further disaster. One factor in the protracted discussion of the Philippines prob lem was the absence of advices as to the existing situation there on this date, a point that might be of considerable importance.

Inconfirmed News from Manila.

The unconfirmed dispatch reporting that Manila had surrendered was read and commented upon as indicating that definite action without knowledge of the situation at Manila might cause a statement regarding conditions that did not cease. Formal papers crystallizing the results of the two ses sions today will be ready for action tomor row. A formal vote will then be had and the answer of this government is likely to be communicated to Spain before nightfall.

The most important news received at the War department was the cable from General Miles announcing the excellent progress being made in southern Porto Rico and the capture of Ponce. The Navy department received a cable that the navy had captured the city of Ponce and landed forces under General Miles. Both departments are satisfied with what has been accomplished and the tone of both dispatches indicates that the rivalry between the army and navy for honors in the Spanish war is not at an end. The department expects an easy conquest of Porto Rico and notwithstanding the overtures for peace made by Spain the war will be prosecuted vigorously in that island.

The belief is general in the War department that General Merritt has landed in Manila, although no cable information has been received.

Care of Sick and Wounded.

The care of the sick and wounded and during the day. An officer has been dispatched to Montauk Point, Long Island, to Shafter's army when they shall have arrived again in the United States. Orders have also been issued looking to the accommodation of wick soldiers on furlough, enabling

greater dispatch and convenience. General Shafter was heard from this afternoon in a message relating to the transports in Santiago, which are wanted to carry additional forces to Porto Rico. He reported that they were being unloaded as fast as possible and the Yucatan, Allegheny, Comal and San Marcus sailed for Tampa yesterday, while the Seguranca, Miami and Matawa were to sail today. The department wants Tampa to load on the artillery and cavalry and General Coppinger's division.

General Coppinger says so far these troops have left Tampa: Eleventh and Nineteenth infantry under General Schwan; Batteries C, Seventh and M of the Seventh artillery; troop B. Second cavalry, and A. Fifth cav-

Deaths and Sickness at Camp Alger. WASHINGTON, July 29,-The entire Second army corps will be reviewed by the secretary of war Saturday.

There were two deaths from typhoid last night, Corporal Brayton Flint, Company C, Twenty-Second Kansas, and Private Stanley B. Swartz, Company E, Eighth Pennsylvania. Fifteen new cases were reported today, of which some are defined and others suspects. The patients at Fort Meyer hospital are said to be doing well.

The new fever patients are: Privates P. P. Meredith and C. W. Hester, Company G, and T. A. Burke, Company A, Twelfth Pennsylvania; G. C. Lockey, Company B, Sixth Pennsylvania: H. N. Nicholas and T. B. McMahon, Company F. Third Missouri; R. Foss, Company F. and J. W. Fowlers and N. Vigue, Company B. First Rhode Island; A. Northeress, Company E. Second Tennessee: C. Oponaberger, Twenty-second Kansas: E. Denton, Company B. Thirty. third Michigan; E. J. Boney, Company H, Alger, Company F, Fourth Missouri.

AFTER A DISCHARGED CLERK

Jacob Axman Charged by His Late Employers with Embezzling Their Money.

Warrants were sworn out yesterday for the arrest of Jacob Axman, who was until recently a clerk in the employ of the furniture firm of H. S. Abrahams & Co., 1211 Farnam street. Axman is charged by his late employer of being an embezzler of money in the neighborhood of \$150.

Axman, it is alleged, began to take the firm's money surreptitiously during the early part of this month. His peculations were discovered a week or so ago and because of his family he was discharged and the matter was dropped. Since his discharge his methods came to light and also the fact that since he has been out of the firm's employ he has been borrowing money from the firm's customers, representing that he was still in their employ. Mr. Abrahams was notified of this latter

fact yesterday and swore out a warrant for Axman's arrest.

Woman Gets Farmer's Money. Theodore Schultz walked to this city yes terday from his farm seven miles east of Council Bluffs. After he crossed the Doug-las street bridge he stopped to rest at the spartments of Nellie Shannon, 1111 Capitol avenue. The woman is now in jail charged avenue. The woman is now in jail cl with the theft of the farmer's money.

