The red and white of Bohemia and the of carriages containing the speakers of the glorious Stars and Stripes were raised and day, officers of the various local and visitfloating side by side above the Exposition yesterday—the one the guest and abroad of honor, the other the host. In Omaha seemed to be more half Bohemian yesterday. Thouands and thousands of Bohemia's sons and daughters, now the adopted children of Columbia, are gathered here in the greatest reunion of the people of Bohemian nativity ever held in the history of the transmississippi country. The badges that mark them are everywhere visible on the streets and the number of men and women who wear them seem to be no less than the num- World. Another band preceded a contingent ber of those without them. Bohemian day is a grand, glorious success and reflects unbounded credit upon the local Bohemians United Workmen with a float representing who have worked so hard to bring it to such a conclusion.

Thousands of people came in Friday from all parts of the country, particularly from Nebraska, Kansas, Iowa and the Dako tas. Before the noon hour had passed all hotel accommodations in the Bohemian residence portion of the city about South Thirteenth streets had been taken up. Yet further hundreds came in during the afternoon and still more yesterday morning. Special trains and a young woman dressed as a bride, while special cars poured out great loads of the visitors at the depot until such a number had been set down within Omaha's gates as has not yet been seen on any special day in the history of the exposition.

To secure an adequate idea of the mass of the people who are visiting the city to take part in the celebration of the day one would have had to visit South Thirteenth street this morning. Early in the day this thoroughfare commenced to be the center of at traction for the Bohemians in the city, for it was from the corner of Thirteenth and William streets that the street parade, the great down town feature of the day's celebration, started. As the morning advance/ the street became thronged and when the hour for the start arrived, 10 o'clock, the street was so thoroughly massed with peo ple that traffic was effectually stopped, street cars had to slowly make their way through and the hour when the parade was started was delayed a half hour and more. Th view of the street with its crowd of people and the gay decorations of the residences and business establishments was a decidedly gala and festive picture.

Parade is a Gem.

The parade was not only a big feature of Bohemian day, but it was one of the gems of the exposition year. No handsomer, no bet ter arranged, no more interesting procession has ever passed through Omaha's streets The particular features were a dozen handsomely designed floats and some lifteen or more bands of music. The directors, how ever, departed from the usual custom of bunching the interesting portions of a parade together, and judiciously arranged them along the entire line. As a consequence there was no section of the procession of uniformed men and civilians, of floating baners and flags, of bands of music and pretty pictures, of horsemen and carriages and footmen that seemed to be out

Approbation marked the movement of the parade through the business streets of the Thousands witnessed it along the route and everywhere it was met with expressions of commendation. "That is one of the finest parades I have ever seen in Omaha and ought to put some of Omaha's pure-bred Americans to shame," was a frequent expression of approval.

The parade started from Thirteenth and William street very nearly an hour after the scheduled time. It proceeded north on Thirteenth to Pacific, east on Pacific to Tenth, north an Tenth to Jackson, west on Jackson to Twelfth, north on Twelfth to Douglas, west on Douglas to Sixteenth. north on Sixteenth to the exposition grounds. R. V. Miskovsky was marshal of the day. His direct aides were Judge Louis Berka, Joseph Maepinsky and V. F. Kunel A score of other aides assisted him in other portions of the line.

Coming of the Cohorts.

The procession was headed by a squad of bluecoats. Directly behind were the marof honor of the day, the turners. There of this city and South Omaha and others in gray uniforms and included the teams from this city and South Omaha.

Following the turners came a float repreesnting the society. It was decorated with was particularly offensive. Susanka, is believed by Detective Vizzard o have conducted a sort of underground mercantile business. In other words, he is selieved to have sold the stolen stuff to small, but unscrupulous merchants in Omaha and the smaller cities, and to have made it a regular business. His employment at the brick yards, Mr. Vizzard thinks, was simply a blind to avert suspicion from him. Susanka is also suspected of being guilty of several incendiary fires that have occurred in Wahoo of late, the purpose being for robbery.

Special Officer McGovern Tells of His Experience with Three Prospective Street Car Robbers.

Special Agent McGovern of the Omaha street Railway company says that had Chief of Detectives McGrath acted on his tip and stationed men at the terminus of the Hanscom park line the holdup of Confuctor Walker and Motorman Hansen Friday night would have been frustrated and the men probably bagged.

McGovern says that shortly after midnight Thursday night three men, two white and one colored man, who he is confident were the men who committed Thursday night's robbery, approached him while he was on duty guarding the switches at the orner of Fourteenth and Howard streets and inquired when the last car passed for Hansoom park. He evaded their query and the men hovered near, conversing in low tones. McGovern gives a very circumstantial account of how he heard enough to convince him that a robbery was being planned. He notified Chief of Detectives McGrath and the latter promised, after making some inquiries, to look into the matter. McGoverh says he expressed his belief to Mc-Grath that the men were planning to rob the train and was given the laugh.
