WOOLSON EXPLAINS THE WRIT

Federal Judge Makes Clear His Construction Placed on Bankruptcy Act.

NOT INTENDED TO OPERATE IN ADVANCE

Law's Effect Expressly Limited by Congress—New Point Raised in Case in Question Which is Not Yet Settled.

Some time back Colonel J. J. Steadman, clerk of the United States circuit court, received a letter of inquiry from Peyton Boyle, managing editor of the West Publishing company, Washington, D. C., making inquiries in regard to a decision of Judge Woolson's, reported in the Chicago Legal News.

The act provides that no petition for involuntary bankruptcy should be filed within four months from the passage thereof. The act further provides that no proceedings for involuntary bankruptcy in the regular way can be commenced before November 1.

Judge Woolson's Statement.

Colonel Steadman referred the letter and article to Judge Woolson, who sent the following reply yesterday to him: The substance of the case presented to me is correctly stated, but I do not believe the preliminary writ as prayed. I found no authority in the bankruptcy statute for such writ at the present time.

It is argued, no petition in involuntary bankruptcy can be filed until November 1, but that only applies to the remedy when sought through bankruptcy. When such petition is filed and these acts stated as the grounds for the adjudication of bankruptcy, such judgment must be entered and these acts declared unlawful and set aside.

It is argued, no petition in involuntary bankruptcy can be filed until November 1, but that only applies to the remedy when sought through bankruptcy. When such petition is filed and these acts stated as the grounds for the adjudication of bankruptcy, such judgment must be entered and these acts declared unlawful and set aside.

Argument Full of Force.

I could not deny that this line of argument possessed much force, but the acts of which they complained were, except for the bankruptcy statute, lawful and valid. So far as general principles are concerned equity is powerless to interfere with acts which affect the mortgage and conveyance. A valid debt existed. The debtor had, under these general principles, the right to prefer his equity as the owner of a bona fide debt.

do not make that unlawful under these general principles, but unlawful under the provisions of the statute. Congress has authorized courts of equity to act as requested. Congress did not so authorize; at least by any express provision of the statute. That Congress did so authorize is shown under the statute until November. The argument presented might well be presented to Congress. Had it been presented before the passage of the statute, the courts might have covered the points presented. The courts may not thus attempt to supply what is claimed as an omission on the part of Congress.

Arrested on a Serious Charge. M. A. Blodgett, whose papers show him to be the manager of the Western States Supply house of Des Moines, is in custody at the city jail with the charge of obtaining money under false pretenses looked against him. No information could be obtained last night when the arrest was made as to whom the complaint was filed by.

Blodgett has been in the city for the last three weeks and has been stopping at the Oden Hotel. Little is known of him except that he has been patronizing the gambling rooms and is thought to have come out at the wrong end after his contest with the tiger. A few days ago he induced County Superintendent of Schools Prof. W. H. Sawyer to endorse a draft for him drawn on the house in Des Moines. As the professor has not heard to the contrary the supposition is the draft was honored.

Blodgett himself says he has been in Des Moines for the past three years except to visit the exposition one day. The fire department was called out twice yesterday to extinguish burning grass, the flames from which had communicated with the adjoining plank sidewalks. The first call was shortly before 11 o'clock in the morning, when a still alarm took the department to the intersection of 11th and Main street, right in the heart of the implement district, where the dry grass had caught fire from a spark from an engine and the sidewalk was in flames.

Close to 8 o'clock the department was called out to Fourth avenue and to Fourteenth and Fifteenth streets, where the flames in the vacant lots on which formerly stood the old Stewart packing house was burning briskly. The flames had communicated to the sidewalk, some 350 feet of which had to be ripped up before the fire was finally extinguished.

Close to 8 o'clock the department was called out to Fourth avenue and to Fourteenth and Fifteenth streets, where the flames in the vacant lots on which formerly stood the old Stewart packing house was burning briskly.

Lake Manawa

Banner bill of the season, commencing Sunday Matinee, August 28th.

Armstrong & O'Neil, Burlesque boxing sketch, entitled "Fun in a Gymnasium"

Logrena, Royal Conjuror.

Brooks & Floyd in the laughable military sketch, "Reprieved."

Arline Wyatt latest Coon Songs.

Miss Conantell our Petite Sobrette.

Ali Zada Hindoo Magician.

Boat race on Thursday afternoon and swimming races Saturday afternoon, open to all comers. Forward entrance to Col. Reed, Lake Manawa.

Special attention given to Picnic Parties. Plenty of shade, fishing, boating and swimming.

Admission to Grounds and Pavilion 10c.

MANAWA

FURLOUGHS OF THIRTY DAYS

What Men of Fiftieth and Fifty-Second Iowa Will Get.

FIRST DEATH OCCURS AT CAMP M'KINLEY

Private Lane of Company F, from Algona, Dies Suddenly—Light Batteries Will Start Home Monday.

DES MOINES, Sept. 2.—(Special Telegram.)—It has been decided that the Fifty-second and the Fiftieth when they arrive probably next Monday or Tuesday, shall be given a furlough of thirty days.

The men will be on regular pay with 25 cents additional for rations. The furlough may be extended to sixty days. Colonel Humphreys thinks the men may get off to their homes by a week from today.

The best of the deaths occurred at Camp McKinley at 2 o'clock this afternoon in the person of Clarence Lane, a private in Company F, from Algona. Lane was an occupant of the Red Cross hospital, but died of heart failure. He ate a good breakfast this morning and seemed in good health along with the rest of the company.

He was taken to the hospital at 11 o'clock in the morning and died at 2 o'clock. He was 23 years of age and was a native of Iowa.

