Yone of the Outside Demand for Wheat Changes and Market Becomes Strong.

GRAIN AND PROVISIONS ALL UP A SHADE

May Wheat Gains Half a Cent, Corn and Oats Close Higher and Provision Markets Liven Up.

CHICAGO, Nov. 11 .- Near the close today reports of heavy export engagements and a recovery in foreign markets caused wheat become subsequently active and strong. May closed at an advance of the higher Corn and onts closed a shade higher. Provisions were unchanged to 24e higher.

The opening trades in wheat showed declines of 1-593-8c. May starting at from 654c to 654c. There was plenty of news of a discouraging nature to buyers, but the selling pressure was surprisingly light and no further decline occurred. On the contrary the market began to mend shortly after the opening and though the advance was very slow for two hours it was sure. English consols were up 3-16d and an almost total lack of foreign buying orders was reported from the scaboard. Liver-pool, which declined id yesterday, showed further decline at the opening here today of from 5-8c to 1d and London reported eargoes 32/3/4d lower. Considering the recent had weather northwest receipts were surprisingly heavy, Minneapolis and Duluth reporting 1.3/40 cars, compared with 1.6/3 last week and 821 a year ago. Chicago receipts, however, were light, 1.39 cars, though of good quality, 48 being of contract grade. The Michigan crop report said prospects were seldom better and gave the seeded area at 3 per cent larger than last year. Notwithstanding this array of bearish news, shorts considered it advisable to take the profits on yesterday's decline, and their buying soon sent the May price up to 65 5-8c. For a long time the market hung between that figure and boye. The volume of trading was very moderate and fluctuations were infrequent until after 11 o'clock, when the tone of seaboard and foreign news changed decidedly for the better and the market here immediately took notice of that fact. Late Liverpool cables showed haif of the early decline recovered. Reports as to export engagements were very conflicting for a time, but the steadiness of New York convinced spaculators that a good business was being done. New York finally claimed as high as 120 loads taken at all points. The cash demand here and at northwest points show improvement. There was some talk of a possible squeeze in December at New York and this had an effect on local shorts, who covered freely. As the session progressed the demand from shorts gradually grew heavier, and afternoon trading was quite heavy in volume. May advanced steadily to 60% and was firmly held at that price for some time. It was bringing 66 1-8c at the close. Primary receipts were 1,500,000 bu. Atlantic port clearances were 1,220,000 bu. Atlantic port clearances were 1,220,000 bu. Atlantic port clearances were 1,220,000 bu. Corn weakened on a decline in cables and the government report, which made the crop 1,927,600,000 bu. There was a good cash of from 5-8c to 1d and London reported cargoes 3234d lower. Considering the re-

receipts were 1,500,000 bu. Atlantic port clearances were 1,220,000 bu.

Corn weakened on a decline in cables and the government report, which made the crop 1,227,000,000 bu. There was a good cash demand and a lot of December buying by hippers. There was renewed buying at the decline by leading buil operators and the market became firm later, closing at the best prices of the day. Receipts were light, 198 cars. May ranged from 33 5-8c to 554,66 bits cand closed a shade higher at 33 5-8c.

Oats was rather slow. Renewed selling by a local long who has been selling heavily of late and sympathy with corn caused a rather weak, market early. The cash demand was good and when the liquidation was over the strength of carlot prices and the advance in other grain markets was reflected by oats. May ranged from 245-8 67244c.

Provisions were stagnant. Early there was some weakness with wheat and on lower hog prices. There was some demand from packers, especially for lard, and whorts covered moderately, prices recovering the slight opening decline. Cash demand was 145-754.

Estimated receipts tomorrow: Wheat, 350 cars; corn, 503 cars; omes, 25006 head.

OPERATIONS IN STOCKS AND BONDS. Outsiders Speculate Freely and Lead-

ing Securities High and Strong. NEW YORK, Nov. 11.—Wall street was prepared for an outburst of enthusiasm over steeks on the part of the general public after yesterday's ebuillent enthusiasm on the part of the street itself. The Grangers, the Northern Pacifics and the leading scuthern railroads opened high. The public enthusiasm had apparently induced to place large orders to buy stocks at the opening. The foresight of the large operators in making the opening level of the market a high one was thus justified and they fed the eager demand of outsiders quits freely. Prices, however, were fairly well maintained in the first hour, but in spite of the violent activity of the market it soon became evident that the supply of stocks was fully equal to the demand. Room traders detected evidences of realizing by large interests and commenced to Northern Pacifics and the leading stocks was fully equal to the demand. Room traders detected evidences of realizing by large interests and commenced to sell the market with quite a marked effect on the grangers. This had the effect of checking activity and the market fell into duliness until it received renewed impetus from the strength of special stocks. The shorts in Sugar became nervous as a result of the high loaning rate for the stocks and covered some heavy lines, raising the price 2.3-8. Union Pacific preferred was pushed up to 634, Brooklyn Transit above 69 and People's Gas above 17. Prices generally rose to near the best again in sympathy with this movement and invited renewed buying for outside account through commission houses. But the level was not maintained in the last hour, when can money was marked up to 2 per cent and prices fell away throughout the list. Earlier grains were practically wiped out in the Grangers, the Pacifics—excepting Union Pacific preferred—the southern stocks and many specialties, including Federal Steel. Atchison preferred, which was again the leader of the market, showed more substantial opposition to the decline than many other stocks. Dealing in all of the Atchison securities was on an enormous scale and it was accompanied by reports of the early entry into the directory of a financial interest largely dominant in Rock Island. There was an unexplained advance of 2½ points in Central Pacific which was not improbably connected with the coincident strength of Union Pacific preferred. Pacific probably connected with the coincident strength of Union Pacific preferred. Pacific Mail also advanced notably on account of increased earnings. The decline of the last hour was accompanied by increased activ-ity, indicating a disposition toward liquida-

tion.

