WHEELER ON THE SITUATION

(Continued from First Page.)

In a state of wreck. You can't imagine the destitution on the island of Cuba.

What troops are left to garrison Santiago? The only troops of the Fifth corps that were left were the Twenty-fourth infantry, the remainder of the Ninth Massachusetts, about 100 recruits and the last of the sick and wounded. These were to have left on the day after the Mexicans sailed and are to reach here tomorrow or next day. This completes the withdrawal of the army of invasion which was composed of the Fifth corps. The garrison duty is in other hands. The Fifth army corps flag will float over Camp Wikoff today.

GROUND INFECTED WITH DISEASE.

Governor Black Says Too Many Troops Are Kept at Chickamauga. WASHINGTON, Sept. 2.—Governor Frank B. Black and party of New York arrived in Washington late in the afternoon from a trip during which they visited the mobilization camps at Chickamauga Park, Lexington, Ky., and Huntsville, Ala. Governor Black's idea in visiting the camps was to ascertain their conditions, particularly as they related to the New York troops located there, and be desired from personal observation to be in a position to recommend to the War department what New York regiments should be mustered out of the service at once.

"The conditions of the camps we visited," said Governor Black, "were really better than I expected to find them. They were better than they had been pictured in the newspaper reports I had read before visiting the camps. Many things, doubtless, could be remedied, but on the whole the camps we found to be not in bad condition."

Shafter Will Not Argue.

CAMP WIKOFF, N. Y., Sept. 2.—General Shafter declines to enter into a controversy, he says, with Dr. Sen, in regard to yellow fever among the soldiers at Santiago, and as he was slightly indisposed today, denied himself to interviewers.

No Deaths at Santiago Yesterday. WASHINGTON, Sept. 2.—The following is General Lawton's daily report of health conditions at Santiago: Total sick, 220; total recovered, 139; total new cases fever, 7; total returned to duty, 22; no deaths.

Troops Sick from Camp Meade. CAMP MEADE, MIDDLEBURY, Pa., Sept. 2.—Private Peck, Company E, Thirty-third Michigan, died tonight of typhoid fever. The Medico-Chirurgical hospital train left camp for Philadelphia tonight with 100 convalescents and a few hours later the University of Pennsylvania hospital train left with 100 additional sick soldiers.

There are less than 100 patients tonight in the division and Red Cross hospitals and these will probably be moved to the city hospitals during the next forty-eight hours. Sixty men of the Third Missouri were made sick last night by eating corned beef from a can which was opened several hours and partly used. None of the cases are serious.

CARE OF RETURNED SOLDIERS

Senator Allen of Nebraska Looks After Interests of Second Regiment.

WAR OFFICIALS MAKE PROVISION FOR THEM

Adjutant General of the State is to Take Charge of Sick and Place Them in Hospitals at Federal Expense.

WASHINGTON, Sept. 2.—Senator Allen of Nebraska was at the War department today looking after the interests of the sick soldiers of the Second Nebraska. He had a telegram from Omaha that these soldiers are arriving there without provision for their care. Secretary Alger at once directed that the adjutant general of Nebraska be in charge of the sick soldiers and place them in hospitals at the expense of the United States. Subsequently a general order was issued to the adjutant general of different states instructing them to take charge of sick soldiers on the same basis.

The instructions as sent in full by telegraph to commanding officers of all camps, departments and general hospitals are as follows: "It having been reported to the War department that many convalescent soldiers who have received furloughs and started for their homes, have been taken ill on the way, and a great number of these soldiers in this kind, it is suggested in the strongest possible terms that all soldiers traveling homeward on furloughs will exercise their best judgment in caring for themselves and especially those who have been ill in hospital and over. Their appetites are very keen and unless they are in danger of all except necessities they are in danger of a relapse.

"This instruction is sent hoping that it may reach the eye of those men enroute and also for the instruction of surgeons at all military hospitals. It is ordered that no men shall receive furloughs until the surgeons in charge believe to be unable to travel alone, and that no furloughed soldier shall leave a hospital without receiving full instructions as to his diet, while enroute to his home, from his surgeon."

SOLDIERS START FOR HOME.

Movement of Troops from Camp Meade is Now Under Way.

