THE OWNER OF THE BEST PIANO THAT MONEY AND BRAINS CAN PRODUCE.

In any case she sees that the first step is to make us a visit of inspection—because we are the only people in Omaha who sell either the Chickering, Steinway or Fischer. We also sell the Baidwin, Ellington and Hamilton with 21 more différent makes. We sell on time if desired. We sell all pianos for \$100 to \$150 less than you can buy them elsewhere. New Emerson planos as low as \$155. New planos for rent and amount paid allowed to apply on purchase.

Crash Hats 20c

Why an American made Crash Hat is preferable toa Chinaland stiff straw hat. Find here a pretty collection of crashhemp-lace -bamboofibre at 45c Straw hats down to 20c.

The beautiful, sensible and flexible erash hat, is here to stay-Good. A comfortable light and niry head

covering against the hard, stiff and beary straw hat from Chinaland. And that's why the American crash hat has eaught on with such wonder-

ful swiftness. Some stores will tell you that a crash hat is nothing more than a

ridiculous craze. It is because that they haven't any erash hats to sell, or more likely in order to rid of straw hats that have searcely any value at all.

A case of rule or ruin. The policy of this store is to enter to the wants of the people. We don't consider a person crazed who wants a thing we don't see fit to sell. You will-undoubtedly-find here the largest variety of crash hats. We

stocked up because the people want them, and, earlier buying-too-has a good bit to do with the lower prices we quote. Plain crash hats are only 20c here. Better grades 25c, 35c. Linen ducking-fancy or plain-at 45c, and twen-

ty odd different patterns and several styles to select from. And there is the Samboo hemp, lace fibre, Panama, and all other new anti-straw hat effects. 75c buys the most expensive. 25c to 50c less than

elsewhere. You don't want straw hats? Don't blame you. We don't either. That's why you buy a good one here for 20c.
