If you want to enjoy life on the Fourth take in Manawa

When the sea-lions were performing the circus one of the bystanders wanted to know if the show-man had borrowed that big fish at Sullivans, the grocer? The showman didn't know Sullivan, but he enjoyed the joke on the fellow just the same. The man declared he had seen something that looked like it at Sullivan's. It was probably the big June fish he had seen.

Missouri River Improvement Work. SIOUX CITY, July 2 .- (Special Telegram.) -It is quite possible that the entire charge of the Missouri River improvement work will be placed in charge of one officer, Captain J. C. Sanford of Sioux City. For some time there has been some talk of consolidating the St. Paul and St. Louis offices. There has been some official correspondence in regard to the matter, the funds for the improvement of the Missouri river are running low. No appropriation has been made by congress to replenish the depleted allowand there is need of close economy. Several attaches of the office have been let out

ances for the western departments, at least, on account of lack of funds. The appropriations for upper river points are just sufficie to maintain the work already done and keep it form disintegration while no new work can be undertaken. Should the St. Louis office be placed in charge of Captain Sanford, he would retain his residence in Sioux City, but would spend one-half of his time in St. Louis.

the Missouri-Kansas lead and zinc mining district has just closed. The district's output for the first six months of 1898 aggre gated in round numbers 260,000,000 pounds of zinc ore and 80,000,000 pounds of lead ore, which sold at \$3,000,000. The unusually hard rains of the spring prevented work in many of the mines from two to four weeks, causing a loss of about 1,000,000 pounds of ore. According to the present outlook, this year's output of the mines will reach about \$7,000,000. The last six months have

Captain Gridley Physically Unfit for Duty at the Battle of Manila.

ERIE, Pa., 'July 2 .- The first authentic details surrounding the last moments on earth of Captain Charles V. Gridley have been received here by his family, in a letter from Paymaster Galt, who had been assigned to care for the invalid and bring him home. The latter states that Captain Gridley had been ill for several weeks before the fight and arose from a sickbed to assume his duties on that glorious day. He remained on duty continuously, suffering from a rupture, which was so aggravated that frequent hemorrhages occurred. After sions upon the lake and where the the battle he was ordered home. CHICAGO WITHOUT PAPERS Strike of the Stereotypers Shuts Up All the Big Newspaper

Offices. CHICAGO, July 2.-None of the English papers were published in Chicago today, owing to a strike among the stereotypers. The stereotypers demand a reduction in the hours of labor and an increase in wages. It. was refused and as a result at 8 o'clock last evening the stereotypers refused to go to work. The following newspapers have entirely suspended publication pending a settlement of the issue: Times-Herald, Record, Tribune, Chronicle, Inter Ocean, Evening Post, Daily News, Evening Journal and the Dispatch. A meeting of the publishera was held at 11 o'clock this morning to arrange a plan of campaign and to provide for the resuming of publication at the carliest moment, and it was announced that no paper could be published tomorrow morning The publishers are acting together and will continue to do so. Already they have received a large number of applications from stereotypers in other cities, and it is the general belief that since something like 200 employes are directly involved the suspension will not be long.
