BIGGEST WEEK OF ALL

Bohemians Make a Record for Celebrating at Transmississippi Exposition.

THEIR DEMONSTRATION A MONSTER ONE

Enthusiasm of the Participants Reflects Among Visitors in General.

PARADE BRINGS A RUSH TO THE GROUNDS

Marching Column Heads a Throng that Jams the Gates for Hours.

FORMALITIES CONNECTED WITH THE EVENT

Auditorium Packed to Hear the Speakers and Grand Plaza Crowded to Watch the Evolutions and Calisthenics of the Turners.

Total Admissions Yesterday 17,751 Total to Date 1,023,110

After nearly half a hundred state, societies and municipalities had in turn contributed their share to the exposition the Bohemians of the transmississippi country came yesterday and eclipsed all previous records.

Bohemian day was the most brilliant success of all, and the biggest week that the exposition has yet enjoyed was fittingly closed by the great celebration that made it notable.

While there was an average crowd on the grounds in the morning it did not compare with that of the afternoon and evening. A large proportion of the people remained downtown to see the parade, and it was late in the forenoon when the great rush of visitors began.

Each of the magnificent objects was heartily cheered, and the various uniformed societies that marched in the pageant were also given an enthusiastic greeting.

General Manager Clarkson took personal charge of the parade after it reached the grounds, and both he and the other exhibition officials were present to congratulate the Bohemian committee on its success in bringing in the biggest party and the most brilliant pageant that had yet visited the grounds.

Lunch Before Listening. The interval before the exercises was devoted to an attentive discussion of the numerous lunch baskets that came with the crowd and for half an hour the main court was transformed into a huge basket picnic.

The exercises at the Auditorium were on a scale that was commensurate with the general enthusiasm of the day. The big building was packed from the pipe organ to the doors, and in spite of the heat resultant from so much crowding and the rather long program, it remained crowded to the end.

Then the people swarmed to the Plaza, where they gave equally hearty approval to a short calisthenic drill by the pipe organ to the doors, and in spite of the heat resultant from so much crowding and the rather long program, it remained crowded to the end.

GERMANY AND PEACE

Tentonic Press Discusses Negotiations from Different Points of View.

PRaises AMERICA FOR ITS MODERATION

Looks for Difficulties Over Settlement of Philippine Question.

CONSIDERABLE TIME LIKELY TO ELAPSE

Foreign Office Maintains Absolute Retention on Attitude of Government.

PRINCE BISMARCK'S MEMOIRS NOW IN BERLIN

Bulky Manuscript is Undergoing an Examination, the Text Having Been Personally Dictated by the Chancellor Himself.

(Copyright, 1898, by Associated Press.)

BERLIN, Aug. 27.—The German press continues to discuss the peace conditions from various viewpoints, a majority of the papers according to the United States high praise for the moderation the American government has displayed.

Most of them seem to expect that difficulties will arise over the ultimate disposition and control of the Philippines, but as a rule the arguments advanced are respectful and there are. The Koelnische Zeitung's editorial may be worth quoting, as there is the best reason for believing that it was inspired. It says: "Before a definite peace is concluded considerable time must elapse. Meanwhile the international situation of the Philippines and the far east may have changed materially. It is not likely that Spain and the United States will agree to a definite settlement of the Philippines question without taking the advice of the powers interested—particularly Russia and France."

The foreign office maintains absolute retention as to the present attitude of the government on the subject.

Week's Events in Politics. The most important events in the week's politics have been the national convention at Crefeld, Rhenish Prussia, and the adoption by the socialist party toward the coming Diet elections. The Crefeld convention for the first time took a distinctly friendly tone toward the government.

Bishop Schmitz of Cologne eloquently expressed strictly loyal sentiment. A telegram sent to Emperor William assuring him of the loyalty of 7,000 delegates of the German Catholics assembled, and his reply to them was the notable feature of the occasion. Another noticeable departure was resolution adopted by the convention to establish Catholic peasant societies everywhere in Germany.

This was a strategic move designed to compete with the peasant federations of Bavaria and the members of the author of the Kulturkampf, instead of being used as a basis for hostile comment, drew out a few semi-laudatory remarks, one speaker contending that if Bismarck were alive and chancellor of the empire, he would now, a bill to recall the results.

The various socialist local election committees have decided upon their course of action with regard to the Diet election. In Berlin an overwhelming majority has resolved not to participate, as under the three-class election system the socialists have no chance of electing their candidates.

On the other hand Breslau, Erfurt, Frankfurt, Lebus, Brandenburg, Bielefeld, Eibelfeld, Binbeck, Brandenburg and other towns have decided to run their own candidates to support Freisinnige candidates. In a number of other districts the socialists have concluded to participate openly in the elections which may mean the ruin of many socialists.

