Weakness of Cash Wheat Affects Futures and December Loses a Cent.

RECEIPTS AND RESELLING AGAINST PRICE

Corn and Oats Decline and the Provision Market, After Weak Opening, Closes Steady and Higher.

CHICAGO, Sept. 29 .- A break of 34c took place in September wheat today. The weakness in the cash article affected futures, December closing at la decline Weak outside cash markets, heavy primary receipts and reselling of wheat here by New York all counted against the price Corn declined 3 -8@15c and oats 1403-8c Provisions were weak early, but closed

Etcady at small advances. The opening in wheat rather indicated a bull market, although it was difficult to find any explanation of the apparent decline among traders beyond the fact that |\$1 Liverpool did not show the decline naturally looked for after yesterday's break There were numerous fair-sized buying orders at the start, with a scarcity of offerings, the result being that December opened at 63% 5763 7-Sc, yesterday's closing price, with 64c offered almost immediately. But the tone of the market soon changed. Northwest receipts were liberal, Minneap-Northwest receipts were liberal, Minneap-olls and Duluth reporting 1,190 cars, com-pared with 531 last week and 1,915 a year ago. Chicago receipts were 208 cars, con-miderably overrunning estimates. Of this number nineteen were of contract grade. Receivers said the country was responding more readily to bids and Indications fa-vored a freer movement of wheat. This sort of news weakened the confidence of buyers and resulted in a corresponding insort of news weakened the confidence of buyers and resulted in a corresponding in-crease of prices, under which prices de-clined. December getting down to 63½c about an hour from the start. In the meantime September had begun to show radical weakness. Cash demand was re-ported poor and primary receipts 1,659,600 bu, wheat, were 400,000 bu, larger than a year ago. This was partly offset by heavy blearances, which were put at 925,000 bu, and complaints of the Russian wheat yield. But extreme weakness of outside cash markets, notably New York, and attempts by deal-ors in that city to resell wheat recently notably New York, and attempts by dealers in that city to resell wheat recently bought here, but not yet shipped, started liquidation that brought the price down with a rush, all classes of sellers came into the market, the rapidity of the decline bringing out stop orders both in September and December. The latter option had railled to 63%c on the heavy clearances, but the selling which the slump in September started brought the price down to 63c. The market grew very heavy toward the close. Selling pressure was removed in a degree. ling pressure was removed in a degree the weak cash situation was very et

but the weak cash situation was very effectual in keeping buyers away, and prices kept declining to the end. At the close December was bringing 623,6627-8c, practically bottom figures for the day. September showed at one time a break of 3½c, selling down to 64½c from 68c, the opening price. It closed at 65c,

Corn was weak all day, liquidation mostly from elevator people and receivers keeping prices on the down grade. Cash inquiry was fair, but not much business was done. Receipts were liberal—785 cars. Seaboard reported thirty-eight loads for export. The market was weakest in the afternoon when sympathy with wheat caused general selling. December ranged from 297-8c to 293-8c and closed 3-864c lower at 293-8c.

ing. December ranged from 29.7-8c to 29.3-8c and closed 3-8@4c lower at 29.3-8c.

The market for oats was easy, prices being influenced by wheat and corn. September holders sold September and bought December in limited quantities. Trade as a whole was light. Receipts were 385 cars. Clearances were light. May ranged from 22.7-8c to 22½c and closed 4/43-8c lower at 22.5-8.

Provisions, in view of the weakness of the grain markets, were surprisingly steady. Liberal hog receipts caused slightly lower prices at the opening. There was more or less short selling in expectation that the break in grain would affect prices, but all offerings were taken and the steadiness the market displayed caused general covering later. At the close January lard 1½c higher at \$4.99 and January ribs unchanged at \$4.725.

Estimated receipts Friday: Wheat, 315 cars; corn, 840 cars; oats, 425 cars; hogs, 25.600 head.

in the street put them to rout and large lines were covered. Prominent interests were ranged on the long side for a while and the sentiment became more cheerful.

Call meney rates sagged to 2½ per cent late in the day. The action of the government in anticipating the November interest, coupled with the early receipt of a large amount of gold in transit, were responsible for the decline in rates. Time money was also quotably easier for the shorter periods and some prime mercantile paper was discounted at 3½ per cent. Considerable pressure was concentrated against Sugar as the day drew to a close, but the stock soon recovered and ended firm in common with the remainder of the list, which established slight net gains. Bonds ruled fairly active but irregular. Total sales, \$1,983,093. Government bonds were a trifle easier, the 3s reacting 1-8 per cent.

