

BUILDING AND LOAN MEETING

Sixth Annual Session of State League is Well Attended. NATIONAL LEAGUE OFFICERS PRESENT

The sixth annual meeting of the Nebraska League of Building and Loan Associations was held last night at the Commercial club with the best attendance in the history of the organization and the meeting itself was pronounced by delegates to have been the most successful one ever held.

Every Assignment on the Program is Filled and the Meeting is a Successful One in Every Line.

Delegates to National Convention. The recommendation of the executive committee of the following delegates and alternates were elected to attend the National Convention of Local Building and Loan Associations which meets in this city today: C. J. Phelps of Schuyler, C. F. Bentley of Grand Island and D. H. Christie of Omaha, delegates; and M. Nattlinger of Omaha, C. W. Brininger of Grand Island and A. Truesdale of Fremont, alternates.

Secretary Bryson notified the delegates that they were invited to participate in all the entertainment provided for the delegates to the national association.

After the reading of the minutes of the last meeting, President Phelps read his annual report. He reviewed the early experiences of the people with irresponsible associations, and outlined the work of the state league in weeding out these concerns and amending the law to protect and encourage reputable and responsible local building and loan associations.

John L. Kennedy of Omaha addressed the meeting on "Usury in Association Cases." Introducing his remarks by saying the question of usury was an important one to the associations in the state, especially those in Omaha, and the fact that so many raise that issue makes it imperative that the associations shall consider this question.

CITY COUNCIL PROCEEDINGS

Much Minor Business Disposed of at the Session Last Night. NO SETTLEMENT WITH RAILROADS

Violent and Depot Matters Still in a Waiting Condition—Street Sweeping and Repairing Again Up for Discussion.

The council held a smooth and harmonious session last night, which was devoted to minor business. The speaker felt to be unjust and unfair. Several other defective features were mentioned and Mr. Carr said many sections of the law should be wiped out entirely.

On motion of D. H. Christie a resolution of thanks was extended to the secretary of the State Banking board for his presence and his words of encouragement.

Delegates to National Convention. The recommendation of the executive committee of the following delegates and alternates were elected to attend the National Convention of Local Building and Loan Associations which meets in this city today: C. J. Phelps of Schuyler, C. F. Bentley of Grand Island and D. H. Christie of Omaha, delegates; and M. Nattlinger of Omaha, C. W. Brininger of Grand Island and A. Truesdale of Fremont, alternates.

On August 10 a grand morning parade will be made through the principal downtown streets. T. J. Evans and C. E. Holliday of Omaha have been appointed marshals for the day and will carry the banner of the Omaha pilgrims.

The committee on local arrangements met last night and decided upon the program to be carried out on the two days. Letters were read from members of the order in all parts of the United States who expect to be here at that time.

MUSIC THE FEATURE

(Continued from First Page.)

The water from the bacterium in the fish exhibit, and as the lagoon is of new construction, the resources on which the fish usually rely for sustenance are lacking.

Illinois, Iowa, Missouri, California and Nebraska All Contribute. The hot weather of the last few days has played sad havoc with the fruit in the Horticultural building, and has kept the exhibitors busy changing plates, and only by working constantly have the men in charge been enabled to keep their exhibits in anything like presentable shape.

Iowa continues to loom up with its exhibit of peaches, several varieties having gone on exhibition during the past few days. Of course, they are not the big fellows that will come later in the season, but they are good enough and supply convincing evidence that Iowa is destined to become one of the great peach-producing states.

California continues to receive and dispense its semi-tropical fruits, and between keeping his exhibit in shape, exploiting the resources of the state, and holding the express charges which would follow the shipment of any large number of the big oranges, California has also sent in some apples.

While the Utah exhibit in the Agricultural building contains many interesting exhibits there is one thing that attracts more than usual attention. This particular thing is an old-fashioned printing press, capable of printing one page of a seven column paper at a time.

Local Committee Expects to Make a Great Success of It. September 9, 1898, will be Lumbermen's day at the Transmississippi Exposition, Omaha, Neb., and arrangements are practically perfected for the handling of the large body of lumbermen ever gathered together in the United States.

The usual Wednesday matinee will be given at the Trocadero today. The bill this week comprises the following vaudeville acts: Willis and Loretta, Mills, Phelps and Evans, Carpos Bros, Wroth and Wakefield, Jenny Hart and Beatrice Leo, Moore and Karcher and others.
