

E. ROSEWATER, Editor. PUBLISHED EVERY MORNING. TERMS OF SUBSCRIPTION. Daily Bee (Without Sunday), One Year \$5.00...

STATEMENT OF CIRCULATION. State of Nebraska, Douglas County, s.e.c. 1. The Bee Publishing Company, being duly sworn, says that the actual number of full and complete copies of The Daily Morning Evening and Sunday Bee, printed during the month of May, 1898, was as follows:

Sworn to before me and subscribed in my presence this 24th day of May, 1898. N. P. FELL, Notary Public.

Prudent travelers will avoid going to sleep on a railroad train after July 1 without first being stamped.

The new American navy continues to grow. This is contrary to the usual rule while a naval war is in progress.

The financial report of the reform state committees shows conclusively who are the reformers for revenue only.

Anybody can make any kind of a prediction, but predictions, like threats, are always dangerous for the people who make them.

The popular uniform of the invading army is said to consist chiefly of a cartridge belt, a rifle and a plug of tobacco.

The first month of the exposition is nearly over. Only four more months in which to enjoy its beauties and benefit by its instruction.

The reason the American army and navy do not attack the other islands where Spanish is the language of the people is that Spain lost them long ago.

Uncle Sam is going to establish and maintain three large farms in Alaska and prove that the territory is good for something else besides growing mushroom mining companies.

What's the matter with Congressman Bill Greener? How can he hope for a re-nomination at the hands of the reform forces until he puts up the staff for his unpaid 1897 campaign assessment?

After their experience in Denver it may be regarded as settled that the women of the United States are quite competent to get up a first class convention contest with regulation accessories.

The reappearance of rumors about the sale of a war steamer indicates that the agents of the Chilean government are beginning to fear that they will not be able to make an advantageous sale of the O'Higgins.

There is only one regularly constituted and legal police board in the city of Omaha and that is the board whose title has been recognized by the supreme court. The pretenders are the members of the defunct outlaw board.

One reason the populists are paying so much premature attention to the campaign of 1900 is that the leaders realize there is no hope of success before that time and unless an accident occurs not much hope then.

What have Councilmen Burkley and Lobek in common with the Herdman gang that they should feel impelled to stand up for the outlaws? The city council should above all things be unanimous in favor of law and order.

The democratic congressional caucus adjourned until next December without making it obligatory to abide by the caucus decision. By December it will be known whether there will be any democrats in the next congress to hold a caucus.

No teacher will be completely equipped for instructing the western youth about the magnitude and marvellous development of the transmississippi states who has not made a study of the wonderful display of western resources at the Omaha exposition.

The secrets of the financial report of reform state committees made public last week are of the most interesting nature.

THE SANTIAGO CAMPAIGN.

Nearly all public interest is now centered upon the operations before Santiago and the indications are that within a few days a terrific battle will have been fought there.

Among the many ways of showing patriotism, not the least important is acquiescence in the measures for raising revenue for carrying on the war. Such patriotism is as necessary as any other kind.

The Spaniards intend to make a most determined defense there can be no doubt. The fact that they have shown little resistance to the advance of the invading army must not be regarded as indicating that they may easily be driven from their intrenchments.

There need be no surprise at any development of European sentiment unfavorable to the decision of the president to send a squadron into Spanish waters for the purpose of menacing the ports of Spain.

But the suggestion emanating from Vienna, the hot-bed of pro-Spanish feeling, that "the powers could not permit such a development of war," will cause no apprehension here.

Upon what ground could opposition to this movement on the part of the European powers be based? The right of the United States to send war vessels into Spanish waters, to blockade Spanish ports and if deemed necessary to bombard them, is beyond question.

The fiscal year of the government closes today and it has in some respects been the most remarkable year in the history of the country. The financial affairs of the government have moved smoothly.

A Paris dispatch says that some of the French deputies expressed fears of unforeseen complications as a result of sending an American fleet into Spanish waters. It is not apparent how any complications can arise if the European powers observe a strict neutrality.