Bismarck's Memoirs in Berlin. Prince Bismarck's memoirs are now in Berlin. Privy Councillor Kroner received a special permit from the government and brought the bulky manuscript which is now undergoing examination. There is, however, a duplicate manuscript at Friedrichshagen, and as the text was dictated by Bismarck personally, the family will not submit to any considerable changes or abbreviations.

At Wilhelmshohe on Wednesday consternation was caused by the discovery that one of the chimneys was a fire. The palace was soon filled with smoke and the members of the imperial family were driven into the open air. Emperor William, however, promptly took control of the firemen and the flames were soon extinguished.

There is unusual activity in the shipyards at Kiel, Stettin, Eibling and elsewhere. The government has placed a number of orders, among them including commissions for six big torpedo boat destroyers of thirty-three knots speed, to be ready for service early next year. In addition are orders from Russia, Spain, Brazil and the Argentine Republic. It is a curious fact that the government has ordered the Vulcan ship building works to pay a duty of 250,000 marks on the floating dock built in England, although the company objects against the ruling, the dock will have to be built in Germany.

The photographs which declare that vessels are free of duty. It is announced that the Navy department has secured "for important technical purposes" 1,500 photographs of the new cruiser Hertha when traveling at a speed of nineteen knots. The photographs were taken in a few minutes by a new instrument, the cosmograph.

The big army maneuvers to commence September 3 will be under the personal direction of Emperor William. They will include, it is reported, interesting and comprehensive experiments with pigeons, bicycles and air ships. Among the air ships will be one of an absolutely new type. During a certain stage of the maneuvers the emperor will assume personally the chief command. His military staff will include General von Hahnke, General von Plessen and General von Scholl.

Mrs. Lillian Russell is appearing before crowded houses. The newspaper comments upon her work are favorable. Her manager is negotiating for a series of performances in Madrid.

United States Senator Fernando de Soto Money has been several days consulting a famous oculist.

Much interest is displayed in the outcome of the far eastern contest. The positions of the renowned Austrian Orientalist, M. Vambery, in a Vienna magazine meet with some support. He believes all the advantages Russia has gained in China can only benefit her in the remote future, when Russian industry and commerce become able to compete with British.

"Such a despotically governed people," he says, "cannot develop rapidly, while on the other hand the Chinese are awakening and their Anglo-American schooling is creating a desire for development. Should England join her interests to those of America and Japan she would gain her ends despite Port Arthur, Russian railways and Russian banks."

FOR BRAVERY AT MANILA In List of Promotions Ordered is Major Stoenberg of First Nebraska and Captain Bjornstad.

WASHINGTON, Aug. 27.—Before leaving the city the president ordered the following promotion of officers who participated in the battle of Manila: To be brevet major of volunteers: Brigadier General T. M. Anderson, Brigadier General MacArthur, Brigadier General Torrey.

To be brevet major of volunteers by brevet: Major John F. Babcock, Brigadier General of volunteers: Colonel Ovenshine, Twenty-third United States Infantry; Colonel Irving Hale, First volunteer infantry; Lieutenant Colonel A. Whittier, United States volunteers.

To be brevet brigadier general of volunteers: Colonel M. C. Reeve, Thirteenth Minnesota. To be brevet colonel in the regular army: Lieutenant Colonel John French, Twenty-third infantry.

To be brevet colonel of volunteers: Lieutenant Colonel R. E. Thompson, chief signal officer. To be brevet lieutenant colonel of volunteers: Major Cuthbertson, Tenth Pennsylvania volunteers; Major J. F. Bell, United States volunteers; Major Stoenberg, First Nebraska; Major Bonner, First California; Major Sturgis, assistant adjutant general volunteers; Major Strother, volunteer engineers; Major Bement, volunteer engineers; Major Simpson, assistant adjutant general of volunteers.

OVATION TO SCHLEY

National Capital Gives the Admiral a Very Warm Welcome.

OVERWHELMS HIM WITH CONGRATULATIONS

All Join in Hearty Greeting to the Hero of Santiago.

DEMONSTRATION AT NAVY DEPARTMENT

Officers and Clerks Struggle to Grasp Naval Commander's Hand.

WOMEN GIVE HIM OSCULATORY GREETING

Female Clerks of All Ages Engage in a Bazaar Counter Rush to Implant Kisses on His Manly Cheek.

WASHINGTON, Aug. 27.—Rear Admiral Schley left here at 5:25 p. m. for Annapolis, Md., where he will remain over night and then proceed to Westport, Conn., by way of Baltimore and New York.

