Popocratic Bookkeeping and the Logical Sequence Thereof.

IMPUDENT HUMBUGGERY IS EXPOSED

Transactions in State Warrants and School Funds Made to Appear as Evidences of Their Wonderful Economy.

LINCOLN, Sept. 30 .- (Special.) - The popocratic officials have evolved a new financial theory in state affairs whereby they are enabled to make another claim of "saving money for the state." They have used buying up general warrants and according his person. He was fined \$5 and costs and to their method of figuring they have just having paid it continued his tour. saved that much. The way of putting it before the voters is to say that the warrants when presented at the treasury have been time. The intent of the scheme is to befog nominal cost. the voters and induce them to believe that the general fund warrants are paid off and disposed of and that the state has gained \$291,697.09 by the deal. The part they neglect to explain is that the same warrants the school fund for its investment. According to the popocratic school of math- | with other colleges. ematics when these warrants are finally paid for from the general fund next year the general fund will be depleted to the extent of \$291,697.09 and the state will have lost that amount. It is the same system of double and quadruple cutry bookkeep- cration it was decided that the requesting that enables Porter and Cornell to print could not be granted, as he had already

But perhaps the most remarkable financial statement of all is the one put forth by Secretary Porter in which he claims the republicans have lost so many hundreds of thousands of dollars "because they failed to have the new fee law on the statute books furling the past twenty years." Probably before the campaign is over he will issue cards showing the amount of money that has been lost because the Indians did not erect the capitol building and have it ready for occupancy when the white settlers first came to Nebraska, or because a silver mine has not been discovered on a piece of school land from which ready coined dollars might be dug in sufficient quantities to pay the state expenses every year. On such a ridiculous theory as that put forth by Porter in very big stretch of imagination to figure out the money the popocratic officials have lost to the state because they have falled rants." or because they have not converted the milky way into elecmargarine for the use of the state institutions.

have "saved."

Paying Delinquent Taxes.

In searching the records for matter bearing on the recent statement made by Treasof the state will nexer be paid in, nothing is found except figures to show the utter falsity of the statement. Custer county is taken as a fair sample of the middle western counties. This county is a county that has been ruled by the populists for many years and therefore no change of local administration could affect the collection of taxes. Yet the records show that in 1897, 25 per cent of the taxes collected were from the list that had been delinquent for more than a year and was in the "worthless" class mentioned by Meserve. In 1896 only 16 per cent of the amount of the collections was from this class, showin the payments of back taxes during the prosperity period. The Custer county figures for the two years are as follows:

Total tax paid state....\$11,327.61 \$9,795.69 Thus it will be seen that the old delinquent list in Custer county is a very valuable cash asset, as it means that during the year 1897 the treasurer of that county collected fully \$4,425, and in 1896 fully \$2,500 from this so-called "worthless list," not ing before Judge Hannibal, who, however, counting the interest collected on the same. Further investigations show that Red Willow county, the home of Treasurer Meserve. for that length of time. In addition the in 1897 more than 25 per cent of the taxes collected was from the "worthless list." and in 1896 20 per cent of it was from the same

These figures from Red Willow relating to the money received from the school lands either sustain the republican prosperity argument, or else they disprove Meserve's claim of being a great financier. The comparison of the two years is as follows:

 School land principal
 1897.
 1896.

 Interest

 1,517.00

 Lease

 1,313.04

of 1897, and these figures are the more sig- and the ceremony was impressive. Sergeant nificant when it is remembered that Meserve was himself treasurer of Red Willow county in 1895 and 1896, and that he was the officer charged with the collection of taxes and school land monies. In 1895 he seems to have been a very poor collector indeed, as he only turned over to the state treasurer for that year \$825.96 school land interest money, and \$788.87 lease money. Perhaps Mr. Meserve can explain in his numerous speeches why so much more tax and school land money was collected in 1897 than in 1895-6. and if the amounts received from the interest and lease of school lands in 1895 were larger than the figures shown on the record; perhaps he can explain why the other part of the money did not reach the state treasurer. There are several horns to the di-1emma. The increase in payments is due to prosperity, or Mr. Meserve was a very poor financier as treasurer of Red Willow, or else there is something wrong with the statements he filed with the auditor in 1895

Holcomb Has the Election. from Secretary Meiklejohn a letter relating noted from the governor's statement that there are now from Nebraska 721 soldiers in the service in excess of one-haif of the full number furnished by the state under the two calls and that this excess would be a little less than two battalions. The speakers of the day and talion from each of the two regiments would impair the efficiency of two regiments. On this account the president had decided to muster out one of the Nebraska regiments, the designation to be made by the governor, and he requested an early notification, so that he might indicate an other regiment to take the place of the one mustered out. Brown Worries Greene. KEARNEY, Neb., Sept. 30 .- (Special.) --The Buffalo county fair closed yesterday and Harms, the attractive feature of the day was the joint debate between Congressman Greene, the populist candidate, and Norris Brown. republican candidate for congress. There was a good crowd in attendance, representand got the fight of his life on his hands. The debate was looked forward to with beet. Mr. Brown, however, more than satisfied his friends and even the most pronounced populists agree that Mr. Greene regard to the fee law, it does not take such has found his equal so far as abilities are concerned.

