Good Cash Wheat Business for Export Improves Price of Futures.

FOREIGN CABLES HAVE A CHEERFUL TONE

September 5-8 of Cent Higher, Corn Off 1-4 Cent, Oats Unchanged and Pork and Ribs Gain During Day.

CHICAGO, Sept. 13.-An excellent cash wheat business for export today was the basis for improvement in the price of futures. September closed 5-8c higher and December rose 12/25-Sc. Corn lost 1-8/11/4c Oats are unchanged to 1-5c up. Pork and

ribs improved 10c and lard 21gc. Liverpool was again in full sympathy with Chicago, reporting 11-8d advance in September wheat and 1d in December be fore trading commenced here. There was no comforting item to the bears who were whort on wheat here, Duluth receipts-1,423 cars-being known before the opening. Those who built hopes of lower prices on that, however, were overcome with disappointment when they found at the start pointment when they found at the start buyers of December wheat at from 621-8c to 623-8c, whereas yesterday at the close \$15-8c was the trading figure. It was soon discovered that in order to make the big showing of receipts at Duluth, it had been necessary to rob Minneapolis of its due proportion, the latter place getting only \$22 cars. Not long after the opening it was seen that notwithstanding the heavy receipts in the northwest, the competition among buyers to secure them was such that they were paying it over the price current there at the close last night. That showing of the supreme need of wheat for immediate use obliterated for a time all show of bearish tendency in the speculative crowd here and added to the opening advance. Chicago received \$27 cars of wheat against \$377 cars a year ago and the western primary market receipts all told were 1.42.600 bushels, against 1.79,600 bushels the corresponding day the year before. Liverpool made further gains and in the end was from 12-8613d higher than it closed yesterday. New York reported numerous acceptances of last night eabled offer and during the forenoon put the export takings at forty-five boat loads. It will be seen from the foregoing that there was much cause for firmness in the market and it was firm. December started \$275 c. up at from \$22 to \$21-8c; rose to \$23-8623c, created to \$262-8c; and then worked gradually up again until it was wanted for a brief space at \$25-8623c.

Bradstreet's made the world's visible supply for the week 1.215,000 bushels mailer than it was a week ago. The clearances at Atlainte, and Guif ports were very heavy and the total in wheat and flour was equal to \$67,000 bushels. New York reported continental bids for wheat at from \$24 to \$40 per quarter over yesterday's bid prices. Bradstreet's statement to cause a revulsion of feeling, there was nothing in the world's visible statement to cause a revulsion of feeling, but the crowd had loaded up under the expectation of something still more buillish than they had yet received, buyers of December wheat at from 62 1-Sc to 623-8c, whereas yesterday at the close 615-8c was the trading figure. It was soon

d at 22c. excellent demand and strong prices An excellent demand and strong prices for hogs at the yards held provisions steady. September pork opened 5c higher at \$8.60 and advanced to \$8.55 sellers, the closing price. December lard started 2½c better at \$4.95, rose to \$4.97½, declined to \$4.92½ and closed at \$4.95. December ribs began 5c up at \$4.80, rose to \$4.87½ and closed at \$4.95.

Estimated receipts for tomorrow: Wheat, 200 cars; corn, 550 cars; oats, 300 cars; hogs, \$6.000 head.

The leading futures ranged as follows:

San Francisco Mining Quotations. SAN FRANCISCO, Sept. 13.—The official desing quotations for mining stocks today

with the Indiana Gas company had been adjusted.

Severe depression in some of the specialties, notably Brooklyn Transit, Manhattan, Minnesota Iron and Consolidated Gas, checked the upward movement. The bears sold the list freely and their confidence was justified by the renewal of liquidation induced by the decline of prices. There was stubborn resistance to the decline in some of the railroad stocks, but prices generally fell below yesterdays low point and duliness intervened. The market was one of specialties during the greater part of the day and some sharp declines were shown by quite a number. Wool Market.

BOSTON, Sept. 13.—The last week has shown considerable duliness in the wool market here. The dealings in territory wools show small sales at ruling prices, while the same is noted in the sale of fleeces. Australian wools are held strong, but sales are almost nil. New York Dry Goods Market.

NEW YORK, Sept. 12.—There was a fair amount of trading today in nearly all lines of dry goods. Huyers in town are numerous, although individual takings were not heavy. There was the usual Tuesday's records for mail orders. The operators in print cloths were not heavy. Buyers have apparently satisfied their pressing needs. The strong position of sellers kept buyers from operating in some degree. Converters are not now heavy operators in the market. Coarse colored cottons showed generally poor results. In kid-finished cambrics, and in fact in all grades of linings, the market was quiet.

CATTLE—Today's cattle receipts were small, as compared with a week ago, in fact, for the two days this week there has been quite a falling off, as compared with the corresponding two days of last week, as will be noted from the table of receipts. The market, as a whole, was in very satisfactory condition as regards the selling interests. The buyers of all kinds seemed to want supplies and everything was sold in good season. want supplies and everything was sold in good season.

The supply of fat cattle consisted almost entirely of grass westerns, which sold at just about the same prices as were paid yesterday. The market was reasonably active, the only drawback being that the offerings were all of one kind. There were not enough corn fads to make the state of the not enough corn feds to make a test of the

market, only a few scattering loads being offered for sale. It would be safe, however, to quote the market as fully steady. Buyers were reporting their western cattle as costing them 10% 15c more than the low time last week. Good feeders were in active demand at

SHEEP—There was a fair run of both mutton and feeding sheep today. Advices from all other selling points were easier and the feeling here was weak. The sheep market has been gradually working lower though moderate receipts have tended to hold up prices at this point. Two cars of Montana sheep, mixed ewes and wethers, averaging 113 pounds, sold at \$3.80. A good many of the sheep were wet from the storm yesterday and last night, and buyers were in consequence in no hurry to fill orders, which made the market a little late.

Choice native muttons are selling largely at \$4.3064.40; good grass westerns, \$4.0064.10; fair to good, \$3.2064.00; good yearlings, \$4.1564.25; good to choice lambs, \$5.0065.15; fair to good lambs, \$4.9065.00; feeder wethers, 2-year-olds and over, \$3.7564.00; feeder yearlings, \$4.0094.15, and feeder lambs, \$4.2564.55.