When ever the admiral appeared on the streets during his stay here he has been the recipient of most marked attentions. Enthusiastic cheers greeted him at every point. The Porto Rico military commission, of which Admiral Schley is a member, will sail next Wednesday on the transport Seneca. On arrival at Porto Rico Admiral Schley will transfer his flag to the main deck of the transport.

Admiral Schley received a great demonstration at the Navy department today. He came to the department quite early and after a call upon Acting Secretary Allen he emerged from the main door of the secretary's office. His presence in the building had become known, however, and as soon as he was seen cheers rent the air from the clerks who had assembled to catch a glimpse of the hero of Santiago. The officers and clerks from the Navy, State and War departments crowded the corridors leading up to the Navy department until it was impossible to pass through.

They crowded around the admiral, reaching forward to shake his hands. The women clerks were even more demonstrative and the admiral was kissed by old and young without discrimination. It was finally necessary to form a line and pass the crowd around through the large rooms of the secretary's office in order to give them a chance to shake hands with the admiral. Many prominent army officers took part in the demonstration. The admiral finally escaped into Captain Crowninshield's office.

ANAPOLIS, Md., Aug. 27.—Admiral Schley arrived here from Washington this evening and went to the home of his sister-in-law, the Misses Franklin. A large crowd filled the streets adjacent to the station, applauded him, and many shook his hands. The admiral was tendered a reception this evening by the Annapolitan club.

RECOMMEND HOBSON'S PROMOTION.

Skill, Courage and Gallantry Commanded by Naval Board.

WASHINGTON, Aug. 27.—The naval examining board has recommended Assistant Naval Constructor Hobson for promotion to naval constructor.

Hobson was to have been examined for promotion last week, but owing to his duties he could not go before the board. It was ordered that his record be examined to see if it would entitle him to higher rank. The board says: "The board joins with all the world in admiring the skill, courage and gallant conduct of Assistant Naval Constructor Richard P. Hobson in connection with the Merrimac, as set forth in the letter of the commanding officer of the North Atlantic station."

The report then refers to the various papers submitted in connection with Mr. Hobson's record and makes the following recommendation: "The board recommends that he be promoted to naval constructor."

REPRIATION OF SPANISH

Madrid Council Adopts Measures Looking to the Care of Soldiers at Santiago.

MADRID, Aug. 27.—The council today discussed the subject of the repatriation of the troops and adopted a credit of 500,000 pesetas to be used in the work of sanitation and another of 500,000 pesetas to establish a hospital at Santiago in the captain generalcy of Galicia, Senor Sagasta today declared to a number of journalists that he believed that Carlists do not exist in Spain.

LONDON, Aug. 26.—The Madrid correspondent of the Sunday Times says: "The government has received a cipher dispatch from Manila giving full details of the capitulation and of the condition of the island. The contents of the dispatch have not been made public.

General Rios, governor of the Visayas islands, reports fighting between the rebels and Spanish troops at Cebu and Iloilo. A flotilla has been sent to protect the islands from invasion by the rebels sent from Luzon by Aguinaldo.

General Rios has armed several battalions of militia. Telegrams from Cuba report continuous fighting in the provinces of Pinar del Rio and Santa Clara between the Spaniards and rebels.

The Canary squadron is now at Ferrol. Captain of Cristobal Colon Must First Stand Trial Before Court-Martial.

MADRID, Aug. 27.—Commandante Emilio Diaz de Moreu, former captain of the cruiser Cristobal Colon, promises to conduct a lively anti-government campaign in the Cortes on his return to Spain. It is pointed out, however, that he, as well as all the other commanders of Admiral Cervera's squadron, will have to appear before a court-martial before anything else is done. As soon as the commander arrives the government will ask the Cortes for authority to prosecute him, as he is a deputy, and this authorization is necessary.

A special official denial is made of the statement that Admiral Cervera has written a letter, published in the American press, praising the American navy. His authorization is regulated.

El Liberal and El Imparcial think it will be negotiating to commence operations in case of an outbreak in the Basque provinces, Navarre and Logrono.

The troops at Burgos, 130 miles north of this city, are all in readiness, in case of necessity, to commence operations in case of an outbreak in the Basque provinces, Navarre and Logrono.

SENeca IS TO BE THE FLAGSHIP.

Takes Commission to Porto Rico While Brooklyn Goes into Dock.

WASHINGTON, Aug. 27.—The Porto Rico steamer Seneca, which will sail for Porto Rico on the Seneca, which is at present one of the vessels of the War department, but probably will be transferred to the Navy department. The admiral will hoist his flag on it while the Brooklyn will go into dock for repairs.

