Rally at Mueller's Hall Last Night a Most Successful Affair.

CONVERTS ANNOUNCE THEIR CHANGE

Two Score Democrats Formally Renonnce the Party and Accept the Republican Faith During the Progress of the Meeting.

The republican rally at Mueller's hall last night was one of the most enthusiastic of the campaign. The large hall was crowded to its utmost capacity and all of the voters paid the closest attention to the remarks of the speakers, cheering them loudly and frequently. President Haller of the Douglast tion of things prevailing everywhere a good County German Republican club called the meeting to order and after outlining the issues of the campaign introduced E. Rosewater.

Mr. Rosewater said his first political battle in Omaha was thirty years ago this fail in the Second ward during the campaign in which Grant and Colfax were the republican candidates. Some prominent democrats concluded they would not have the joint debate and induced the auditors to attend at another hall, where beer was given out. John Green, who operated a stone quarry, managed the affair. The next night Mr. Rosewater said he and others had a bonfire in the ward and made some speeches. The next day, election day, notwithstanding Green's efforts, the ward cast a solid republican vote.

Taking up the issues of the campaign Mr. Rosewater said that last fall there were a lot of dancing dervishes upon the street howling for free silver. It has been established that the price of silver has no more to do with the prices of other commodities than other commodities have to do with the value of silver. It is regulated by the laws of supply and demand. As an illustration he showed that gold made into a chain might sell for a certain price, but that did not fix its worth, which is what it is worth and will bring in the market.

In order to show to them, Mr. President, that we realize the importance of their action I move you that we suspend the regular order of the program long enough to enable them to sign the roll." The motion was carried unanimously, and as the men walked up to the desk of the secretary and signed their names to the club rolls they were greeted with cheers from every part of the house. The meeting took on many of the characteristics of an old-

fashioned love feast and the good work kept going on until twenty democrats had enrolled themselves and pledged their support to the republican ticket next Tuesday.

After the converts had been greeted, on motion of J. A. Beverly it was voted that the right hand of republican fellowship be extended to the men who had been gathered into the fold.

When Congressman Mercer was introduced he said it made him feel as though he was at a camp meeting. The republicans, he said, believe in an honest dollar, one that will travel around and is worth 100 cents the fact that the Japanese coin contained

designates the troops to occupy different portions of Cuba has raised a question as to whether or not it is the intention of the

War department to have the troops go direct from their present camps to Cuba instead of occupying the southern winter camps selected some time ago. It can be stated that such is not the intention and that troops will be moved from Knoxville 1,480 and Lexington and Middletown to these camps very soon. It is believed the transfer will be beneficial to the troops and that not only will they find a more salubrious climate, but that the duty of breaking one camp and establishing another will be better for them than remaining in one place. It will be nearly two months before all the troops designated for Cuba are sent to the island, so there will be guite a long time for them to remain in the Georgia and South
