They fell under the hely banner of the free, fighting for humanity, whether in the camp or in the field, or in the nattle line, in the trenches or the forecastle. They gave up their lives for their country's cause. Nor do I forget, standing in this prosence, that rugged old soldier, Colonel Poland (tremendous cheering), and that other rugged soldier, Colonel Haskell (vociferous cheering), gallant commanders of the Seventh infantry (yelling), gave all they had, the best any man hath, his own life, for his country. The brave boys felt at Santiago, making the charge on San Junn hill, at El Caney, at Guantanamo and at Manila. (Tremendous cheering).

My Fellow Citizens: I thank you most sincerciy for your warm and cordial welcome I do not misinterpret its meaning. It means that the people of this community are standing t gether for country and for civilization. The war has made us a united people. We present a spectacle of 75,900,000 or people, representing every race and nationality and section, united in one faith and under one flag, and that, the glorious old stars and strices we love so much, and we must continue to stand together, so long as we have any differences with another nation, and when we have not, then it will be time for us to resume our old disputes at home. But until that time we must stand for a common purpose and stand together un-til the settlements of the war shall be embodied into the permanent form of public treaty. (Applause.) We commenced the war, not for gain or greed of new possessions. We commenced it for freedom and to relieve our neighbors of oppression. (Applause.) And, having accomplished that, we must assume all the responsibilities that justly belong to that war, whatever they may and I am sure that the people of this intry, without regard to party, setting aside all differences and distinctions, will remain together until we shall finally settle the terms of peace, (Great applause.) I recall with peculiar satisfaction this morn-ing, as I look into the faces of my countrymen of Indiana, the promptness with which people responded to the call of the president, after the declaration of war. PRODUCTION OF PRECIOUS METALS.

South Africa Leads in Gold with United States a Close Second. WASHINGTON, Oct. 21 .- The director of

of the precious metals during the calendar year 1897, just submitted to the secretary of the treasury, deals not only with the production of gold and silver in the United States, but in foreign countries as well, and draws a comparison between the production of the leading producing countries of the world. The sources from which information has been derived are the most authentic and reliable, and the figures are as early accurate as it is possible to obtain. The value of gold produced in the United States during the calendar year 1897 was \$57,363,000. The South African republic holds first place, producing gold to the value of \$57,638,881; Australasia, \$55,684,182 and Russia, \$23,245,763. There was a notable increase in the production of gold in the world during 1897 over 1896. The United States increased \$4,275,000; the South African republic made the remarkable gain of in Lee county. He was prominent in the \$13.854,192; Australasia increased \$10,502,240, ounces, a decrease for the United States for Mexico of 8,256,756 fine ounces. The following tables show the production

MARCHAND'S REPORT IN PARIS

French Commander Does Not Trust Important News on British Wires.

ADVICES ON EXPEDITION ARE RATHER TAME

On British Side of Channel it is Said There Will Be No War Over Fashoda-France's Prep-Brations.

PARIS, Oct. 21.-Major Marchands' report, telegraphed from Cairo, was received during the night. It does not mention the arrival at Fashoda of General Kitchener. and only gives an account of the incidents of the expedition and an elaborate description of the route followed, the places occupied, the manner of occupation, the raising of the flag, the force left at each point and the treaties of submission concluded with the tribes, in addition to referring to an encounter with the dervishes.

It is believed in certain quarters that Captain Baratier is the bearer of a verbal report which the French authorities were not willing to trust upon the British telegraph lines.

The report only goes as far as the beginning of September, and says that on August 20, the supplies of the party were abundant. The reason for the omission of any mention of the arrival of General Kitchener at Fashoda is said to be the fact that the report of Major Marchand was not ready when Captain Baratier left Fashoda. When the captain started from that place he did not think he would go beyond Khartoum, but the captain, on arriving at Omdurman found France.

"Excepting its handful of magnificent statesmen and its military heroes," says the most recent writer upon and critic of America, "the people owe more to Dartmouth's "In every walk of life, among the highest

office-holders at the national capital, in the homes of the best pepole in the large cities. among the everyday folks of the country, same time the intention is relterated not to families in comfortable circumstances, famibudge from the position taken up no matter lies that live from hand to mouth, and could not, if they wished, afford the services of any but an ordinary physician-everywhere I have met people to whom Paine's celery compound has been a blessing." It was the world-famed discovery by Prof.

Phelps of an infallible cure for those fearful system and impure blood which has enleared the great doctor to the world, and made his fife an era in the practice of medicine. Prof. Phelps was born in Connecticut and

graduated in medicine at Yale.

most remarkable prescription. Prof. Pheins has given to his profession in Paine's celery compound a positive cure for riceplessness, wasting strength, dyspepsia, biliousness, liver complaint, neuralgia, rheumatism, all nervous diseases and kidney troubles. It is the only specific recognized and prescribed today by the best physicians for diseases arising from a debilitated nervous system. For such complaints Paine's eclery compound succeeds again and again where everything else fails.

No remedy was ever so highly recommended, because none ever accomplishes se

much. Paine's celery compound stands without competition for feeding exhausted nerves and building up the strength of the body. It ills that result from an impaired nervous cures radically and permanently. A healthy increase in appetite and a corresponding gain in weight and good spirits follow the use of Paine's celery compound. It is the most remarkable medical achievement of this last half of the nineteenth century.