STRIKES A PLEASURE PARTY

Train on Boston & Maine Railroad Runs into a Buckboard—Five Persons Are Killed.

WARE, Mass., Aug. 27.—A railroad train on the Boston & Maine railroad struck a wagon at Whiting's Crossing tonight and killed five members of a pleasure party. The killed were: GEORGE WHITING, aged 50. MRS. WHITING. JESSIE WHITING, their daughter, aged 13. SADIE WHITING, another daughter, aged 10.

A BOY, who flagged the crossing, name unknown. The injured are: George Whiting, Jr., fatally. H. Rich, aged 13. James Scott, aged 13. John Scott, aged 6. Mildred Scott, aged 4. Mrs. Houghton, both legs broken.

The first intimation of the horrible affair was brought by the train due here at 6:30 o'clock, which had the victims on board. The pleasure party was made up of the Whiting family and their immediate friends of Bondsville, and they were going from their home in Bondsville to Forest Lake in a covered wagon drawn by four horses. On one side of the crossing there is quite a steep hill and started down toward the railroad track the flag boy at the foot of the hill was seen to come out of his station to flag an approaching train. The momentum of the vehicle on the steep grade was so great that it went by the flag boy and out on the track just as an accommodation train came along. The engine struck the wagon about in the middle, tossing the occupants on all sides, killing the horses and demolishing the vehicle. Five bodies were picked up in a terribly mangled condition, one of the boy, being the first to be seen. The other four were still in the wreckage, but the regular train having been called away and put the boy on to flag this train.

G. R. Whiting, Jr., the most seriously hurt of the injured, is not expected to survive the night. Mrs. Houghton had both legs broken and is internally hurt. The others are badly hurt and bruised.

AMERICANIZING SANTIAGO

Popular Reforms Favored by the Better Classes—Death Rate is Daily Increasing.

SANTIAGO DE CUBA, Aug. 27.—The American postal system is soon to be introduced here and house to house deliveries and letter boxes are to be established. The merchants are much pleased and the desire is felt for the establishment of American business systems. The modification of the administrative system of the provincial governments by Generals Lawton and Wood meets with the approval of all intelligent citizens and co-operation in the movement is increasing. The schools will be opened on September 1. English will be taught in the grammar schools, the purpose of its Americanizing effect. The employees of the civil government are now paid with checks only, owing to scarcity of small change.

Impressive services were held over the remains of the Colombian consul, Senor Bravo, who died from fever. Many flags were flying at half mast.

The death rate among the citizens and troops is increasing. The deaths in the city daily number about eighty. The mortality among the soldiers is small, however. Patients who are convalescent after an attack of dysentery and yellow fever gain strength slowly, owing to the enervating effect of the climate. Two hundred immunes are now in the hospital.

The steamer Panther left early this morning with 108 sick soldiers of all regiments and the Roumania will leave tomorrow with 425 sick from all regiments, leaving 500 for Olivette, which is expected on Wednesday to take all the sick save the critical cases. Eight thousand rations were dispatched today to Guantanamo Bay, for two companies of Ray's Immunes. The transports San Augustine, Leonora and San Francisco will go for 6,000 Spaniards at Guantanamo Bay.

The Cherbourg hospital ship, left today with 1,000 sick Spaniards. The condition of all Spanish soldiers who have left the hospital and desire to continue their voyage are about to leave is pitiful. Physicians say 30 per cent of them will die before reaching Spain. Three thousand remain here.

WAITING ON THE UNITED STATES.

Spain Will Name Peace Commissioner. Very Quiet Day.

MADRID, Aug. 27.—Both American and Canadian delegations of the arbitration conference have been in session today. They say various subjects have been discussed, and that no stumbling blocks have as yet been encountered. Nothing whatever was revealed of what subjects have been under consideration.

Several of the government experts from Washington and Ottawa have left Quebec, which indicates that no exhaustive discussions will be gone into before the recess. At the meeting today resolutions of sympathy were passed and sent to Sir Wilfred Laurier on account of the death of his brother.

The commissioners were entertained at the Garrison club by Solicitor General Fitzpatrick this evening.

Pope Leo's Presents. ROME, Aug. 27.—(New York World Cablegram—Special Telegram)—It is estimated that during his pontificate Leo XIII has amassed \$20,000,000, including presents of precious stones, gold and silver, to the value of \$10,000,000. President Kruger of the Transvaal republic is said to have presented the pope with the largest diamond in the world. It is valued at \$4,000,000.

Killed by a Collapsed House. FEEDING, Italy, Aug. 27.—During a heavy thunder storm yesterday thirty persons sought shelter in an old house in the suburbs of the city. The building collapsed and eighteen were killed.
