Omaha Man Wins at Tennis COLORADO SPRINGS, Aug. 26.—(Special Telegram.)-The finals in the Colorado Springs tennis tournament, given under the auspices of the Kinnikinick club, were played today. De Roy Austin of Omaha beat Walker of Colorado Springs, 6-2, 6-2, 6-2. Graham brothers of Denver beat Bonbright and Webb of Colorado Springs, 6-4, 7-5, 6-love.

Cricket Match Postponed. There will be no Omaha-Kansas City cricket match this afternoon. Secretary Reynolds yesterday received a telegram from the town on the Kaw to the effect that the team down there is unable to

make the journey at this time. A date later on was asked for, probably September 10. This notification was a source of great disappointment, as considerable expense has been entailed in making preparations for the entertainment of the visitors. The local cricket men are somewhat vexed that the Kansas City crowd did not earlier notify them of their proposed failure to come up to the scratch. A match between the All Saints team and the Omahas will take place this afternoon at 3 o'clock.

Building Inspector Dunscomb is preparing to commence a crusade on sidewalk signs. The ordinance governing the placing of signs is not obeyed to any extent and in many instances, especially on N street, signs have been placed in positions which are not only a nuisance, but actually dan- men would go from Canton and a large gerous to pedestrians. One paragraph in crowd would follow. the ordinance governing signs provides that circuit bicycle races were held at Lincoln no sign shall be allowed to project over the sidewalk to exceed four feet from the property line. Such projecting signs must be at least ten feet above the sidewalk. This latter provision is the one which is violated far more than any other. These hot days nearly every one carries an umbrella and many a person has had to buy a new rainshed this summer on account of caught on low projecting signs. A suitable penalty is provided for violations of this ordinance and Inspector Dunscomb said yesterday he intended going after the violators and if all signs not placed in conformity with the law were not removed at once he would be compelled to file complaints in

Improvements at Armour's Plant. Yesterday the Armour company started to build six cottages on Q street near Thirtyfirst street. Each house will have seven rooms, not including a bath room, and will be finished nicely throughout.

Work is to commence on the glue factory within a few days. L. J. Haughey of the Armour glue works, Chicago, spent yesterday in the city in consultation with Superintendent Howe and Construction Superintendent D. J. Simpson.

Object to Labor Day Holiday. Another clash between the packers and their employes is imminent. It is understood that the packing house workmen do not want to work on Labor day, while the packers are opposed to shutting down the plants. There was a meeting of the packing house managers at the stock yards office yesterday, at which the question was discussed. The managers do not want to lose a whole day just at this time when orders are coming in rapidly, and when the run of stock is increasing every day. There seems to be little chance of the men giving in and agreeing to work on the day in question, and if the packers insist there is liable to be a repetition of the recent

On account of these injuries he alleges that he was laid up for two weeks. He asks the city to pay him \$50 for the time lost.

Too Much Work for the Mayor. Mrs. Wolf, whose home is at Twentyfifth and Polk streets, complained to the mayor yesterday that a neighbor had thrown a dead dog into her well. She wanted his honor to go to her home at once and fish the deceased canine out of the well. Naturally the mayor objected to so much exertion on a hot day, and told Mrs. Wolf that he could not get away just at that time. The matter was referred to the chief of police.

They were also convinced that war breeds national insanity; that war was the enemy of the people and that war for conquest means imperialism.

COAL MINE BURNING

Many Miners Barely Escape with Their Lives, but Are Seriously Burned-Horses Cremated. DANVILLE, Ill., Aug. 26.—The large coal

mine operated by A. H. Bennett caught fire this morning and burned until 2 o'clock this afternoon. Eighteen men were in the mine at the time and barely escaped with their lives. When the alarm was given the entire

force rushed to the shaft and found it in flames, the cage and cable having been burned. They resolved to try the air shaft at the other end of the mine and started to fight their way through the dense smoke and flames. The props were all ablaze and huge burning lumps of coal added to the intense heat. Several of the men sank exhausted and had to be carried on out by their companions. Burning and bruised they literally crawled over red hot coals and timber until their bodies were one mass of wounds. When they reached the air shaft they were drawn up by means of ropes. Many of them were so completely exhausted that ropes had to be tied around their bodies in order to get them out. Some of the men may die from the effects of burns. Charles Hatfield and son were among those who were seriously burned. The mules and horses used for teaming were all cremated. The mines are practically worthless and will probably never be worked

impaired di-isordered liver gestion and a disordered liver mean that a man is fighting the first round with death. Unless he manages to strike the knock-out blow, it means that death will come up in the second round in the will come up in the second round in the guise of some serious malady. When a man's stomach is weak and his digestion is impaired, the life-giving elements of the food he takes are not assimilated into the blood. The blood gets thin and weak, and the body slowly starves. In the meantime the disordered liver and the sluggish bowels have forced into the blood all manner of impurities. The body is hungry and eagerly consumes anything that the blood-stream carries to it. In place of healthy nutriment, it receives for food foul poisons that should have been excreted by the bowels. Continued, this system of starvation combined with poisoning, will wreck every organ in the body. Naturally, the weakest organ will give way first. If a man is naturally nervous, he will break down with nervous exhaustion or prostration. If he inherits weak lungs, the consequence will be consumption, bronchitis, sequence will be consumption, bronchitis, asthma, or some disease of the air-passages. If he has a naturally sluggish liver, he will suffer from a serious bilious or malarial at-tack. Dr. Pierce's Golden Medical Discov-ery cures all disorders of the stomach, digestion and liver. It purifies the blood and fills it with the life-giving elements of the food that build new and healthy tissue. It is the great blood maker and flesh-builder and nerve tonic. It cures 98 per cent. of all cases of consumption. Thousands have testified to their recovery from this dread disease under this great medicine.