IT IS WONDERFUL

How Much Good was Done by This Remedy.

"Last spring I was so much run down in health that I could hardly take care of myself and family. I procured a bottle of Hood's Sarsaparilla and began taking it, and in a short time I felt better. I did not have any tired feeling when I arose in the morning. I believe Hood's Sarsaparilla is a wonderful blood purifier and we use no other medicine in our family." MRS. MANILA MAY HAVE FALLEN

Report to That Effect Gains Currency in Madrid.

WASHINGTON BELIEVES IT MAY BE TRUE

Spanish Willing to Sprrender for Some Time, but Dewey Unwilling to Take Responsibility Until Army Arrives,

PARIS, July 29 .- A telegram from Madrid the European edition of the New York Herald says that a cable dispatch has been ceived at the Spanish capital, approuncing the surrender of Manila to Admiral Dewey.

WASHINGTON, July 29 .- The War dertment would not be surprised to learn that by this time Manlla has surrendered to the combined American military and naval forces gathered on the shores of Manila bay and off Cavite. However, there is no official confirmation of the report that was printed this morning to that effect The United States government is in a position, it is believed, to receive news of so important an event sooner than the Spanish authorities at Madrid. Being hemed in on all sides, Captain General Augusti would not be able to communicate with Hong Kong, the nearest cable station, without passing his message through the United States lines and securing permission for its transmission by boat to Hong Kong. And even if a boat bearing such a message had steps looking to their greater comfort have arrived at Hong Kong it is only a fair supengrossed officers of the War department position that the news of the fall of Manila would be communicated at that point to the world at large by means of the cable prepare a hospital for the sick of General instead of being confined to the Madrid government.

Consequently, it is believed that this an souncement of the fall of Manila is an assumption, perhaps the strongest basis for them to visit their homes and return with it being that the Spanish government having sent permission to Augusti to surrender concludes that he has done so.

Ready to Yield to Dewey.

It was known to be the disposition of the Spanish authorities at Manila to surrender o the American forces instead of to the nsurgents when the town must fall. It is olerably certain that Admiral Dewey might have received the surrender at any time at feast three of these boats at once at within the last six weeks had he been disposed to exert the slightest pressure in that direction. Indeed, in one of his dispatches he made the blunt statement that he could take Manila in twenty-four hours if he desired. The reason he did not desire to do so was undoubtedly because of a reluctance on his part to entrust the destinies of the great city to the insurgents under Aguinaldo, who, at first tractible, had begun to show signs of impatience under restraint. Dewey realized that he was being held morally responsible by the civilized world for the protection of the people of Manila against excesses at the hands of the insurgents.

There was also the strongest reason why he should not, by fallure to care for the interests of foreign residents in the town. open the door to the intervention of any of he neutral naval commanders who had been lying in the harbor jealously watching for their opportunity. Therefore it became necessary for the admiral to maintain the statu quo until a sufficient military force arrived to enable him to receive the surrender of the town and to occupy and protect it. This has been done with some difficulty, as will be revealed in the end when all of the correspondence is published. for it has been almost impossible to keep the insurgents out of the town and their efforts to effect an entrance have redoubled Twelfth Pennsylvania, and Corporal Charles as they learned of the approach of the American forces and saw dawning upon them the possibility of an American occupaion of the town that should exclude them from Manila, precisely as Shafter excluded

Garcia's Cubans from Santiago. Now, however, Dewey undoubtedly has with him a sufficient military force to warrant him in accepting the surrender of Manila. It is said at the War department that at least three of the six military expeditions that have been dispatched to the Philippines from San Francisco are now at Manila, affording an army of between 16,000 and 15,000 good men, backed up by Dewey's

ships and sailors. Learn From Santingo Experience. Suspicious interest attached to a published

