WHEAT GOES A CENT AND A FOURTH LOWER

Pork, Lard and Ribs After a Profitable Session Decline Ten Cents. -War Scare is Abating.

CHICAGO, Oct. 21.-Though the disappearance of the European war scare was ostensible leading influence in wheat today, the action of the market here indicated that the trade had been pretty well water-logged by the enormous quantities sold during the last few days. Prices slumped sharply near the end. December wheat closed like lower, corn lost 1911 1-5c, onts declined like and pork, hard and ribs each left off loc lower.

The disappearance of the European war

rumors and cable advices that the continental markets were entirely indifferent to the excitement raised yesterday caused oncession in the inflated prices of wheat here at the opening. English consols had dso recovered yesterday's decline and also recovered yesterday's decline and wheat at Liverpool closed 11-88124 lower than last night. With such an array of conditions confronting them even the most radical buils considered it prudent to at least wait for a reaction in prices. The fact that the northwest receipts amounted to Line carboning day last year, and the total primary market arrivals were liberal, did not increase the buils' courage. Nevthe corresponding day last year, and the total primary market arrivals were liberal, did not increase the bulls' courage. Nevertheless, the scaboard reported export business early and had the total up to seventy boatloads long before noon. In addition to that there were sales here of 2,000 but cash wheat at the lower level of prices and the northwest weather news was disquisting on account of the serious damage to the crop in Manitoba. Export clearings from the Atlantic ports were equal to 521,000 but, and Chicago receipts only amounted to 237 cars, against 247 for the same day last week. Frimary receipts were 1,355,365 but, against 1,91,000 but a year ago, and the third was counting on an increase of 1,500,000 but, for the week in the visible supply. There was a good general trade and it was under those conditions that December wheat, which opened 2,51c lower at 6.52 c. ranged between 66.7-8c to 674c during the forenoon, with the price most of the time at 674c. As the session neared the close it was evident that the offerings of the last two days were more than the market could absorb and December sold off to 86.5-8c and closed at 654c.

Better weather, lower cables and a disappearance of the Nile incident counted against corn at the start. There was generous selling of long corn by large interests and despite heavy covering by shorts there was quite a backset in prices. Kanses of the start was evident that acceptances of round lots of cash corn there by foreign buyers, but that was ignored entirely and prices were hammered down and the market closed weak near the bottom. December opened 2,675-8c lower at 32,6734c, declined to 31½c and closed at 31,40315-8c, sollers.

Oats weakened with the other grain market closed weak near the bottom. December opened 2,675-8c lower at 32,6734c, declined to 31½c and closed at 31,40315-8c, sollers.

kets and on influential selling both to take profits and for the short account. May be-gan 1-50'1c lower at 244@24 3-8c, declined to 23 7-8c, then rallied to 24c, the closing Earge receipts of hogs everywhere, the

Large receipts of hogs everywhere, the weakness in grains and liberal sales by English houses, especially of lard, unfavorably affected provisions. Nevertheless the market absorbed the offerings better than was the case in the grains and the price did not suffer so badly. A weak turn in the grain market at the close sent the provision market down to the lowest figure of the session. January pork opened 2½c down at \$9.29, advanced to \$9.30, then dropped to \$9.22½, buyers, at the close, January lard began 5c lower at \$5.12½ and held steady at that figure; January pibs started 5c off at \$4.82½ and sold off to \$4.77½, buyers, at the close. Estimated receipts for tomorrow. Wheat, 200 cars; corn, 400 cars; oats, 190 cars; hogs, 20 cars; corn, 400 cars; oats, 120 cars; hogs,

OPERATIONS IN STOCKS AND BONDS.

Foreign Political Reports Cause Recovery in Government Securities. NEW YORK, Oct. 21.—The motor nerve of the world's markets was touched today by the reported orders of the government of France to Major Marchand to retire from Fashoda. There was a prompt recovery in government securities in London and Paris and incorporate stocks at all foreign war-

For the same reason there was a weakening in the wheat markets of the world including Liverpool. New York, Chicago and
San Francisco. This checked, 'yesterday's
advance in the stock market. But when it
became evident later in the day that there
was good support in the wheat market from
a continued heavy demand for export, in
and of the subsidience of the war scare
and of the subsidience of the war scare
in the subsidience of the war scare
in the subsidience of the subsidience
of rairroad stocks.

The strength was market for
several days. Naturally there was a demand for the stocks of grain-carrying
roads. The strength was manifest not only
in the granger group proper, but also in
the Pacifics, including Northern, Union and
Atchison. The preferred sto k of the latter
road was next to St. Paul, the leader of the
failroads in point of activity and was firm
throughout the day. The absorption of the
stocks of the great eastern trunk lines
was in strong contrast, although according
to a quoted atterance of the chairman of
the New York Central directors, many
companies cannot get cars enough to carry
the freight coming forward, but are cutting
rates and making contracts ahead at figuros below the rate schedule. It is in line
with this view to find the gross earnings of
the Central for September quarter falling
nearly \$60,000 below those for the corresponding quarter last year while the balance available for dividend is 165-100 per
cent, compared with 170-100 per cent last
year, and the surprise of the chairman of
the Lentral for September quarter falling
nearly \$60,000 below those for the corresponding quarter last year while the balance available for dividend is 165-100 per
cent, compared with 170-100 per cent last
year and the support of the corresponding quarter last year while the balance available for dividend is 165-100 per
cent, compared with 170-100 per cent last
year and the support of the support of the correcompared with 170-100 per cent last
year per compared to the support of the correcent compared to the support of the

Foreign + insacial.

