Good Cash Wheat Business for Export Improves Price of Futures.

FOREIGN CABLES HAVE A CHEERFUL TONE

September 5-8 of Cent Higher, Corn Off 1-4 Cent, Oats Unchanged and Pork and Ribs Gain During Lay.

CHICAGO, Sept. 13.-An excellent cash wheat business for export today was the basis for improvement in the price of futures. September could 5-8c higher and December rose 1925-8c. Corn lost 1-82/4c.

Outs are unchanged to 1-8c up. Pork and ribs improved 10c and tard 25c. Liverpool was again in full sympathy with Chicago, reporting 11-8d advance in Soptember wheat and 1d in December before trading commenced here. There was no comforting item to the bears who were short on wheat here, Duluth receipts-1,423 cars-being known before the opening. Those who built hopes of lower prices on that, however, were overcome with disap-pointment wasn they found at the start buyers of December wheat at from 621to 62 3-8c, whereas vosterday at the close 61 5-Sc was the trading figure. It was soon oliscovered that in order to make the big showing of receipts at Duluth, it had been necessary to rob Manneapoils of its due proportion, the latter place getting only \$22 cars. Not long after the opening it was seen that notwithstanding the heavy re-ceipts in the northwest, the competition among buyers to secure them was such that they were required to proceed among buyers to secure them was such that they were paying le over the price current, there at the close last night. That showing of the supreme néed of wheat for immediate use obliterated for a time all show of beariest teniency in the speculative crowd here and added to the opening advance. Chichgo received 357 cars of wheat against 377 cars a year ago and the western primary market receipts all told were 1.92.000 bushels, against 1.726,900 bushels the corresponding day the year before. Liverpool made further gains and in the end was from 13-2612d higher than it closed yesterday. New York reported numerous acceptances of last night's cabled offer and during the foreneon put the export takings at forty-five boat loads. It will be seen from the foregoing that there was much cause for firmness in the market and it was firm. December started 1464% up at from 62e to 621-8c; rose to

there was much cause for armness in the market and it was farm. December started 1970 to 02 3-896256, reacted to 62 1-8c; rose to 62 3-866256, reacted to 62 1-8c; and then worked gradually up again until it was wanted for a brief space at 62 3-896250. Bradstreet's made the world's visible supply for the week 1,215,000 bushels smaller than it was a week ago. The oles fances at Atlantic and Gulf ports were very heavy and the total in wheat and flour was equal to 86,000 bushels. New York reported continental bids for wheat at from 3d to 4d per quarter over yesterday's bid prices. Bradstreet's statement was received at about the turning point of the builsh feeling. There was nothing in the world's visible statement to cause a revulsion of feeling, but the crowd had loaded up under the expectation of somthing still more buillish than they had yet received, and their need for somsthirg more to keep them screwed up to the loaded up under the expectation of somthing still more builish than they had yet
received, and their need for somsthirg
more to keep them screwed up to the
sticking point not being forthcoming, they
forthwith started to realize what profits
they could on early purchases, and in
doing so tumbled becember wheat back to
62c. New York near the end reported the
day's export trade at 160 boatloads, but it
came too late to affect trading much, and
62 1-8/6624c for December was the current
price at the close. September opened 5-80;
40 higher at 64/664 I-Sc, advanced to 64/5c
and sold off to 6/c, the closing figure.
Corn was strong carly with wheat, but
had a sudden colleges near the end that
conveyed 4/c udvance to nearly that much
decline. Offering of September did the
business for the futures. December opened
1-8c higher at 201-8c, advanced to 304/6
207-8c buyers.

The buying of September by shorts on
account of the small contract stocks
strengthened oats. The tone of the market
was helped somewhat by the strength of
wheat. May opened 1-8c up at 226/221-8c,
advanced to 22/4c, weakened to 217-8c and
closed at 22c.

An excellent demand and strong prices

An excellent demand and strong prices for hogs at the yards held provisions steady. September pork opened 5c higher at \$3.50 and advanced to \$8.65 sellers, the closing price. December lard started big better at \$4.35, rose to \$4.9715, declined to \$4.9215, and closed at \$4.95. December ribs

closed at \$4.95.

NEW YORK, Sept. 13.—Special cable and telegraphic dispatches to Bradstreet's indi-cate the following changes in available

The swelling tide of the wheat movement in this country it will be seen contrasts sharply with the rather indifferent movement in European supplies. In this country large gains at nearly all important points are a feature, and a few important decreases are reported. Among the more important increases, as given by Bradstreet's, not reported in the official visible supply statement, are the gains of 221,000 bu. at Galveston, 90,900 bu. at Louisville, 85,000 bu. at Manitoba storage points, 56,000 bu. at monthwestern interior elevators.

The total stock of wheat held at Portland, Ore, and Tacoma and Seattle, Wash, shows an increase of 167,000 bu. over last week.

New York Dry Goods Market.

NEW YORK, Sept. 13.—There was a fair amount of trading today in nearly all lines of dry goods. Buyers in town are numerous, although individual takings were not heavy. There was the usual Tuesday's records for mail orders. The operations in print cloths were not heavy. Buyers have apparently satisfied their pressing needs. The strong position of sellers kept buyers from operating in some degree. Converters are not now heavy operators in the market. Coarse colored cottons showed generally poor results. In kid-finished cambrics, and in fact in all grades of linings, the market was quiet.

NEW ORLEANS, Sept. 13.—SUGAR—No open kettle; centrifuzzal strong position of colors for a Tuesday were very light, which is due undoubtedly to the rains which have prevailed in many localities and which would naturally keep farmers from bringing in their hogs. Representative sales:

193 SHEEP-There wes a fair run of both mutton and feeding sheep today. Advices from all other selling points were easier and the feeling here was weak. The sheep and the feeling here was weak. The sheep market has been gradually working lower though moderate receipts have tended to hold up prices at this point. Two cars of Montana sheep, mixed ewes and wethers, averaging 113 pounds, sold at \$2.50. A good many of the sheep were wet from the storm yesterday and last night, and buyers were in consequence in no hurry to fill orders, which made the market a little late.

Weyler Winces and Becomes Violent and Protests Against Insults Being Heaped Upon the Army omeers.

MADRID, Sept. 13 .- There was another up-

roarious session of the Senate today. Count

Almenas, referring to his statement yesterday giving the names of the generals he recently said ought to have their sashes tied around their necks instead of around their waists, naming Weyler, Blanco and Prime de Rivera, after which he also included Admiral Cervera in the category, said General Linares was incompetent and ought to be arraigned. Thereupon General Weyler and others loudly protested against these charges and General Weyler called on Count Almenas to

name those generals who were accused of falling to do their duty, and he added, if the accusations were true and the culprits would take the matter in their own hands

restore order, and broke his bell in attempt-

country. We were attacked when acting as honest men would. We defended ourselves. I have lost my prestige, but it is because I believe the path I am following is the best."

Weyler Grows Violent.

General Weyler then made a speech of great violence, which provoked such an outburst that the premier had to intervene and called upon the general to explain his policy. General Weyler replied that he had not threatened the government institutions, but only those who had attacked the army.

The minister for war, General Correa, said the government alone was responsible. The duke of Tetuan, the former minister for foreign affairs, defended Senor Canovas del Castillo, whereupon Senor Gonzales made another attack upon the deceased premier, declaring the latter had foreseen the loss of Cuba and had planned with Senor Sagasta to sign the surrender. The loss of Cuba, Senor Gonzales continued, was a just punishment for those who failed to profit by the doctrine that the colonies should not be governed by oppression. The senate then