statement in one of the Spanish semi-official organs to the effect that Augusti has been shorn of jurisdiction over the Philippines beyond Manila and its immediate environment, the captain generalcy of the Philippine group being transferred to the commander of the Vizcaya islands. It is just possible that there is an important connection between these two items of news, onthe surrender of Manila and the other Augusti's replacement, both coming from Spanish sources. As to the latter, it was frankly stated in the Spanish dispatch that the purpose was to pre-Augusti from surrendering the entire Philippine group, so that it is conmatter so as to protect their interests in the remaining islands so far as possible, and first to enlist in the command. having placed themselves in a position to made the conquest of the Philippines, the Spanish ministry may have directed Augusti to surrender the small jurisdiction remain-ing to him to the United States to prevent from falling into the hands of the insurgents. As this matter would have a firect bearing on any program the United of a coaling station in the Philippines or he acquirement of this entire group of slands, official reports as to the exact state

of affairs are anxiously awaited. MADRID, July 29 .- 3 p. m .- Nothing is mown here officially or otherwise concerning the report that Manila has surrendered o the American forces.

TROUBLE IS NOT SERIOUS

General Shafter Simply Interferes to Check Autocratic Conduct

SANTIAGO DE CUBA, July 28 .- (Delayed in Transmission.)-Major General Shafter says he has not made certain statements attributed to him in an interview on the subject of the attitude assumed by General Garcia and he explains that the alleged trouble between himself and Senor Ros, the civil governor of Santiago, is a very small indeed. Senor Ros is ruffled at General Shafter for not allowing him complete control of the civil administration of the entire section of the province of Santiago de Cuba which has been surrendered to the American forces. Senor Ros considers himself the supreme civil authority, basing his claims upon the state paper issued by President McKinley on July 18 and providing in general terms for the government of the province of Santiago de luba, which contains the following clause:

The judges and other officials connected with the administration of justice, may, if they accept the supremacy of the United States, continue to administer the ordinary law of the land, as between man and man, under the supervision of the American com-

nander-in-chief. that Senor Ros discharged three employes and substituted for them some of his own him in the left leg, passing through his The discharged employes complained to General Shafter, who ordered Mitchell's home is in Montana. He was their reinstatement. Since then Senor Ros earried to the hespital and his wound has been slightly ruffled, but he is con- dressed.

The trouble was really insignificant, but Senor Ros and his three friends being Cubans, the matter was magnified in their circles. Senor Ros simply obeyed General Senor Ros and his three friends being may have murmured behind his back

TRADE AND THE INDUSTRIES

Year on Record.

PROMISE OF PROSPERITY VERY BRIGHT

Payments Through Clearing Houses Are 5.8 Per Cent Larger Than in

1892, the Year of Great-

est Prosperity.

NEW YORK, July 29 .- R. G. Dun & Co.'s Weekly Review of Trade will say tomor-

Big business in January is expected, but big business in July means more. It is the month of all others when trade is naturally light, new engagements are ordinarily de-ferred and men wait for the outcome and movement of crops. But more business is being done this year than in any previous July of which there are records. The pay-ments through clearing houses have been 5.8 per cent larger than in 1892, the year regiment yesterday and took numerous means through clearing ments through clearing actives. They will be with the regiment for 5.8 per cent larger than in 1892, the year two or three days, taking views of the of greatest prosperity heretofore, and for the month thus far 6.5 per cent larger than in the month thus far 6.5 per cent larger than the month thus far 6.5 per cent larger than the month thus far 6.5 per cent larger than the month thus fa last year and 8.4 per cent larger than in 1892. But these records and others have to be judged in the light of heavy decline in prices since 1892, so that the volume of bus-iness transacted is about 25 per cent larger than the volume of payments indicates.

Considering that the purchases of nearly half the people depend on the success of agriculture and that the prosperity of the The regiment's quarters were inspected affected by the size of the crops to be yesterday by General Frank, division compromise of general prosperity this year is unusually bright. Wheat receipts for the month thus far have been 7,309,333 bushe's, against 10,652,074 bushels last year, but against 10,552,074 bushels last year, but prices have declined 114c and farmers are bolding back their wheat in the hope of higher prices. The exports for the week have been 1,307,815 bushels from Atlantic ports, flour included, against 1.718,739 last year, and from Pacific ports 126,117 bushels, against 423,291 last year, making for the mouth 8,823,192 bushels, against 7,342,467 last year. Cotton has a little advance in prices owing to reports of injury to the

