from Baltimore. BOSTON, Sept. 26.—The Bostons won both tames today from Brooklyn, the first be Connect and the first be C hard hitting and the second by three bases on balls and Tenney's two bagger. There was never doubt as to the first game, but in the second Stahl fell on his face in attempting to field an easy ball in the second inning and two runs came in. This made the game exciting until the Brooklyns' end of the seventh, when darkness put an end to the play. Attendance 3,500. Score, first game:

Omcers of the League of American Wheelmen are here. They say that the order of suspension against Baild and others will be lifted upon payment of \$10 each. They are confident that some set-tlement will be reached before the races start today. Gardiner and others say they are out of the League of American Wheelmen for good and that the American Racing Cywhich contains twelve strands of nickel and copper wire and is covered with an insulated netting, is unwound from a reel attached to a derrick-like wagon, which in a few days will be supplanted by a twohorse power dynamo.

League of American Wheelmen for good and that the American Racing Cy-clists' union will be a permanent organiza-tion. The Interstate Fair association this afternoon paid the fines of racing men sus-pended by the League of American Wheel-men and the races will now go on under League of American Wheelmen auspices. The trouble between the League of Ameri-can Wheelmen and the men will therefore be a matter for future adjustment. In paying the fines of the racing men the Fair association was actuated by a desire to prevent the possibility of the League of American Wheelmen placing the track on the black list. The bleycle races were started at the fair grounds this afternoon, but rain interfered. The first and second heats of the five mile, professional, were run off and the first and second heats of the one-third mile, New Jersey amateur championship. If the consent of the League of American Wheelmen is obtained, and this is confidently expected, the races started today will be finished tomorrow morning and some of the others on today's program. Yesterday when the balloon was at its greatest height Captain Yancey telegraphed and telephoned to the officer on the ground who had charge of the instruments and carried on a conversation. The basket attached to the balloon carries a complete set of telegraph instruments and a head 'phone and transmitter.