What may be hoped for from this movement, when it shall have been shown to be entirely serious in purpose and not an empty display, as seems to be thought in some quarters abroad, is that the powers will make an earnest effort to persuade Spain to abandon the hopeless conflict.

At a recent special meeting of the New York Board of Trade and Transportation a memorandum was adopted as the expression of the sentiment of that organization declaring that the commercial and manufacturing interests of the country owe it to the nation to accord with generous spirit every possible assistance and encouragement to our men in the field and on the sea.

The brewer or saloon keeper who borrows himself to be held up for contributions to a defense fund for the defunct police commission writes himself down in favor of blackmail and lawlessness.

The defunct police board organ insists that wherever there is a conflict between himself and the supreme court the supreme court counts for nothing.

The day a huge capacity of national danger. The war revenue bill just become a law is not perfect and it may or may not produce the necessary revenue, but everybody recognizes that the men who framed it were actuated by good motives.

When the time comes for final settlement it is not at all certain that Spain will want to invite the other European powers into the conference.

APPROACHING SANTIAGO.

Indiana Journal: Santiago is sure to fall sooner or later. Indeed, already short of provisions, its army can be starved out in a short time.

Chicago Chronicle: We are now upon the point of learning the forgotten lesson now. Before Shafter enters the city of Santiago de Cuba at the head of his victorious army many a gallant American soldier will have found a last resting place beneath the palms of Cuba.

Kansas City Star: The artillery and engineer corps of the Americans are much more skillful than those of the Spaniards, and the difference will be felt from the moment the siege begins.

Brooklyn Eagle: The delay in the payment of our soldiers is becoming scandalous. If the men were working for a private firm instead of the United States, they would not be kept without their money for more than twenty-four hours.

Chicago Chronicle: The delay in the payment of our soldiers is becoming scandalous. If the men were working for a private firm instead of the United States, they would not be kept without their money for more than twenty-four hours.

A REMARKABLE SPEECH.

Senator Morrill's Protest Against Territorial Expansion. Springfield, Mass., Republican. The speech opening the debate against the Hawaiian annexation resolution in the senate last week came from a man who has been for more than forty years a conspicuous figure in congress.

Chicago Chronicle: We are now upon the point of learning the forgotten lesson now. Before Shafter enters the city of Santiago de Cuba at the head of his victorious army many a gallant American soldier will have found a last resting place beneath the palms of Cuba.

Philadelphia Record: It is impossible to admire the arduous show by our fighting men at Cardenas, Guantanamo and Sevilla; but the lessons of the bloody experiences at those three points should impress themselves especially upon the minds of our officers.

Kansas City Star: The artillery and engineer corps of the Americans are much more skillful than those of the Spaniards, and the difference will be felt from the moment the siege begins.

Brooklyn Eagle: The delay in the payment of our soldiers is becoming scandalous. If the men were working for a private firm instead of the United States, they would not be kept without their money for more than twenty-four hours.

OUR DAILY BULLETIN.

THURSDAY JUNE 30 CHICAGO, June 30, 1898.—Today the Illinois Central will give electricity its most severe test as a substitute for steam power on railways.

Chicago Tribune: There is something so irresistible, so absorbing, in the watching of a hungry dog's tail that no man with heart in him can hold out against it.

Chicago Tribune: Caller—I understand there is to be a generally old-fashioned observance of the Fourth of July this year. Dealer in fireworks—Old-fashioned? Not by a thundering sight! We've got out things this year that'll make more noise than any livin' man ever heard before!

CHICAGO, June 30, 1898.—Today the Illinois Central will give electricity its most severe test as a substitute for steam power on railways.

Not Electricity But hot weather is drawing mothers of small boys to our children's department. The thing to do is not to get overheated—get some light weight clothes for the boys, a thin coat, a cool blouse or waist or shirt—gossamere underwear or a pair of linen trousers—we have them also a \$1.25—Bicycle suits.

The Royal is the highest grade baking powder known. Actual tests show it goes one-third further than any other brand.
