The mass meeting of wheelmen postponed from Thursday evening was held
last night in the Commercial club rooms.

The chief business before the members
was the discussion of a parade at the fair.

It was decided to have a parade of wheelmen around the grounds, beginning at 7
o'clock and with the line of march extending through the principal parts of the
exposition. Badges will be furnished at the
gates to every wheelman whether he be ates to every wheelman whether he club member or not. The chief thing or him to have a wheel. No requiremen for him to have a wheel. No requirements have been made on decorating the bicycles, but every one at the meeting was urged to make a good appearance. The captains of the clubs will have charge of the different divisions, with a committee of three over the whole. This committee was chosen as follows: J. N. Westberg, F. L. Willis and Len Livesey.

the exposition grounds during the evening and the house was left alone for several hours. After Dr. Christie's departure the chandelier in the parlor became loose and fell to the floor, allowing a considerable outlet of gas. On the doctor's return the house was completely filled with the dangerous fluid and when he entered with lighted match a blinding explosion occurred Dr. Christie was thrown backward through the door, but escaped with slight injuries. ## SOUTH OMAHA NEWS.

TENNES OF THE WASHINGTON TO THE A special meeting of the city council was held yesterday afternoon for the purpose of ectifying some errors in the annual appropriation ordinance passed at the meeting Thursday night. These errors consisted of a misunderstanding in regard to the valuation and the discovery was not made ntil noon yesterday that the judiciary committee had carried out the net sum in the ordinance instead of the gross sum. When Clerk Carpenter came to figure the amount of the apportionment vesterday he discovered this error, and he also discovered the fact that the judiciary committee had figured on a valuation of \$1,847,000, instead of \$1,733,000, which was the amount returned by the assessors.

The fact that the net amount to be derived had been carried out instead of the gross, tended to convey the impression that the returns of the assessors had been considered instead of the figures submitted by he judiciary committee. These figures of the judiciary committee included the increase of the property of the corporations full capacity. of \$114,000. When the amended ordinance had been read the third time yesterday ifternoon and the clerk commenced to call the roll for a final vote. Bennett arose and said that before he cast his vote he wanted to know what the valuation is. He asked this question of Kelly of the judiciary committee, but this gentleman declined to inswer. When pressed he passed over a sheet of paper covered with figures and remarked that Bennett could find out for himself by glancing over the sheet. This Bennett refused to do, and as Kelly remained obdurate it became the duty of

the mayor to inform the chairman of the finance committee (Bennett) that the valuation used in compiling the ordinance was against the ordinance, but he was the only one who did so. The question was then asked of the city attorney if this increase of \$114,000 in the valuation did not invalidate the entire levy, and Mr. Montgomery inswered that he did not think so. The total levy still remains 56 mills, and the apportionment is as follows: Interest.

12 mills, \$18,839; judgment, 1614 mills, \$25, 904; police, 5 mills, \$7.850; fire, 3 mills, \$4,709; water, 5 mills, \$7,850; public light, mills, \$6,280; park, one-half of 1 mill. \$785; general, 2 mills, \$3,140; street repair. 2% mills, \$4,317; engineer, three-quarters The amounts given are the net revenue to be derived, the 15 per cent reserved having been deducted. The total levy amounts to \$103,430, but with the necessary deduction for the reserve \$87,915 will be produced to meet the operating expenses with.

Breaking Into a Sewer. People living on N street east of Twenleth street are complaining about the con dition of the sewer which empties into the gully a short distance east of Twentieth street. This sewer was built for the purpose of carrying off the storm water, but it is asserted that a number of property owners have connected their closets with the sewer. It has been stated that at least a dozen persons residing on N street cast of Twenty-fourth street have made connections with this storm water sewer, and it is understood that steps will be taken by the city officials to abate the nuisance.
