Eight City Wards.

Nobody Attends in the Third Ward and in the Seventh the Work is Delegated to a Committee.

Falstaff's men in buckram were not in It with the silver republicans of Douglas county at their primaries last night to se lect delegates to a county convention to be held today. Although the primaries were duly announced in the popocratic organ there was no evidence at any of the advertised polling places that such things as primaries were ever indulged in by those particular communities. In a majority of the wards in the city the select were to gather at the residence of some of the committee members, but not enough voters participated in the primaries in the wards of the city to fill out the list of forty-five delegates to represent the city in the county convention.

A few men conspicuous as silver republicans showed up at two or three places. They discussed with wonderful force of logic the potency of the silver republicans as a factor in the success of the tripartite political alliance, ran over the list of candidates to be nominated this fall, and picked out such desirable plums as they considered should be demanded for their

No rank and file appearing the self-constituted leaders turned their attention to considering what their allies would do, and determined they should stand back on their dignity and refuse to endorse any candidate not up to their standard of political purity. The presence of The Bee's reporter began to embarrass the few lonesome silverites. These ubiquitous representatives of the press were at every advertised polling place and remained from the time the polls were supposed to be opened until the hour for the closing. As the time passed and no one came to vote the embarrassment increased and varied excuses were framed to account for the absence of attendance For instance, Judge D. D. Gregory, a mem ber of the reform and quasi defunct police commission, said that it had been prear ranged in his ward that a committee was to select the delegates and announce them today, notwithstanding the fact that a pri-

mary was advertised to select these dele-

gates. Carr Has High Hopes. James W. Carr, styled chairman of th silver republican county committee, when interviewed last night as to the strength of his party in the city, said the votes cast last fall were checked up and it was found that the silver republican strength was about equal to that of the populists here in the city, or 1,300 votes. He thought this vote had been increased some during the last year. Asked what the silver republicans were expecting in the way of aominations this year, he said they were not earing much for offices, but would insist on the nominees on the fusion ticke being reputable men and would refuse to endorse any yellow dogs, no matter by which branch of the fusion alliance they He thought it possible they would ask for the lieutenant governor. for which place C. SOUTH OMAHA NEWS.

John F. Roberts, president of the Board of Education, is advocating the scheme o apportioning the levy into different fund: order that the records may be kept in precinct. Pivonka's feed store. Twenty-first better shape. Heretofore the plan has been to make a common fund of all the moneys received and pay bills of all kinds as long as the money lasted. In one way this has worked a hardship, as the teachers are frequently called upon to discount their warrants when there should be money on hand to pay the face value of these certificates of indebtedness. The law specifies that the block at 2 o'clock this afternoon, and unless state apportionment must go to the teachers' fund, but this provision has been over looked and the amount received from the state has been dumped into the home, Twenty-seventh and X streets. pot and used for general purposes. Presiance is a contest for preference by three dent Roberts' idea is to apportion so much candidates for governor. Indications seem of the levy to certain funds and to draw warrants on these funds as long as there is a balance remaining. When there is no money in the fund the warrants will be registered at the treasurer's office the same as city warrants and will draw 7 per cent interest from the date of registration unti paid. This plan will prevent the necessity for discounting teachers' warrants as money enough will be appropriated for this fund to carry the teachers' pay roll through the fiscal year. For the present fiscal year i is estimated that \$25,000 will be needed for buildings and grounds, \$1,055 for furniture \$1,400 for supplies. \$2,544 for janitors, \$2,000 for fuel and \$2,000 for miscellaneous ex penses. This makes a total of \$34,000, which has been asked for by the board. In addition to this there will be in the neighborhood of \$6,000 from the state, which meets with the approval of a majority of must go to the teachers' fund. This plan is receiving the favorable consideration of a number of the members of the board and may be adopted. It will make considerable more work for the city treasurer, as by the present system he has only one ac count to keep of the school moneys as all warrants are drawn against any money the treasurer may have in his possession President Roberts states that the school law is such that the board cannot very well evade the adoption of the plan he suggests us regards the apportioning of the money received. He has obtained legal advice on the matter and the attorneys he consulted told him that his idea is correct

The ladies of the harem would no doubt equally astonished, though perhaps not disposed to laughter, had they known that the women of western nations, through false ideas of delicacy, suffer in silence untold

agony, and sometimes death, through neg-lect of their health in a womanly way. Women who suffer in this way shrink from the embarrassing examinations and local treatment insisted upon by the majority of physicians. If they only knew it, there is no necessity for these ordeals. An emi-nent and skillful physician long since dis-covered a remedy that women may use in the privacy of their own homes. It is Dr. Pierce's Favorite Prescription. It acts directly on the feminine organism, giving it strength, vigor and clasticity. It stops all debilitating drains. It is the greatest of all nerve tonics and invigorators for women, Thousands of women who were weak, sick-ly, petulant and despondent invalids are to-day happy and healthy as the result of the use of this wonderful medicine. Good druggists do not advise substitutes for this incomparable remedy. incomparable remedy.

"I have used Dr. Fierce's Favorite Prescrip-tion and 'Golden Medical Discovery' in my family," writes Mrs. G. A. Conner, of Alleghany Springs, Montgomery Co. Va., "and have found them to be the best medicines that I ever used."