CAMP MEADE, MIDDLEBURY, Pa., Sept. 2.—The movement of troops from Camp Meade, which have been ordered to their home stations for muster out, will begin Sunday, the detachment of the Ninth Massachusetts being the first to start. The detachment of the Thirty-third and Thirty-fourth Michigan will follow Monday and the Third Missouri Tuesday. The muster party of the Sixth Pennsylvania and Twenty-second Kansas are completed and the regiments are awaiting orders to start for their state camps. The troops will be mustered out in three detachments, the officers may prepare the accounts and get the papers in shape.

Major General Graham was advised by the War department today that the Third Connecticut would be sent here from Niantic, Conn.

Major Wright, commissary of subsistence, has been ordered to Camp Alger to receive the quartermaster and commissary property which will be turned in by the regiments ordered to be mustered out.

A detachment of the Third New York guards, and the Fourth Missouri came to their rescue, throwing four guards into the canal.

General Graham has not yet appointed a court for first Lieutenant Bowers of the Sixth Pennsylvania regiment, who was discharged on the 21st of August without an assignment of the charges. During the men in the hospital corps will be discharged on application when their regiments are mustered out. A hospital train from the Medico-Surgical hospital, Philadelphia, took away this afternoon 200 sick soldiers from the division hospitals.

MONTAUK POINT, N. Y., Sept. 2.—The Thirty-third and Thirty-fourth Michigan volunteers left Camp Wikoff, Montauk point, on a sixty days' furlough today. The trains carrying the Michigan volunteers had been arranged for by Governor Pingree and the men are not yet to travel are left in the general hospital.

It is expected that when the president and Secretary Alger come here tomorrow orders will be issued sending home many more of the volunteer troops.

General Shafter is familiarizing himself with the condition of affairs in camp. He has held consultations with General Wheeler, Young and Ames. The last named has been carefully looking into the affairs of the camp at General Wheeler's suggestion and advised General Shafter as to the condition of the hospitals, the methods of caring for the sick and the sanitary condition of the camp.

Today the camp is being cleaned up all around, so as to have everything in the best possible shape tomorrow when President McKinley and his party arrive.

The special train carrying on board the presidential party will arrive during the forenoon. There will be no formal parade or review of the troops. When the president arrives a salute will be fired in honor of the president, and General Shafter and staff and Generals Wheeler and Young will receive the distinguished visitors, who will enter carriages and be escorted into camp by a detachment of cavalrymen. In accordance with the president's desire, no much display will be made over his arrival in camp.

INDIANAPOLIS, Ind., Sept. 2.—Colonel Studebaker's "Tigers," the One Hundred and Fifty-seventh Indiana volunteers, reached here from the south this morning. The regiment left its camp at Ferdinand this evening. This regiment left Indianapolis Sunday, May 25, for Chattanooga park. All day yesterday the train, in its four sections, traveled across Kentucky. It was an annoying journey, with many tedious delays, and when the first section of the train, carrying troops reached here at 11 o'clock last night, an impatient army was on board, restless and anxious. When the troops crossed the Indiana line this morning every man was out of his berth if he had the strength to get up.

The trains drew into the city the switch engines and factory whistles screamed out a joyful welcome with all their might. There was a continuous string of people from the belt to the union station, the crowds becoming thicker nearer the city. Employees in the machine works and other buildings on the work and waved their hats and handkerchiefs. The men closer to the train shouted and some of the women could be seen crying.

FIRE IN BUNKERS OF TRANSPORT.

Hatches Closed and Sick Soldiers

NEW YORK, Sept. 2.—The transport Montana, which arrived this morning from Montauk, landed a number of sick soldiers of various regiments from Santiago. During the voyage from Santiago to Montauk the engines of the transport found the coal in the after hold to be on fire. The hatches were closed and the fire was kept under control until the steamer reached Montauk and discharged its sick troops, when the chief engineer reported his coal again on fire.

THE TRANSPORT WAS THEN ORDERED TO PROCEED

to this port to unload the burning coal. It has on board 800 cases of cartridges, which will be discharged immediately.

THIRD OF ARMY MUSTERED OUT.

Eighty-Three Organizations of Volunteers Will Soon Be Disbanded. WASHINGTON, Sept. 2.—A statement prepared at the War department shows that including today eighty-three of the organizations in the volunteer army have received orders looking to their being mustered out of the service. This number includes fifty-three regiments and a number of minor organizations, such as batteries of artillery, independent companies of cavalry, etc., and probably represents almost one-third of the approximately 220,000 men called for by the president in two proclamations issued by him.

