1-8c higher at 984,268 of 7-8c, advanced to sign of 1-8c, declined to 80 3-8c and recovered to 80 7-8c at the close.

Low temperatures and reports of killing feats in some districts strengthened cornearly. The fear that the government report due this week might not show any deterioration since August 6, however, acted as a partial counterweight to the general buillsh surroundings of the corn pit. December began 3-85 yet higher at 93.45 and closed at 308,230 7-8c.

Outs followed corn, but did not display as much strength as did the latter. The very heavy receipts and the large increase in the visible supply helped to keep prices down. May started 1-83 ye up at 22-321-8c, sold off to 21 7-8c and closed at 27-85 year. The feeling in provisions was very unsetted over the yellow fever situation. Practicel over the yellow fever situation racking house interests soid freely and the market ruled heavy throughout the session with the lowest point of a considerable deciline current at the close. New York Dry Goods Market. New York, Sept. 6. Yestrday was a close holiday in the dry goods market. To-day's activity was therefore marked. There are two day's orders to be filled and there is in consequence much shipping under way. This made the usual Tuesday dullness a misnomer. The print cloth market is fairly active. Extras are still quoted at 31-48c. There have been fair sales of print cloths, both extras and oid goods, from day to day, and mill men have worked theirs into much better shape. Staple cotton goods show unimproved tradings. The steady demand for small lots has, however, kept stocks pretty well down.