From first to last Mr. Greene was put on the defensive and when justly accused by to pull the moon down to the earth and Mr. Brown of absenting himself or refusing trade the green cheese for "premium war- to vote on some of the most important measures before congress he tried to excuse himself by referring to them as of minor importance and said that "everything rests

on the currency problem." In his last fifteen minutes Mr. Greens was visibly rattled and could evidently urere Meserve that the delinquent taxes see that the audience was not in sympathy with him, so he got quite wrathy and resorted more to his old-time tecties of netty. fogging and browbeating than to straight clear-cut argument.

The debate was of great value to the republicans here, as it has shown up populist weakness and confirmed the republicans in the belief that Greene was getting the worst of it wherever they go.

ST. PAUL, Neb., Sept. 30 .- (Special.)-Quite a sensational case was brought vesterday before County Judge Hannibal of this county. It appears that some time ago an indictment for embezzlement was found in Pottawattamie county, Iowa, against one W. M. Farrington of Council Bluffs, who fled. An extradition warrant was granted by Governor Holcomb of Nebraska and Sheriff John S. Morgan of stopped by a writ of habeas corpus issued by County Judge Hannibal, ordering him to bring the prisoner before his court, instead of proceeding to Council Bluffs. trial Stocks-Tobacco a Feature. NEW YORK, Sept. 30.-Bradstreet's Financial Review tomorrow will say: Attention has again been centered upon

the industrial stocks, a heavy decline American Tobacco being the disturbing fac-tor in the week's speculation.

Money has ceased to be a cource of anx-iety, the arrival of gold from Europe and the fact that the treasury disbursements are

and call loans. While the European mar-kets showed symptoms of alarm over the po-litical outlook in France, in China and in Egypt, Lendon has nevertheless been on the whole a buyer of Americans, particularly of the Pacific railroad stocks. Exchange was the Pacine railroad stocks. Exchange was stronger early in the week, but though fur-ther large gold engagements are announced over \$500,000 specie was taken in London during the week for American account, and stronger early in the week, but though further large gold engagements are announced over \$500,000 specie was taken in London during the week for American account, and there are also rumors of gold shipments from Australia to San Francisco.

The only positively unfavorable developments in the situation are that the August net earnings of cerain railroads make an unfavorable comparison with their figures the year before, when wheat was moving freely to market under the stimulus of high prices, and the alleged uncertainty caused by the approaching elections for a new constant of the stimulus of the stimulus of the stimulus of high prices, and the alleged uncertainty caused by the approaching elections for a new constant of the stimulus of the stimulus of the stimulus of high prices, and the alleged uncertainty caused by the approaching elections for a new constant of the stimulus of high prices, and the alleged uncertainty caused by the approaching elections for a new constant of the stimulus o

by the approaching elections for a new congress, before which the currency question might be the subject of agitation. All of seventeen in Canada, against thirty-four these matters have for the greater part of the last week been subordinate to the fact that Tobacco stock has had a violent break from 148 to 125 in the face of practical com-

piction of the plan for a union of the leading manufacturers, in which the American Tobacco company is an interested party. Sugar has at times rivaled Tobacco in weakness, if not in activity, and other indus-trials sold off to an extent which gave support to the idea that a large manipulative interest, which has made a bull campaign in that group, had concluded that their spec-

ulative possibilities were exhausted.
While money showed increasing ease the severe decline in the leading industrials naturally occasioned some temporary unset-tling of loans. This as much as anything else influenced speculation in railroad shares and checked public activity. In fact, it might be said that the trading for the week has been in an unusual degree professional in character. Thursday a rally set in, which checked the gradual decline, its progress being facilitated by the covering of the short interest the decline had caused to On Friday the market was accumulate. common and Union Pacific, both of which were the objects of extensive foreign purchases. Sixth District Congressional Convention Meets at Broben Bow and

Succumbs to Populism.

BROKEN BOW, Neb., Sept. 30.—(Special Telegram.)-The democratic congressional convention of the Sixth district was held here this afternoon and Greene's program was carried out, but not without strong opposition. The test vote was on the election of a temporary chairman. The Greene followers nominated Robert Oberfelder of Sidney and the anti-Greene crowd placed in nomination H. F. McGlothin of Kearney. The ballot resulted 25 to 23 in favor of Oberfelder. The opposition to Greene had the most men present, but Greene had secured representation of the largest vote. Rod. Smith, Greene's private secretary, was on | the ground and also John G. Maher, to help Greene out. The Buffalo county delegation was headed by Whedon, editor of the Kearney Democrat.
