Congressman Stark has developed a rather remarkable ruling of the commissary department of the War department in his browsing around in the interest of Nebraska so far the war is concerned. He has discovered that there is a regulation in existence. prohibiting the purchase of hornless cat tle by the commissary department on the ground that the absence of borns precludes the ability of experts to tell the age of cattle. Stark was nonplussed with this regulation and he has gone to work to show that this rule works a great hardship upon the cattle raisers of Nebraska, who for a number of years past have been in the habit of dehorning their cattle, upon the theory that it made cattle more tractable and much more easily handled.

SEEDING CENTER OF MALARIA

Insanitary Conditions at Santiago Are Found to Be of the Worst Type.

SANTIAGO, July 18 .- (Via Kingston, Jamaica. July 19.)-General Shafter has had a horough examination made of the sanitary onditions of Santiago. The work was done by Dr. Goodfellow of the general's staff and by a civilian physician, Dr. Orlando

Dwiker. They find that although there are at present but six cases of yellow fever in

the town is ripe for an epidemic. Santiago and Rio Janeiro are considered the greatest fever breeding centers in the world. This town lacks every sanitary feature at its best and now, after two months' siege, leaving it dirty and repellent, it is a veritable pest hole. The awful stenches that

fountains, since the dearth of the water supply, have long been dry. The question has arisen between the army ans. and navy officials as to the disposition to

be made of the half a dozen large Spanish merchant steamers which were in the harbor of Santlago at the time of the surrender Rear Admiral Sampson arrived in the city today on the Vixen and claimed the steam-

ers were prizes of the navy. He also was desirous of placing prize crews on board them. General Shafter, however, refused to recognize Admiral Sampson's claims. He declared the steamers, with everything else in Santiago, had surrendered to him.

munication with them.

The question, apparently, is still undecided.

FROM A WELL KNOWN PHYSICIAN.

FROM A WELL KNOWN PHYSICIAN. Omaha, Neb, July 19, 1888. Frof. J. H. Austin-My Dear Prot.-While in Omaha on a visit my attention was called to your theory relative to scale disease, notably dandruff (Pityrasis), you claiming it to be parasitic, and your remedy while you claimed would kill the parasitic-hence cure the disease-your theory was strictly in accord with my own. I was suffering from a wicked case of dandruff, falling of hair and all that this in-fers-so was my wife-I had pallated, but couldn't cure it-couldn't find the remedy. An interview with you settled it-for 1 saw you knew your histness, and was entitled fully to your prefix, Prof., which your work is so honorably maintain-ing Briefly stated you have worked out by your 20 years of arduous labor in research and practice, a vanuable remedy of inestimable benefit to the world, and 1 see that only a very few more applications will clinch the nail you have driven into the coffin of the parisites of our scalps, You day't clarge enough for it.-\$5.00 per bottle is cheap for it. With many thanks for your kiness, I am F. B. Morrill, M. D., Los Angeles, Cal.
