THE PRESIDENT HOPES FOR PEACE. President McKinley is reported to have said, after hearing of the surrender of Santiago, that he hoped for an early peace. He clearly indicated in his thanksgiving proclamation a desire for the restoration of peace and such a feeling is entirely characteristic of him.

When asked why he always wept when walking down hill and laughed when climbing the hill, Eulenspiegel, the famous German wit, declared that when going down hill he knew there would be another hill to climb, but when going up hill he felt sure of having an easy time in going down on the other side. There is a wholesome lesson in this anecdote which our Board of Education would profitably apply to its future policy.

It does not require a prophet nor the son of a prophet to foresee that there will be a marked decrease in the school board revenues during the coming year and it goes without saying that the taxpayers will not submit to increased tax levies to maintain a top-heavy system of public instruction.

Secretary Alger states that the expedition to Porto Rico will go forward immediately and as Sampson's fleet is now free for operations in that direction and Spain has nothing in West Indian waters to interfere with the transportation of troops, there appears to be no reason for any delay in the movement against Porto Rico.

Every flag in Omaha should be raised to the breeze in honor of the Third Nebraska regiment, whose reception at the exposition and early departure for the front has been announced. Here is a fit occasion for this old town to uncoil a supply of enthusiasm and show a decent respect for the regiment of volunteers, even though the soldier boys are not likely to smell much Spanish powder.

Italy and Colombia may get up a nice little fight over that unpaid Italian claim, but at best it cannot last longer than two or three rounds and these will attract little attention unless they are postponed until after the settlement between the United States and Spain.

Revival in Shipbuilding. New York Mail and Express. Unless all signs fail, the nation is on the edge of a period of extraordinary activity in shipbuilding. Most of the vessels which have been pressed into the government service will have to be replaced with new ones, and these conditions, together with the rise in business enterprises requiring additional craft, will keep the ship yards busy for years to come.

At the elections of 1871 in Germany the socialists polled 101,927 votes and returned one deputy to the imperial diet. Three years afterwards—in 1874—they had tripled their numbers, polling 351,670 votes, and returning nine members to the diet.

OTHER LANDS THAN OURS. The ultimatum of the czar to the emperor of China, that unless he prevents the building of the Nuchwang railroad by the English, Russia will annex the province of Kuldja, has deeply stirred England's public men. It is considered as the gaze of defiance flung full and fair before England.

Although the British admiralty has abandoned the regular naval maneuvers of the year in consequence of the effect of the strike in South Wales upon the production of coal, there is to be a general assembly of the ships of the channel and the Mediterranean in the month of August.

good next year, they can probably sell their old wheat in the spring for as much as they can get this fall, and put their new crop in bins to hold through another year. This is merely good business, and so many farmers will do it that the movement of wheat to market this year will not be as large as might be expected from such a large crop as has been produced.

DETROIT FREE PRESS. A patriot he goes and fights— His valor can't be beat. A patriot also he who stays At home and takes wheat.

DETROIT JOURNAL. Manila means "a little hand." But, if one may be so bold, It isn't, after all, so bold, So bad a thing to hold.

DETROIT JOURNAL. If one has a heart-ache, get to cut-ting "I. R." A bit of philosophy to sing— A brick of gold is vastly more Effective than a rubber ring.

DETROIT JOURNAL. A girl is coming down the street, A maiden fair, and trim, and neat, With lips of red, and teeth as white, Her tender eyes are blue.

DETROIT JOURNAL. The bay—before the rise of sun— Was seen the flash of opening gun! Then every second heard the roar Of shell and shrapnel bursting o'er Our brave, undaunted commodore!

DETROIT JOURNAL. The Spanish decks with dead were strewn, Their guns on shore were silenced soon, Their flags were down ere flush of noon.

STATEMENT OF CIRCULATION. State of Nebraska, Douglas County, ss.: George B. Tschuck, secretary of The Bee Publishing Company, being duly sworn, says that the actual number of full and complete copies of The Daily, Morning, Evening and Sunday Bee, printed during the month of June, 1898, was as follows:

Net total sales 877,008. Net daily average 29,234. Sworn to before me and subscribed in my presence this 20th day of June, 1898. (Seal) S. P. FEIL, Notary Public.

Parties leaving for the summer. Parties leaving the city for the summer can have The Bee sent to them regularly by notifying The Bee business office in person or by mail. The address will be changed as often as desired.

Military day at the exposition today. There is nothing the matter with Uncle Sam's credit. Santiago should bring Spain to its senses if it has any senses left.

The man who failed to join the bond-holding class has only himself or his pocketbook to blame. Congressman Bill Greene has corralled his renomination. Will he now liquidate that unpaid 1897 popocratic campaign assessment?

The federal directors have adjourned sine-die. The political undertakers will hold their annual convention shortly after the election in November.

What the army in Cuba wants now is not so much bullet-proof clothing as fever-proof rations. The man who failed to join the bond-holding class has only himself or his pocketbook to blame.

The Anglo-American league wants an alliance between Great Britain and the United States. After Watson takes his big fleet to Europe on parade other offers may be expected.

Over in Milwaukee it is held that a stamp must be placed on marriage certificates to make them legal. Thus the war with Spain threatens to interfere with another great Milwaukee industry.

The Omaha exposition is the first enterprise of the kind in America to pay running expenses the first month—or for the second month. This net result was attained in spite of war and high water.

Omaha might as well be without a police force as be compelled to support the present force with the men in a do-nothing condition pending the artificially protracted death scene of the outlaw police board.

Let it be not forgotten that one of the regiments that distinguished itself for good fighting qualities before Santiago is composed of colored men who are descendants of slaves freed by the last American war.

No, the government has no more bonds for sale at the present time and if the stamp business keeps up as well as it has started out it will not be necessary to offer another batch of bonds to the avaricious people.

Even though American business men may not be able to keep up the gait at which they have been going the past six months, they will see to it that there is no relapse into the old ways of depression, if they have to go into politics again to do it.

The story of exports and imports for the past year is an interesting one despite the big figures involved. An increase in the amount of domestic exports during the year of \$178,000,000 shows that the American people are doing business with all the world.

A prominent Texan visited the exposition a few days ago and upon his return home told a newspaper reporter that "the fair is grand, but Omaha is slow." This remark is respectfully referred to the Commercial club, whose members can well afford to analyze it and successfully refute it.

The school board seems bent on going into the dirt buying business, notwithstanding the imperative necessity of reducing its floating indebtedness rather than increasing it. Accommodating friends who have unsalable real estate on their hands is not specially conducive to the improvement of the public school system.

Our daily bulletin. Gloucester, Mass., July 16, 1898.—The United States Fish Commission will today complete the distribution of 350,000 lobsters. The whole of this vast output has been hatched here and at Wood's Hole, and the great total reflects the extraordinary magnitude of the Fish Commission's work.

We're no lobsters. But we have just received the nicest lot of soft shirts you ever saw. All new patterns of fine sheer madras—they are in our windows—look at them as you go by—there may be one or two that you would like to have in the lot, \$1 and \$1.50 are the prices.

Wash ties to match shirt if you desire, at most any price. The Royal is the highest grade baking powder known. Actual tests show it goes one-third further than any other brand.
