This morning at a little after 4 o'clock John McManigal, an old and widely known Lincoln citizen, died. The cause of his death was a complication of diseases which aggravated a serious liver complaint. Mr. McManigal was born in Huntington county, Pennsylvania, sixty-two years ago the 8th day of last January. During the early period of his life he was engaged in railroad business. He resided at Fort Wayne, Ind., and Springfield, III. He came to Lincoln in 1869 and engaged in the real estate business. Coming as he did when the city was but two years old, he took a very active part in the upbuilding and development of the capital city. He was always prominent in the democratic providers ber of Lancaster lodge No. 54, Ancient Free and Accepted Masons, chapter No. 6, Royal Arch Masons, Mount Moriah Commandery No. 4 and also of the Mystic Shrine. The his late residence, 1500 L street, tomorrow at 4 o'clock. The services will be under the auspices of the Masons.

Bicycle thieves were busy today in this city and three owners of wheels are mourning the loss of their steeds. The bicycles were taken from the university campus about 9 o'clock, supposedly by two men of suspicious appearance, who were seen prowling about a little while before.

Miss Laura Houtz gave a dinner this evening in honor of Mr. Harry Evans of Bloomington, Ill. Prominent society people of Lincoln were present.

The last week has been cool, with about the normal amount of sunshine and generally a deficiency in rainfall.

The average daily temperature deficiency was about 2 degrees. The daily maximum temperatures were about 90 degrees on one or two days, and during the remainder of the week were about 85 degrees.

The rainfall was below normal, except in some western and a few southeastern counties, where heavy local showers occurred. The heaviest showers occurred in Lancaster, Cass and Douglas counties, where the rainmost of the remainder of the eastern portion of the state the rainfall was less than half an inch and generally exceeded half an inch in the western portion.

The harvest of winter wheat and rye has made rapid progress and is well advanced bushels an acre. Farmers say it took much | Stacking and thrashing have commenced in the southern counties. Wheat will yield less than was expected a few weeks ago, but is a good crop. The oat harvest has commenced in southern counties and reports seem to indicate about an average crop.

Corn has grown well in all parts of the state and is generally laid by clear of weeds and in good condition. It is smaller than usual at this season of the year and is just beginning to tassel. Rain would be beneficial to corn in nearly all counties, but it has not suffered from drouth. Report by counties:

Congregationalist Council Recognizes Merit in Many of Them -Committees Appointed.

PORTLAND, Ore., July 12 .- At the morning session of the national council of Congregationalists a number of minor committees were appointed. The report on secret societies was read by Rev. W. H.

Davis of Newton, Mass. These organizations are not antagonistic in their purpose to the work of the churches. Widely influential secret orders put em-phasis upon certain fundamental truths of Christianity and demand in the character of their members those moral qualities

which we associate with religious standards The attitude of the Christian church toward these multitudinous secret orders should be courteous and Christian, for the church cannot afford to occupy a position of prejudice or unreasonable hostility upon any question of public opinion or social habit, for such a temper at once sacrifices both the spirit and the power of the Chris-

This sociological trend of our times has tremendous forces of good as well as of evil in it and the church will wisely sepaate the one from the other in its judgment and action.

NO HOPE FOR IMPRISONED MEN

Must Have Been Overcome by Foul Gases Long Before This Time.

CLEVELAND, July 12 .- While work is being pushed forward as rapidly as possible toward reaching the scene of last night's explosion, there seems to be little or any prospect that any of the eleven workmen who were in the tunnel when the accident occurred will be found alive.

J. Reynolds, who is superintendent of the construction of the tunnel, stated today that he had not the slightest hope in the world of rescuing the men alive. He said that the pipe in which the air is forced into the tunnel, ends about 500 feet nearer the shore han the workings where the men were employed when the explosion occurred. Owing to that fact the foul air and gases would be forced onto them before it would begin to escape into the other portion of the tunnel. Should it happen that any of the men are alive they would, as speedily as possible, make their way to the pipe, where they would be assured of safety for a time at least. As the air enters the tunnel from the pipe with considerable force, it would have a tendency to force back the impure air and create a space of at least ten feet, where

comparative safety would be assured. Superintendent Kingsley of the waterworks department said today that he had no reason to believe that there has been any cave-in at the point where the explosion occurred. Even though a considerable portion of the clay roof and sides of the tunnel caved in, there is but a small chance of water finding its way in as the tunnel is sixty-five feet below the bed of the lake and the surrounding earth is unusually firm and compact. The only thing with which the rescuers have to contend at present is the foul air and the chance of another ex-

plosion taking place. A rescuing party which was lowered in the tunnel returned after being down half an hour, and reported that it had been unpenetrate further than 4,200 feet nearly half a mile from the face of the drive. The members of the party said there was undoubtedly a fire raging in the tunnel.

Specialists for Diseases of Women.

The great electrical and medical specialists of this institute are far the best, most successful and scientific the world has ever known, all of whom are graduates of the best medical colleges in the world, each having had long and successful practice in his specialty, and are achieving results in curing the sick and suffering by their combined Electro-Medical treatment, which would be impossible to obtain by either electricals or medical treatment alone. The State Electro-Medical Institute is the ONLY PLACE where you can obtain the benefits of this successful treatment under the most skillful and learned specialists. BE ASSURED that if any power on earth can cure you these Doctors can. By means of their combined electro-medical treatment they have effected complete and permanent cures after all others had failed. Some doctors full because of treating the wrong disease; others from not knowing the right treatment. No MISTAKES here and NO FAIL-URES. A perfect cure guaranteed in all cases accepted. Our special combined ELEC-RO-MEDICAL TREATMENT for NERVOUS DEBILITY never fails. YOUNG, MID-NAE-AGED AND OLD MEN. Lost Manhood. The awful effects of indiscretions in were docked. The work of embarking the troops on them will begin tomorrow. It has not been positively decided tonight which two of the three regiments here will go on the two ships.