> tained, amounting to 6,767,963 bushels, against 8,009,616 last year. Wheat, on the contrary, has dropped about 9½c, with prospect of further decline. The prospect for cotton is generally very good, though too much rain is reported in some southwestern states. The manufacture is a little encouraged by better de-mand, though prices did not improve. The effort to curtail production at Fall River has been checked by refusal of mills at

crop, and also because exports for the month thus far have been singularly well main-

other points to co-operate. The sales of wool show a remarkable increase in large transactions, for which no prices are named, four being quoted at Bos-ton covering 2,600,000 pounds, and the aggregate at the three chief markets has been 7,039,300 pounds for the week, and for four weeks 19,919,200, of which 12,511,400 were mestic and 32,689,950 in 1892, of which

goods is rather better.

The official report of iron production for geant Pickrel, Musician Ellsworth, Privates the first half of 1898 shows an Increase of Sloux City ... Woodruff, Chapman, Moody, Sigelar and over half a million tons compared with any New Bedford previous half year, and what is far more important, the consumption in manufactures appears for the half to have exceeded the Estimating the exports for Juneonly five months having been excepted-the consumption has been 5,948,344 tons, against 5,909,701 produced, averaging 991,391 tons over partially and carrying the mules up monthly against 984,950 tons produced. It with it, leaving them suspended for a few is well to remember that in June, when production declined because of stoppage for seconds eighteen feet above the street. John Bouman, the teamster, was thrown about twenty feet but escaped serious injury. Two other men were thrown from the wagon and other men were thrown from the wagon and second decrease in unsold stocks was repairs, the decrease in unsold stocks was twenty feet but escaped serious injury. Two other men were thrown from the wagon and second decrease in unsold stocks was repairs, the decrease in unsold stocks was a surprisingly large for the season, covering 5,000 tons at New York for rails and came near being run over.

The regiment is preparing to lay board floors in all the tents. Another improvement to be made at once is the erection of a filtering station. Hereafter only filtered water will be used by the regiment for either dripking or cooking purposes. tons of implement stuff and an excellent structural demand and the heaviest demand for plates ever known at Pittsburg. Sales of bessemer iron have been heavy, reaching

25,000 tons at Pittsburg, without change in Fajlures for the week, 225 in the United States, against 236 last year, and twenty-six in Canada, against twenty-eight last

BRADSTREET'S REVIEW OF TRADE. Reports of Solid Business Returns

Come Mainly from the West.

NEW YORK, July 29.-Bradstreet's tonorrow will say: While as yet showing little effect on distributive frade, there is little evidence that the prospects of peace with wider markets for American goods have given a hopeful tinge to the outlook, more particularly at the east. This is reflected by active preparations by shippers and coasting trade terests to share in the expected widening of demand from the West Indies. As for some time past, reports of solid business returns come mainly from the western part of the country and in the markets of that

section are reported signs of the ground-swell of fall demand. Signs of cumulative improvement come from the iron and steel industry, more par-ticularly from west of the Alleghenies, where slight advances in prices, accom-panying a good volume of domestic and export business, are reported. Expected acivity in shipbuilding is reflected in the demand for plates at eastern points.

A rather better tone is found in the an-thracite coal trade, in which, as a result of another one of those numerous "gentlevanced at the west from previously low cut favorable statements of June net earnings.

The situation in cereals is hardly as satprobably record-breaking small world's supplies on August 1 and good exports from this country, while futures are less depressed, but exhibit the pressure of expopular government loan and the failure of pected liberal supplies at home and heavier the operation to disturb the money market rops abroad.