The Fifth and Sixth batteries of Iowa Light artillery will finish mustering out and start home today. Their pay roll has been sent to Omaha and the men will be paid Monday morning. It was not necessary to examine many of the men in either of the batteries. They were all willing to go unexamined, testifying that they had received no disabilities nor contracted any disease, which would be sufficient grounds for a pension. A few men in each company only were examined.

Captain Long of the Burlington battery stated that his men would be anxious to be transferred to the Fifty-first Iowa, but he considered this hopeless. "When we return to Burlington I have been given good assurances that we will become a national guard battery and be given a good armory on the levee by the citizens of Burlington," said he.

Take the Safe's Contents. WEBSTER CITY, Ia., Sept. 2.—(Special.)—The boldest robbery that ever occurred in this city took place Wednesday afternoon. Dr. Medberry, a druggist, was robbed of \$450 in cash. The store was full of customers and the druggist and his daughter, who were waiting on the trade, did not notice anyone in the neighborhood of the safe. The big iron safe stands almost next to a door which forms the Des Moines street entrance and as it is a well traveled street it is thought remarkable that no one of the many constantly passing saw the sneak thief. The matter, as soon as the robbery was discovered by Dr. Medberry, which was probably an hour after it occurred, was reported to Sheriff Sinclair. A neighboring merchant had called to get change for a \$10 bill, as it was known quite universally that Dr. Medberry always had money in his safe and made a practice of never depositing until the amount saved reached in the neighborhood of \$500. As soon as he went to work he got into the safe and discovered every cent gone. The only possible clue of who might have done the work is a man who entered the store a short time before the robbery is thought to have taken place and made a small purchase. The entire force of officers of the city have been detailed to watch all trains that leave town and no suspicious characters will be allowed to go until they have been through the sweat box.

Cutting Iowa Insurance Rates. DES MOINES, Sept. 2.—(Special.)—For the last two or three weeks there has been disaffection between fire insurance men due to the threatened overthrow of the Bennett rates, which provide a uniform basis for companies of the state. The trouble began when it was learned that several companies had broken loose from the compact and surreptitiously cut their rates. This fact being promulgated set all the fire insurance men in the city by their ears and their outcry has been loud and long. It is said that should the Bennett bureau, which is located in Cedar Rapids, be undone by this local rupture, it will be a long day before another compromise is effected. Some of the larger agencies seem indisposed to make any agreement and contend that they have to give up their entire commissions. In the present state of affairs would be critical to the fortunes of a number of companies.

Fusion in Woodbury County. SIOUX CITY, Sept. 2.—(Special Telegram.)—The democrats, free silver republicans and populists of Woodbury county have effected fusion and have decided upon a division of the ticket between the three parties. This action was taken at a meeting of the party leaders in this city this afternoon. The democrats are to name candidates for county attorney and county auditor, the populists to name candidates for surveyor and recorder and the free silver

republishers a clerk of the courts. The county convention will be held September 14 and they will join and endorse the Chicago and St. Louis platforms.

Aid for the Soldiers. CEDAR RAPIDS, Ia., Sept. 2.—(Special Telegram.)—An association to be known as the Parlor City Welcome committee has been formed here for the purpose of ministering to the wants of sick and wounded soldiers as they pass through the city on their return home from the southern battlefields. The railroad companies will notify the members of the committee, who will visit every train carrying soldiers and care for them as the occasion may demand. The work will be kept up so long as the soldiers pass through here.

Jailbirds Get Away. CEDAR RAPIDS, Ia., Sept. 2.—(Special Telegram.)—George Sherman, held in the county jail for trial at the October term of the district court for picking pockets and a crook known all over the country, escaped from jail early this morning by sawing the bars in the corridor window. Four local men, all held to await the action of the grand jury, escaped with him.

Sent to the Penitentiary. FORT DODGE, Ia., Sept. 2.—(Special.)—Charles Jaeger, alias Murray, and Ed Delawyer, two holdup men, were sentenced by Judge Birdsall in this city today to three years each in Anamosa penitentiary. Just eight days ago the two men dragged and robbed William Wiener, a rich farmer who resides in Green county, of \$600. The case was one of the quickest on record in this vicinity.

Soldiers Serolessly III. SIOUX CITY, Sept. 2.—(Special Telegram.)—James Vandercamp, one of the members of the Fifty-second Iowa, and Will Shepard, another soldier boy, are both in quite a serious condition. Vandercamp has typhoid fever and is very low, but Shepard is not so ill.

Will Meet at Sioux Falls. CEDAR RAPIDS, Ia., Sept. 2.—(Special Telegram.)—The officers of the National Butter and Creamery association held a meeting here today and selected Sioux Falls as the place of holding the next annual convention of the association. The meeting will be held the fourth week in January.

Iowa Farm Notes. Last year Iowa's agricultural products were valued at \$200,000,000. In western Iowa potatoes by the carload sell for 20 to 25 cents per bushel. Many farmers around Reinbeck are losing many hogs from cholera. There is a scarcity of water in many sections of central Iowa, to which fact is attributed the spread of hog cholera. Iowa farmers have become tired of growing onions. This year the fruit sells for less than 15 cents a bushel in some sections and this will not pay for the gathering. Two years ago \$1 per bushel was considered a fair price for onions and Iowa grows the sweet variety in the west. An old farmer of much experience in hog raising gives this recipe as a sure cure of hog cholera. Put a little buttermilk and soda in the trough with the slops. If the swine refuse to eat, pour a little soda and buttermilk down their throats. Twice a week feed a little green mustard and corn. Iowa farms are in great demand, especially small farms of from fifty to sixty acres. One Des Moines commission firm has thirty orders of eastern people for such bodies of land, for which they are willing to pay the highest price. Western Iowa lands are preferred at present, though central Iowa has long had the call in the eastern real estate market.