LONDON, Oct. 21—The feeling on the stock exchange this afternoon considerably improved. Consols were freely bought in influential quarters, which strengtmened the entire market. It is said that some very good news of great importance had been received. Money, 3 per cent. Discount, short bills, 25-8; discount, three months, 25-63, 7-8. Gold at Lisbon has declined to \$2.00. Bar silver closed armer at 2713-16d per ounce. Gold is quoted at Buenos Ayres today at 149.30. American securities fluctuated after a steady opening and then improved on a more buoyant feel-Foreign | Innacial.

curities fluctuated after a steady opening and then improved on a more buoyant feeling and closed firm.

PARIS, Oct. 21.—Business on the bourse teday opened depressed, owing to the continuation of the report of a possible Anglo-French arrang ment. Nevertheless international securities continued weak. Rio Tintos recovered at the close of the market. DeBeers maing shares were active and improved. The per cent rentes, 101f 71/2c for the account. Exchange on London, 25f 33/2c for checks.

New York Dry Goods Market.

NEW YORK, Oct. 21.—There was a centering of interest today in the dry goods market in print cloth situation. The news from Fall River of the completion of the agreement for the curtailment of output and trustees for the sale of the surplus stocks of the mills has added stability to the general market for cotton goods. There was a generally better feeling in quarters where stapic goods were handled. Buyers in the market today were not prepared to be more liberal in their offers than they have been heretofore. In jobbing stores the business passing was of about an average character. There was little interest manifested by buyers in a local market and the mail orders were light. Silks were strong as a result of the auction sale of yesterday, where better prices prevailed than were expected by some operators. Reports from Fall River are such as tend to make the markets stronger. There are plenty of bids for extras at 2 cents, and so far manufacturers are ready sellers at that quotation. sellers at that quotation.

Cotton Marn recturers' Agreement.

FALL RIVER, Mass., Oct. 21.—A majority of the Fall River cotton manufacturers to-day ratified the pooling agreement and the policy of curtailing production proposed a few days ago. An attempt was made early in the Year, but it failed. The goods which are to be placed in the hands of these trustees are, 24-inch, 46x68; 25-inch, 56x568; 27-inch, 56x568; 27-inch, 6x508, compr sing the bulk of the print cloth goods made here. The mills that do not desire to curtail agree to pay in haif a cent per spindle for every week that they run in excess of the time set for such curtailment. The agreement calls for four weeks' curtailment of production in the next three months. The goods to be pooled include those now made and those to be made in the next five months. Cotton Marn'seturers' Agreement. months.

Coffee Mart et NEW YGRK, Oct. 21.—COFFEE—Options opened steady, with prices unchanged to a points lower; ruled very active, with but little further change, longs and shorts being disposed to liquidate accounts on even terms in the absence of positive new bearings in either direction; weak undertone following unsatisfactory European and Rio cables; closed steady, unchanged to 5 points lower; sales, 50.06 bags; March, \$5.70. Spot. Fig. market dull, easy; No. 7 invoice, \$5. No. 7 jobbing, \$6.c. Mild, steady; Cordova, \$5.10.

the concession and the market was very much inclined toward glowness. Still the hogs findly change hands in good senson. The hogs soid at \$1,000,3,72\(\frac{1}{2}\), as against \$1,507\(\frac{1}{2}\), \$23 \text{ of } \text{ 160 40 40 80 3 721/2 WAT Y LOTS-P'OS.

340 2 00 425 2 00 311 3 45 103 3 66 300 3 60 324 3 6252 SHELP—At the opening of the market this morning there were only four fresh loads in the yards, which looked small, as compared with the large receipts of previous days. The market did not show any very great change, as compared with yesterday, values being just about steady and the demand good.

The market has been in good condition all this week. Owing to the small supply of mutton sheep the tendency of the market has been upward, and it is safe to say that values are 10715c higher than a week ago on the best grades. Mutton lambs were lower during the early part of the week, but there is now a little more firmness manifest in the market, and a right good bunch of lambs today would probably have brought as much as a week 220.

Good feeders and lambs have been in

...402 ....

probably have brought as much as a week ago.

Good feeders and lambs have been in active demand all the week, in spite of the unfavorable weather, which has undoubtedly kept many would-be buyers away from the yards, and values have been well maintained. At the same time there have been a good many common little lambs that were not desirable and a good many old and thin ewes that were rather hard to sell. For that reason the feeding stock has not been kept as well cleared up an during most weeks this fall, but for the most part it has been only the trash that has been carried over from day to day.

Quotations are: Good grass westerns, \$1.00 ft, 25, ft to good 1 kmbs, \$4.00 ft, 25, feat to good grass westerns, \$5.00 ft, 50 good yearlings. \$4.2074.55; good to choice lambs, \$5.1605.30; fair to good lambs, \$4.9095.00; feder wethers, 2-year-olds and over, \$1.5524.00; feeder yearlings, \$4.0074.25, feeder lambs, \$4.0074.25.