The Evening Post's London financial cablegram says: There was a betier tone in the stock markets here today, especially in earlier hours, the chief feature being a rise in mining shares. The close was under the best in the Paris bourse, which was a trifle lower on the approach of the settlements of option day tomorrow. Americans were comparatively neglected during the day, but they closed better on New York support. Canadian Paclic was weak on the monthly statement. Argentines and Brazils were especially strong, as were also copper shares. BOSTON, Sept. 29.—The American Wool and Cotton Reporter says:
So far as local trading is concerned, the market shows no change worthy of mention. The money market is favorable and prices of wool are well maintained. We do not hear of any striking concessions. There seems to be nothing for any one to do except wait for developments.

In the matter of exporting wool our dealers feel that there is possibly room for considerable activity. The wools that are being experted are of course wools in bond on which the duty has not been paid. These are mostly direct importations from Australia, although they include some wools bought at the London sales months ago.

Wool Market.

Choice they called the trade strong, and there were cases where cattle carried over brought more money than was offered yesterday. At the same time it was rather hard work to unload some of the arrivals, not because of any difference in values, but on account of the accumulation of cattle having made buyers a little cautious. As values are considerably lower than a week ago it would seem to be a good time for the country to buy. Moreover, the offerings being large, buyers would stand a very good chance of securing just the kind wanted. Representative sales:

LONDON, Sept. 29.—WOOL—The catalogues offered at the wool auction sales today were of a good quality and consisted of 15,120 bales. The offerings included a good selection of merines, principally Queensland, which ruled firm to slightly below the highest price secured at this series and were largely taken by the continental buyers. Fine cross-breds showed a hardening tendency. Cape of Good Hope and Natal greasy stock was often withdrawn on account of the seller's price not

NEW YORK, Sept. 29.—The market for dry goods was a quiet one today. There was little or no store trading at first hands and few buyers in the city. Mail orders were also light in nearly all divisions of the market. The week has not railled from the conditions resulting from the celebration of the Jewish holiday of Monday. There were some changes in the market, but they were not of vital importance. Thus in the division of woolens and worsteds for men's wear there was slightly more activity in more lines due to the arrival in the market of large manufacturers of clothing who needed to replenish the stocks behind their machines. But their operations have been by no means heavy. In direct contradiction to this the market for dress goods continues uniformly slow in all grades, even the more staple lines being utterly without feature. In cottons there is equally as much dulness. Print cloths were quoted at 2c for extras. New York Dry Goods Market.

At the opening the bear influences seemed to be in the ascendency and buyers' bids were generally a little easier. In other words, the market opened weak. It did not long remain in that condition, however, as buy-ers all wanted hogs and the trade soon became active and the market closed strong. Taking the market as a whole it was just about steady with yesterday. The hogs sold at \$3.60@3.72½, with the long string at \$3.62½@3.65, the same as yesterday. It will be noted from the table of average

prices of head of column that the market is now just about 10c lower than it was one week ago. The decline in values this week is doubtless responsible for the moderate receipts today, the run a week ago having been 6.122 and two weeks ago 13.077. Representative sales: Av. Sh. I 376 120 \$3

Artilleryman Killed. PITTSBURG, Sept. 29 .- John Kirsch, a member of Battery D. United States artillery and a former resident of Pittsburg, but lately residing at Anderson, ground to pieces tonight by a train at Mc-Keesport. Kirsch had been arrested by a railroad officer for trying to steal a ride. The officer had handcuffed the soldier and they stood on the platform to let a swiftly passing train pass. Kirsch made a dash for the handrail of one of the cars and succeeded in catching it, but struck a tele-

Omaha Firm Extends Circuit. KANSAS CITY, Sept. 29 .- The Auditorium, one of the finest play houses in the west is to be rebuilt at an early date and run as a popular price house. Colonel J. M. Wood of Chicago arrived here today with plans for the new building, which will be rebuilt at the instigation of Alex Fraser, its manager,

and leased to Burgess & Woodward, the Omaha theatrical firm. South Dakota News Notes. Codington county farmers last week sold to Iowa feeders cattle valued at \$10,000. A horse got stuck on a railroad trestle

at Deadwood and delayed all trains several The highest peak of old Ragged Top has been leased for mining purposes and the claim will be worked at once. A creamery established in Scott county last fall has already paid \$10,000 profit in dividends. The plant cost \$5,000. South Dakota farm lands are so much in demand that persons with desirable prop-erty for sale are not compelled to advertise

the fact in order to secure the best prices. The small grain yield around Parkston

is so large that the farmers have no facili-ties for caring for the crop. Where they figured on twenty acres of wheat they secured forty. A Sioux Falls citizen last fall planted strawberry seed and is now eating berries raised from these seed. This is an unusual thing, but the fact is vouched for by many

citizens of that town. One of the Burlington's new locomotives was derailed at Deadwood, and before the 265,000 pounds of steel were again placed on the track nearly all the machinery for that An Iroquois citizen invested \$650 in sheep lambs left, which are worth \$2.75 each, and

can sell his flock for \$1,000 easily. THE REALTY MARKET.
