Three members of the peace com Secretary Day, Senator Davis mission, and Whitelaw Reid, were in conference for two hours at the State department today. Senator Frye, it was stated, would arrive tomorrow morning and join in the conferences of the commissioners. The plans of Senator Gray, the fifth member of the commission, are not exactly known, although he, too, is expected to join his associates in their conference tomorrow. The president will give a dinner at the White House tomorrow night, at which the commissioners will be the principal guests, all the members of the cabinet in the city being present. It is stated positively that the dinner will be purely of a social character, and that the reports that it will serve the purpose of a full and final discussion of the Philippine question are unwarranted. The commissioners will

leave here Friday in order to take the Campania on Saturday.

The meeting at Secretary Day's office today was for the purpose of going over the whole question of the peace settlement. It is the first time Mr. Reid had exchanged views with his colleagues on the subject The same rigid reticence which has thus far prevailed continues to be observed, and

as the commissioners came from their two hours' meeting they positively declined to discuss any questions relating to the commission. Leading members stated positively that all reports relative to the instruction

of the commissioners, or the attitude of the United States, were purely conjectural. I is pointed out that the interests of this country might be seriously prejudiced if its

the mouth of a miserable slanderer." Count Almenas was endeavoring to reply when Senor Sagasta read the decree, proroguing the Cortes. Count d'Almenas and General Rivera separated, approached the president in a hostile manner and a duel is expected.

Premier Sagasta afterward read the decree in the Chamber of Deputies. It is expected that the Spanish peace commissioners will be appointed without delay.

> A painful impression has been caused here a statement made by the Pais, saying the United States intends to demand \$20,-000,000 indemnity in behalf of the American citizens who have suffered through the insurrection in Cuba. The Spanish peace commissioners will strongly oppose this, it is claimed, but fears prevail that the United States will become pitiless and press its advantage to the utmost.
