taxes collected, the amount for the first meyen months of 1898 is \$26,811 in excess of what it was during the same period of 1895, and \$13,338 more than in 1896, while the increase over 1897 is a little more than \$10,000. In the first half of 1895 the people of York county were paying their taxes at the rate of \$5,338 per month, while this year they are paying at the rate of \$9.168 per month.

The item of moneys received from school lands of the county shows that there was but a small amount derived from that source in 1895, on account of the bad condition of the crops and the hard times that had prevailed in York and other counties. There was a good increase in 1896, but in 1897, the year that Uncle Jake Wolfe got so excited and advertised himnelf as the savior of the country in the matter of getting revenue out of the school lands, there was an actual decrease for some reason. Up to August 1, 1898, there was another increase, and it is certain that a continuation of the good times will make It possible for these figures to be doubled next year, without the aid or "good management" of any state official. In fact, the people of York are laying claim to some good management within the bounds of their own county, and feel that they are keeping pace with the general prosperity of the

Parade of Troops in New York. WASHINGTON, Sept. 10 - There is some doubt whether the parade of the troops

returning from Porto Rico can be arranged for next week. Not that the consent of the president is lacking, for he told General Miles today that the troops might parade if the conditions would permit. General Miles' idea is to have the men parade and then be placed abourd the cars immediately on the Pennsylvania, Eric and Baltimore &:

Disease is a great and treacherous ocean, Man ever stands upon its shore and gazes at over its calm surface without a thought of danger. It lieks his feet-it advances and recedes almost playfully—but all the same it will crack his bones and eat him, and wipe the crimson foam from its jaws as it nothing had suppend, as it has been doing ever since the world began.

A man who carrlessly saunters along the shore of the insatiale sea of disease will

nore of the insatiate sea of disease, will some day encounter a great storm in the guilfed. Because a man does not have to go to bed when he suffers from a trivial indi-gestion, because he does not have to give up work when he gets nervous and cannot sleep at night, because he can still force down an unsatisfactory meal when he is suffering from loss of appetite, because by strong effort he can add a column of figures with aching head—is no reason that these disorders are trifling or to be neglected.
They are the warnings of serious sickness.
A man who promptly heeds them, and resorts to the right remedy, will speedily recover his usual health. The man who negcover his usual health. The man who neg-lects them will find that he is in the grip of consumption, some nervous disorder, or some other dread malady, due to improper or insufficient nutrition. Dr. Pierce's Golden Medical Discovery is the best of all medicines for men and women who suf-fer in this way. It restores the lost appetite, facilitates the flow of directive juices, invigorates the liver, purifies and enriches the blood and tones and builds up the
