OPENING OF THE NATIONAL MEET

iraction for Bicyclists.
INDIANAPOLIS, Aug. 9.—The national meet of the League of American Wheelmen | the hip. began in this city today. Bleyclists have been coming in for several days, but the arrivals increase in numbers as the time for the start for the more active part of the meet approaches. Today was given up largely to preliminaries and registration at Comlinson hall, where members of the eague received credentials entitling them to special privileges. Tonight will be de-voted to sociability in the form of recep-

morrow. There are three events on the program for tonight. Governor Mount will give a reception at the state house, beginning at 8 o'clock. A reception at the Marion club will be held at the same time. The press banquet will occur at the Grand hotel at 9:39 p. m.

The program tomorrow morning will be-

and her wheelmen are confident of winning.

"Teddy Edwards, Anagelese, Wales," is among the names registered tonight. The name is known throughout the bicycle world on account of Edwards' ability as a long distance rider and more particularly on account of an unusual feat which he has set out to accomplish. On January 1 he set out with the intention of riding 100 miles every day during the year. There was a special inducement, for if he keeps up the record until the end of the year, which he has done successfully up to date, he becomes the winner of \$10,000. So far this year he has made 221 consecutive daily century rides. He will ride 100 miles every day he is here. Today he made the usual century run. He has ridden 22,100 miles since the beginning of the year.

Newspaper men are being entertained by the local wheelmen's Press club at a banquet tonight. Representatives of the prominent papers of the country are present and Mayor Taggart is presiding.

Mass Meeting of Wheelmen There will be a mass meeting of the wheelmen of the city at Turner hall to light to make sultable arrangements for night to make suitable arrangements for the wheelmen's parade on August 15. It is expected that the parade will be made one of the features of the exposition and that the cycling element of the city will be generally brought out. It is announced by the exposition management that all floats and decorated wheels will be admitted to the grounds without charge. It is specified, however, that the decoration must consist of something more extensive than a fluttering ribbon to entitle the wheelman to admittance and the decision in this matter has been left to the discretion of a committee.

CARVED BY A COLORED MAN Callahan Receives a Cut Across the Abdomen that May

Result Fatally.

John Callaban, 24 years old, was across the abdomen shortly after midnight by an unknown colored man and the in-jury may result fatally. Callahan says his assailant rushed at h'm as he passed along Thirteenth street between Davenport and Capitol avenue and cut him with a razor without warning or provocation. Several stitches were taken in the intestine in the abdomen and there was also a deep cut on

Callahan has been employed in the Union Pacific shops and lives at 1007 North Seventeenth street. He spent the evening at various amusement resorts and about midnight started home. After he crossed Davenport street on Thirteenth he saw a white woman walking a few steps ahead of him. At the middle of the block the woman met a colored man and stopped to speak a few words to bim. As Callaban approached them he says the colored man left the woman's side and rushed blindly at him. He was taken without warning and before he could attempt to defend himself his assailant had drawn a razor across his stom-

press banquet will occur at the Grand hotel at 9:39 p. m.

The program tomorrow morning will begin at 5 o'clock with a century ron to Dublin, Ind. At 6 o'clock there will be a twenty-mile run to Franklin, Ind., and return. At 7 o'clock occurs the run to Broad rapple and return over the cycle path. At 5 o'clock there will be trial heats at the Newby oval for the afternoon racts. At 3 p. m. the national championship races take place at the Newby oval.

When the registration bureau in Tomlinson hall closed for the day the number of wheelmen registered was very close to 3.500. Many of these were from the city, but perhaps more than two-thirds were wheelmen from out of the city. Philadelphia was more largely represented than any other city outside of Indianapolis. The governor and state officers gave a brilliant reception to the wheelmen tonight.

The Boston '99 Meet club is working might and main to secure the meet for the Massachusetts division and is assisted by all the Associated Cycling clubs and cycling organizations in New England. Buffalo is also working hard for the meet and her wheelmen are confident of winning.

## SOUTH OMAHA NEWS.

Armour & Co. will spend at least \$250,000 n enlarging their packing house plant here. This was decided upon at a meeting held ings will be drawn at once. One of the first buildings to be erected under the enlargement scheme will be an addition to the cold storage building, which will more than double the present capacity. This new building will be located just east of the present hog house, which is in the north row of buildings. It will be 160 feet in length by 155 feet in width and will be nine stories high. Five floors of this new structure will be used for curing rooms, two floors for hog cooling and the eighth in electrical appliances and will be installed and ninth floors for cooper shops. Plans in the new office of the company at Twentyfor this building will be made at once and grading will commence in a few days. At a meeting of the directors of the stock yards company and the Armour officials yesterday struction of the system here. Owing to the arrangements were made for the necessary ground to be used and it was stated that there would be no delay in the commencement of the work. Armour owns a greater portion of the ground needed, but it appears that a few additional feet are needed for trackage and for that reason the directors of the stock yards company were called together to go over the proposition a majority of the branch lines have been with P. A. Valentine and Robert E. Howe reconstructed, so that when the new office of the Armour company.