The sugar markets remain dull and stocks of refined in the channels of distribution are reported small. Raw sugar, however, remains featureless, perhaps, awaiting a closer approximation to the effects of recent or imminent changes in territorial authority on the sugar trade of the world. The textile situation is as yet a rather clouded one, a shut-down of print cloth nills being regarded as probable in another effort to restore the lost balance of this rade. Woolen goods are still slow of sale. while the relatively low range of wool prices at eastern markets and the improved nquiry by manufacturers has strengthened buyers with the effect of discouraging sales. Raw cotton is firmer on reports of excessive

rains affecting crops.
Cereal exports still continue of a satisfactory volume, wheat shipments for the Mrs. Kirschner called at the police station

week, flour included as wheat, aggregating 2,271,872 bushels, as against 2,303,469 bushels last week, and compared with 2,343,021 bush-

More Business This July Than Any Previous eis in the corresponding week of this year. 2,548,768 bushels in this week of 1896, 1,-460,917 hushels in 1895 and 2,977,977 bushels in 1894. Since July 1 this year the exports aggr-

gate 10,214,810 bushels, against 5 bushels last year. Corn exports gate 2,601,821 bushels, as against 2,822,138 bushels last week, 1,482,715 bushels in 1897. 1,495,812 bushels in 1896, 594,865 bushels in 1895 and 119,900 bushels in 1894.

Business failures in the United States remain at a normal low point, aggregating for the week 189, against 185 last week, and compared with 259 with this week a year ago, 294 in 1896, 221 in 1895 and 220 in 1894 Business failures in Canada for the week number 34, against 170 last week, 32 in this week a year ago, 37 in 1896, 24 in 1895 and

Magnified 8,500 times Sketch from Life

READ THIS LETTER. It is but one of hundreds Prof. Austin re ceives every week.

FROM A WELL KNOWN PHYSICIAN. Omaha, Neb., July 19, 1898. Prof. J. H. Austin—My Dear Prof: While in Omaha on a visit my attention was called to your theory relative to scalp disease, notably dandruff (Pityrasis), you claiming it to be parasitic, and your remedy which you claimed would kill the parasite-hence cure the disease—your theory was strictly in accord with my own. I was suffering from a wicked case of dandruff falling of hair and all that this infers—so was my wife—I had pallated, but couldn't cure it—couldn't find the remedy. An interview with you settled it—for I saw you knew your business, and was entitled fully to your prefix, Prof., which your work is so honorably maintaining. Briefly stated, you have worked out by your twenty years of arduous labor in research and practice a valuable remedy of inestimable benefit to the world, and after four applications our are healthy and clean, and I see that only a very few more applications will clinch the nail you have driven into the coffin of the parasites of our scalps. You don't charge enough for it—\$5.00 per bottle is cheap for

With many thanks for your kindness, F. B. Morrill, M. D. Los Angeles, Cal. the am. 10914 South Broadway, Rooms 1 and 2 Prof. J. H. Austin, who has had twenty fruitful years' experience and practice in diseases of the hair, skin and sealp, will, in order to introduce Austin's Antiseptic Dandruff Destroyer and New Hair Grower, give free microscopic examinations of hair and scalp all this week at his consulting rooms, 526 New York Life Bidg. Positively no charges will be made for prescriptions or examinations. Hours: 9 a. m. to 12 m. for gentlemen; ladies, 2 to 5 p. m. Come

early to avoid the rush. Austin's Antiseptic Dandruff Destroyer and New Hafr Grower. It purifies the scalp and beautifies the hair. For sale by all druggists, or send \$1.00, P. O. order, direct to Prof. J. H. Austin, 555-560-565 Syndicate Arcade, Minncapolis, Minn., where free microscopic examination of the hair and scalp is given every day in the week, Sunday excepted.

cial Review tomorrow will say: The Spanish application for terms peace has been the chief factor in the speculative situation this week. It created a more confident tone and consequently greater activity has been shown, though of commercial kind, the public being out of the market, while London has continued inactive. Large financial interests seem, however, to be better satisfied with the situation, not only as regards the peace out-look, but in relation to crops and railroad rates. Conflicting crop accounts from the west seem, in the view of Wall street, not to disturb the presumption that the grain yield will be very large and afford a heavy exportable balance and ample tonnage for the railroads. Western railroads have also shown a disposition to restore rates and stop cutting. Some action of this kind was certainly rendered necessary by the un-There is a belief that considerable gold isfactory as could be wished, cash prices will come from abroad this fall. The ease being lower for the week, in the face of of money and the thirst for investments is another circumstance and it might be noted
