'OLD KENTUCKY' CLOSES HIS HOUSE

Virginia City Has Lost Its Standing Among the Mining Camp Cities of the World—The Old Times Recalled by the Change.

The last vestige of the famous night-life of Virginia City passed when 'Old Kentucky' closed his faro game one night last week.

It's Almost a Hold-Up—

But you must not blame us because the exposition asks \$1.00 for your camera admission—we haven't anything to do with the concession—we find we would reduce the price to 25 cents at once—you can use our dark room free of charge—we presume that is what the dollar is charged for—we have all that is new in amateur photo supplies and invite all to call, look around and ask us all the questions you want—you don't have to buy nor to pay to get into the store—we do developing and printing.

Nowhere Else in Omaha—

Can you find so many pianos—Ours is the largest in number and the price—in variety and the lowest in price—Pianos at \$50 less than they are sold for anywhere west of Chicago—Don't take our word for it—price them everywhere you go then come to the largest music house in the west—we not only sell them cheap but we give easy terms. Small payment down and a small one each month—The new 'Hospe' piano is a wonder—fully \$100 less than its equal in any other make.

What a Carpet Costs—

The way to settle this all important point is to measure your room and then come and talk to us about it. The chances are a hundred to one that the expense will be much less formidable than you imagine. There never was a time when we could offer you such remarkable values or when we had such a plentiful variety for you to choose from.
