and Nashville. At the latter place the three battalions of the regiment will be reunited and will be moved to Jacksonville as one regiment. There Colonel Bryan will report with his command to General Fitzhugh Lee.

The Omaha-Chicago lines that will carry the soldiers are the Milwaukee, the Rock Island and the Burlington. The movement of the Third battalian from Omaha to St. Louis will be over the lines of the Missour Pacific, the Port Arthur route and the Wabash. All of the trains will be started about the same time, and efforts made to bring the entire regiment together in Nashville without delay to any part of it. By dividing the haul among so many lines it is believed that a much more expeditious movement of the regiment can be secured than if the contract were awarded to one or two roads.

Passenger Men Coming.

There will be a jolly crowd of fifty passen ger men from St. Paul and Minneapolis here on Saturday and Sunday. They are coming down to see the exposition and will be accompanied by various members of their families. The Chicago, St. Paul, Minneapolis & Omaha road will run two special cars, attached to the regular train, for the benefit of the passenger and tickel men of the Twin Cities, and the local perdange men will do everything in their power to send the northerners home with a good opinion of the big show and the city. The party will include the city passenger and ticket agents of the Twin Cities and perhaps a few of the higher passenger officials.

Assessment of Mines.

Receiver Frank Trumbull of the Union Pacific, Denver & Gulf railway has addressed a communication to Governot Adams of Colorado, who is chairman of the State Board of Equalization, in which he advocates a higher assessment of mines and not such an exorbitant taxation of railway properties. He relates the reverses that almost all of the Colorado lines have met in the past years and shows the taxation they have been burdened with regardless of the times, and then shows how the mines have escaped with only nominal assessments. Splendid Trouser Bargains.

One thing certain-We sell as many trousers as any 12-year-old clothing store-and it didn't take us 12 years to stuff the people with goodygoodies to turn the tide our way, No: The Guarantee is but I year old.

Another certain fact-Our assortment and supply is as large as any store that is boasting of bigness and age. And we can easily prove that we sell trousers cheaper. And why not? We ought to. You expect it of a store that is conducted on small expenditures like this one.

A half to a dollar and a half on a pair is a pretty good saving in these war days—\$1.50 is our price for a pure all-wool pair of trousers. Pick a pair among a thousand pairs of that price. Black, blue, gray, brown, mixed, striped, checked, figured and other shades and effects.

Wool and cotton interwoven-95c, \$1.00, \$1.15, \$1.25, \$1.35-Colors and patterns to meet an army of tastes. All cotton for laboring use-50c, 60c, 75c, 85c, 90c

Our tailored grades of frousers are a pride to any tailor shop. We'll show you all superior points when you get here. How they are finished how much better shaped and cut and how more precise fitting are ours. To summarize-let us say \$2.00 to \$4.00 a pair. The betweens are in some instances a shilling apart. \$2.00 kind must cost you at at least \$3.00 anywhere, and the \$1.00 kind is the best the market affords—none better at any price. Colors, shades and patterns? Everything.