The bond market was again very active and embraced a great variety of issues. The Atchison adjustment 4s were, however, easily the leaders, with total sales of a par value of nearly \$2,000,000. This bond advanced 2 per cent to 73½ and reacted % in the late d-alings. The Atchison general 4s were largely taken. Prices are generally higher than yesterday, though the highest of the day were not maintained. Total sales, \$9,235,000. United States 5s declined 1-5 in the bid price. sales, \$9,235,000. United States 5s declined
1-5 in the bid price.

The Evening Post's London financial
cablegram says: The stock markets here
opened good early and prices steadily advanced until the close, when there was a
general reaction, with the exception of
Americans, which, after firmness on the
election results, closed booming in the
street. The buying of Americans today has
been from the continent for New York and
by professional cliques here, but, for the
first time in some months, the English
public has commenced to buy. This is considered not wholly a bull point, as it is a
timid public, rendered nervous by political
scares. Money was tighter today because
it was Stock exchange settling day. Discount rates were firmer in sympathy and on
the reported rise of money rates in New
York.

cial Bulletin will say tomorrow of the wool market:

Domestic wools have continued very active at prices established three weeks ago. Territories have been in chief call. Sales have been on the average basis of 42@45c for fine medium. A large sale of bonded Australian swells the total. The sales of the week are 4.769,500 lbs. domestic and 1,-226,500 lbs. foreign. a total of 5.960,000 lbs., against 7.783.500 lbs. last week and 2.871.700 lbs. for the same week last year. The sales to date show the decrease of 108,445,300 lbs. domestic and 125,750.700 lbs. foreign sales to the same date in 1897. The receipts to date show a decrease of 229,330 bales domestic and 390,288 bales foreign.

New York Dry Goods Market.

NEW YORK. Nov. 11.—The demand for staple and seasonable lines of cotton goods was quiet, but orders on spring accounts generally satisfactory. Merrimac shirting prints were reduced to \$\frac{3}{2}\text{c}\$ per yard. The demand for shirting prints for spring is now liberal, low prices attracting buyers. No change yet in quotations of leading lines of bleached cottons. There were good sales of regular print cloths and of irregular print cloth yarn goods on relative basis. Heavy brown sheetings and drills were firm, four-yard goods being casy to buy. Fine ginghams have been sold ahead. The woolen goods division was without change of moment and there was a quiet demand, which was readily met at previous prices. New York Dry Goods Market.

Hide and Leather Market.
CHICAGO, Nov. 11.—The Shoe and Leather Review tomorrow will say: The hide market is almost stationary. The packers are willing and even anxious to sell native steer hides at 11c. Texas steer hides are the slowest selection. There is some talk of 194c as a price, but no sales have been made as yet below 104c. Country buff hides have slightly recovered their lost tone and 2,000 were sold at 94c.

CATTLE—Receipts of cattle were less than half what they were a week ago, it being the smallest run for a Friday in over a month. The total receipts for the week to date, as is shown by the figures above, are little more than half what they were for the corresponding days of last week and considerably less than half the number reported in three weeks ago. As might be expected with such moderate receipts, the market as a whole was devoid of interesting features, as there was not enough of anything to awaken enthusiasm among buyers.

It is beginning to be talked about the yards that the big run of feeding cattle is over for the season. Every one expects that there will be days when the receipts will be large, but the general opinion appears to be that only a moderate supply is to be looked for from now on. HOGS—The receipts of hogs have run
very even this week, a few over 100 cars
being received each day since Monday. For
the five days the total is about the same
as for the corresponding days one and two
weeks ago, but somewhat smaller than
three weeks ago, as will be noted from
the table of receipts above.

The market opened 24/45c lower and
closed 5c lower under the influence of lower
markets east. On the opening choice hogs,
such as suited early buyers, brought \$3.45
and some good light \$3.52\frac{1}{2}\$. Yesterday that
kind of hogs sold at \$3.47\frac{1}{2}\$. Yesterday that
kind of hogs sold at \$3.47\frac{1}{2}\$. Yesterday
that
kind of hogs sold at \$3.47\frac{1}{2}\$. Yesterday
a concession of fully 5c—that is, they wanted
such hogs as brought \$3.45\frac{3}{2}\$. The heaviest packers, however, held back with the
very evident determination of securing a
concession of fully 5c—that is, they wanted
such hogs as brought \$3.45\frac{3}{2}\$. 47\frac{1}{2}\$ yesterday
at \$3.40\frac{3}{2}\$.42\frac{1}{2}\$ today. Sellers were a little
slow to make the concession, but they had
eventually to take the prices as everything was against them. Chicago came
fully 5c lower and quoted packing hogs at
\$1.40\frac{3}{2}\$.45\frac{1}{2}\$. With such prices staring
buyers in the face it was not to be wondered at that they wanted a corresponding
concession here. It will be noted that the
light mixed hogs sold here for more money
than Chicago reported assorted light, while
the general run of hogs brought \$3.40\frac{3}{2}\$. With
the same range as was quoted for packing
hogs at Chicago. Representative sales:

McMUNNS'

Is a preparation of the Drug by which its injurious effects are removed, while the valuable medicinal properties are retained. It possesses all the sedative, anodyne and antispasmodic powers of Opium, but produces no sickness of the stomach, no vomiting, no costiveness, no headache. In acute pervous disorders it is an invaluable remedy, and is recommended by the best physicians.