Returning to Ways of Peace.

PHILADELPHIA, Sept. 2.—The auxiliary cruisers St. Paul and St. Louis today at Cramps' ship yards were returned to the International Navigation company by the government. There was no ceremony attendant upon the transfer, beyond the hauling down of the American flag and the raising of the ensign of the International Navigation company. The officials of the company were notified that the Harvard and Yale, now in New York harbor, would also be turned over today to the company.

More Spanish Beach Home.

SAN FRANCISCO, Sept. 2.—The Spanish transport Covadonga, which sailed from Santiago de Cuba on August 19 with 2,145 Spanish soldiers, 109 Spanish officers, forty-four women and forty-five children, a total of 2,316 passengers, arrived here safely today.

WASHINGTON, Sept. 2.—Orders have been issued by the War department that all regular army regiments now at Montauk and other provisional stations east of the Mississippi river, shall return to those same stations.

END OF THE FIRST ROUND

Joint International Arbitrators Take a Respite from Their Labors

Until September 20.

QUEBEC, Sept. 2.—The joint high commission of the United States, Canada, Newfoundland and Great Britain, after ten days' work, adjourned at 2 o'clock this afternoon to meet again in this city September 20. All of the American commissioners excepting Mr. Kasson will return to their homes or to Washington.

What the commissioners have accomplished to this point or what they are likely to accomplish in the future can only be inferred from outward indications. Absolutely nothing has been revealed from within the meeting rooms of the commission.

Three powerful industries of the United States, by their representatives, have appeared here praying the American members of the conference to make no change in the duties now imposed on the Canadian products of lumber, fish and pulp paper. The lumber interest is the most important of the three and it is known that between this and the reconvening of the conference active steps will be taken by the United States lumbermen to forestall any action on the part of the commission in the way of opening the United States markets for Canadian lumber.

Another powerful industry yet to be heard from is the agricultural interest. The farmers of the United States will vigorously oppose an adjustment which will involve the reduction of duties on Canadian products. Yet these are some of the concessions the Canadian government desires.

EDGAR KANE SHOOTS HIMSELF

Called on to Assist a Constable He Tries to Draw a Revolver and is Hurt.

While assisting a constable in an attempt to arrest William Critchfield, a colored man wanted on a criminal charge in Justice Baldwin's court, Edgar Kane, known also as "the constable" shot himself in the right wrist. The hammer of Kane's revolver, which he had placed in his pocket muzzled upward, when called out of a house at Twelfth and Capitol avenue to assist in the arrest, caught in the lining of his pocket and exploded the cartridge. The ball went clear through his wrist.

Kane was placed under arrest by the police when his wound was dressed and charged with discharging firearms within the city limits.

The accident occurred at the corner of Twelfth and Capitol streets about 4:30 last evening. Kane alleges that the reason he reached for his revolver was that Critchfield when he demanded his surrender sought to draw a revolver on him.

Despite the fact that he was wounded, Kane fired two shots at Critchfield, who ran away when the accident occurred. Kane lives at Fourteenth and Williams street.

Happy, healthy children

Every child's woman feels that her heart strings when she sees her baby's happy, healthy, smiling face. Even in childhood, she shows how deeply this sentiment is imprinted on her breast when she plays with her baby. There are many ways in which a mother's touch of a first-born's fingers to complete their happiness.

Every child is the mother of happy, robust children who will. Thousands of women who had five years of cheerless, childless wedded life, or whose babies have been born to them weak and sickly, soon to die, are now happy mothers of healthy children, and bless Dr. Pierce's Favorite Prescription for the wonderful results accomplished for them. This great medicine acts directly and only on the delicate and important organs that bear the burden of maternity. It makes them strong, healthy, vigorous and elastic. It allays inflammation, heals ulceration, and tones and strengthens the nerves, which whooping cough, the constant vomiting, and makes baby's advent easy and almost painless. It insures a healthy child and an ample supply of nourishment, which dealers will not offer worthless substitutes for the sake of a little added profit.

I cannot say enough in praise of Dr. Pierce's Favorite Prescription, as it has undoubtedly saved my life. I was afflicted with the disease of Corley, Logan Co., Ark. I miscarried four times, could get no medicine to do me any good. After taking several bottles of Dr. Pierce's Favorite Prescription I made my husband a present of a bundle.
