MUCH IMPORTANT DETAIL TO WORK OUT

Day, Gorman, Allison and Choate or Root Are First Mentioned for Positions on the Commission.

WASHINGTON, Aug. 13 .- The sudden ransition from war to peace was reflected oday in a complete dullness and stagnaion throughout official quarters, instead of bustle and activity which have prevailed for months through the corridors of the War and Navy departments, there was a calmness not apparent since the midsummer vacations of last year. Most of the officials went home early in the day, enjoying the first partial holiday since the

cials who had borne the weight of great war began. There will be a large amount of important detail to be worked out from this time forward, a gradual reduction of the army and navy to a peace footing, the establishment of temporary and permanent adminisrations for our new colonial possessions, the caring for the wounded and sick, and distress in Cuba.

The need of immediate attention is the appointment of a peace commission which is to meet at Paris, and of the military commission, to meet at Havana and San Juan. The president conferred with Sec-

retary Day during the day relative to the peace commission, but it was said at the State department late in the day that an announcement of the commissioners might be deferred for some days. It is understood that the president has not fully determined upon the personnel of the commission. Several of the public men who saw him today were satisfied that the commission

would be made up of Secretary Day, Senatoday. tors Allison and Gorman, either Joseph H. Choate or Elihu Root of New York and probably a prominent army officer. General Corbin is spoken of favorably in connection with the army appointment on the comnission. The military commissions for Cuba and Porto Rico are not receiving any attention from the State department, as the military authorities will have entire charge of these branches of the peace settlement.

During the day the State department reeived a call from M. Thiebaut, secretary of leaving a letter explaining the authority given by cable to the French ambassador to sign the peace protocol. These assurances already had been given verbally, but the

letter gives them a more definite form, and in the course of a few days the complete written authorization from Madrid will be filed by the State department. Many congratulations kept coming to the State department and to the White House on the establishment of peace.

Statements that Show with What Success the Shepard Treatment is Meeting-Nervous Exhaustion, Catarrh, Eczema, Deafness, with Noises in the Head-Convincing Testimony from Those Who Know.

With the beginning of August torture begins for many thousands who are annual ctims of Hay Fever. The vegetable matter afloat in the air after harvest is ended ritates the too sensitive mucous membrance with every breath, which soon becomes mamed. Water pours from the nose and streams from the eyes, there is constant sneezing and wheezing. In years gone by many who were thus filleted fied to the ountains for relief, often at a great sacrifice of home or business interests, but there were many more forced from strait of circumstances to "grin and bear it.

The New Medicated Vapor Treatment offers unspeakable relief to every sufferer and a cure to a large number. Its first application soothes and quiets the irritation and gives instant relief. Dr. Shepard will welcome any hay fever patient August who desires a trial treatment, without any charge whatever. All residents of the city or country who have not tried it may now come and test the new iredment until they are satisfied of its merits, all without money and without price.

Work in connection with the appointment of commissioners to negotiate a treaty of peace, the preparation of their instructions and other important matters, he said, probably would necessitate his remaining in Washington until some time in October, when he hoped to be able to take a short rest. The work of the peace commission might occupy a month or so and he hoped that in his next annua Thanksgiving proclamation he would have the very great pleasure of announcing to the people the fact that a treaty of peace

The health of the camp has materially improved during the last few days. The main cause of the improvement is believed to be the removal and rearrangement of regimental camps.