Today or tomorrow work will start on a glue factory, which will be located south and west of the fertilizer building. This structure is to be 150 feet long by 160 feet in width and will reach a height of three stories. In these extensions the machinery to be used will be of improved make and will be propelled by electricity. This will make an enlargement of the power plant necessary and another battery of boilers will be installed. The boilers now in use have a capacity of 1,700 horse power, but this will be doubled by the addition of new boilers.

Plans are being made for a hair curing and drying plant. This building will be office to the new location will be made. put up just west of the hog houses and all hair removed from carcasses will be cured and dried Indoors. This will be an innovation here, as the present custom is to dry the hair on vacant property in or adjoining the city. The indoor drying plan is now being used in Chicago and it will be tried here. An immense platform for the loading of teams is being constructed on the east end of the ham house, the piers for this having already been set. A machine shop ninety feet long by forty-five feet in width and two stories high is to be built in the space south of the ham house. The plans for this building are now completed and work is to be commenced in a day or two. Superintendent Howe is having plans for box factory drawn. This structure is to stand east of the ham house, but the

limensions have not fully been decided Grading will commence today on the west end of the Armour property for seven eightroom cottages, which will be erected for be built with a frontage on Q street and will be the claims of the judges and clerks will be located between Thirtleth and Phirty-second street.

Many of the details for the enlargement f the plant will be arranged for when Mr. Valentine returns to Chicago, but the outlines of the work to be done has been given. In speaking about the proposed increase of the present plant's capacity Mr. Valentine said that South Omaha has a great future as a live stock market and that the Armour people realize this, else they would not spend such an immense amount of money

City's Balance Sheet. Monday night closed the fiscal year for levy became available for warrants. In connection with the closing hours of the fiscal ear City Clerk Carpenter issued a statement showing the balance on hand at the commencement of the fiscal year of a year ago and the amount of warrants drawn on the different funds. According to the figures presented there is a balance in the different funds of over \$5,000. Tonight the council will commence with a clean bill and disbursements will be made from this time forth on the levy of the present year. The clerk's record of the expenditures follows:

an unexpended balance of over \$5,000 in at \$40. the different funds, the unpaid bills for June and July must be considered, which will consume nearly the entire amount. While the levy of 1897 was sufficient to pay the current expenses of the city, with the exception of judgments, without leaving an overlap, there will be little if anyhing left in the treasury after settling the bills for June and July. It has seldom been the good fortune of the city to have money in all of the funds at the conclusion of the fiscal year, but such is the case at this time, as the following balances. taken from the city clerk's report, will show: Interest fund, \$160; judgment, \$27; police, \$339; water, \$67; fire, \$1; public ight, \$27; salary, \$94; engineer, \$206; general, \$26; street repair, \$18; park, \$447; spedal witness, \$11; emergency, .33; dog. \$112; milk, \$80; special license tax. \$3,952.

The total expenditures of the year just closed, not counting the bills to be deducted for June and July, amounted to \$81,780. This year the levy will bring into the city treasury the net sum of \$87,915. Coroner's Jury Holds Hulsman. The coroner's jury impanelled to inquire

New Telephone Service.

The new switchboard ordered by the telephone company last winter arrived yesterday afternoon and will be unloaded from the cars at the foot of N street today. This board is supposed to be the latest thing fourth and N streets. Along with the switchboard came 200 sets of instruments and other material needed in the reconnew system to be used it will be necessary to place new telephones in service. In ad dition to this the lines in the heart of the city are to be rebuilt. A carload of poles | are now being trimmed for use on N street and the lines south of N street on Twenty fourth street are to be rebuilt also. During the summer the main line to Omaha and is opened it will be practically all new equipment. The ringing of bells is to be done away with as far as possible. When the improved telephones are placed it will be necessary only to remove the hand telephones and the operator at central will be signalled. This signal will remain up as long as the line is in use and there will be no cutting in by the operator. A bell to call subscribers will be used the same as now, the principal improvement being the method of obtaining the attention of the central office. This new equipment is to be placed in serv ice as soon as possible. Work is now progressing rapidly and it is thought that in another month the removal from the present

### GIVE BANKER A FINE FLAG

delay. Address plainly

Employes of the School Board Surprise the Superintendent of Buildings.

In the front yard of the dwelling of Superintendent of School Buildings Banker, at 1707 Center street, there now floats a big | fifteen-foot American flag at the pinnacle of the tallest flagstaff in the neighborhood. Neither flagpole nor flag was there day before yesterday, for the one was erected and the other was raised in a delightfully informal manner yesterday evening.

The first time that Superintendent Banker had any intimation that he was going to own a flagpole and flag was shortly after dinner, when he was sitting on his front porch. He saw a procession heading toward his house with the flag, pole and shovels in its midst. The procession halted before his house, the members unlimbered their shovels missioner of internal revenue there is a ruling to the effect that extensions of promyard. The pole was planted in a jiffy and the stars and stripes were flung out to the

They told him so after the flag had been raised, while the male and female members of the surprise party sang "America" and "Rally Round the Flag." H. H. Boyles made the brief presentation speech and Superintendent Banker responded. Then he invited them all to have omething and the remainder of the evenng was spent in a social manner.
