President Maso Indicates to Cubans Their Wiest Future Policy. DESIRES COUNTRY TO BE IN WORKING ORDER Party of Pennsylvania Railway Managers Are in Santiago Projecting a Line Between Cities of Santiago and Havana.

SANTIAGO, Oct. 31.—Senor Bartolome Maso, president of the Cuban provisional administrative council, has issued an address to the delegates now in attendance at the military assembly at Santa Cruz del Sur, in which he reviews the considerations upon which the Cubans solicited the help of the United States and indicates their wisest future policy.

The address in part is as follows: "The Cubans accepted the assistance of the Americans, although not knowing exactly what were the American aims, just as they would have accepted the help of any other country in their fight against Spain. As the contest progressed the Cubans in the field were gratified to hear of the solemn declarations of the United States congress regarding the intentions of the American government...

Expect Recognition of Government. "Therefore the Cubans agreed to cooperate with the Americans, to obey orders of American generals and help in all possible ways to establish a Cuban government when the Americans took possession. Though America did not recognize the government of the Cubans it was well understood that the Cubans would maintain their organization and that the contrary the time would come when such recognition would be granted. Indeed it was asserted to our Cuban representatives by one of the most distinguished members of the United States government and also by the members of the United States senate that in order to do away with any obstacle that might hinder the United States to go into the fight for the case of Cuban independence, recognition of a Cuban government must come later.

General Leonard Wood, commander of the military department of Santiago, returned today on board the United States gunboat Hist from Manzanillo, where he had conferred with Colonel Gentry, military governor of Manzanillo, regarding the administration of the district under the latter's control.

Three meetings recently held in Chicago, Cleveland and Akron resulted in a trust being formed along the lines of the national trust. Twenty-six concerns are included in the combine. The combination is stated as being the most legal trust in the country and it is claimed the trust laws will not be violated. The combine is to be organized as a trust for the entire production of common stoneware in the United States. TECHNICALITIES TANGLED UP Clash Between Federal and State Authorities May Result in More Serious Trouble. CHARLESTON, W. Va., Oct. 31.—A serious clash between state and federal judicial authorities is expected here. Maynard F. Stiles, attorney for Henry C. King of New York, obtained from the United States circuit court here an injunction to prohibit the sheriff of Logan county from selling land of his client for taxes. Judge Doolittle of the circuit court of Logan county issued a rule against Stiles for contempt. After hearing Stiles' attorney to rule Judge Doolittle said that Stiles was to remain here until injunction proceedings in the federal court were dismissed. Stiles was placed in the county jail and an application was made to Judge Jackson for a writ of habeas corpus, which Judge Jackson granted and a deputy sheriff was ordered to remain here until federal court. The sheriff and jailer refused under instructions from Judge Doolittle to deliver the prisoner to the United States officer, and the officer having referred to the court today Judge Jackson was asked to issue writ of attachment against the sheriff and jailer, the effect of which was to bring these officers with their prisoner before the court. Attorney General Rucker of this state requested Judge Jackson to delay issuing the writ until he had communicated with Judge Doolittle, which Judge Jackson agreed to do. If Judge Doolittle refuses to give up the prisoner an attachment will issue, and if the United States officers are resisted the United States troops may be called on to suppress the rebellion.

NAVAL BOARD IS FAVORABLE Many Anticipate Continuance of Work on Sunk Spanish Vessels Under Hobson's Direction. WASHINGTON, Oct. 31.—In the absence of a specified order from Secretary Long to consider the subject, the Board of Naval Bureau Chiefs has not undertaken to pass upon the expediency of prosecuting the attempt to raise the Spanish ships sunk July 3, except the Teresa. Constructor Hobson is now in New York and he may be called upon later to explain his views.
