SOMETHING GOES IN FOR THE STRANGERS

Contributions for Home Companies Are Flanked by Remembrances for the Recruits Who Joined from the State at Large.

LINCOLN, Nov. 12 .- (Special.) -- General Gage, who worked up the organization for sending Christman boxes to the soldiers from Nebraska, is well pleased at the outcome of his plans. The home towns have in most instances responded liberally. Bennett is the only exception, and that company being made up largely from volunteers scattered all over the state, most of its members will be remembered by their personal friends. Boxes have come from a number of the neighboring states for friends in the regiment. The shipment from Nelson, besides providing for every member of that company, includes a half dozen boxes for strangers. This is also the case in some other towns, so it is believed that no one will be neglected. Several hundred magazines will be sent to the chaplain for the regimental library. General Gage says that every arrangement for transportation has been perfected and he entertains no fears that the soldiers will miss their Christmas treat. In a few days the matter of sending the same kind of a shipment to the Third regiment will be taken up and pushed forward.

He Was on the Newark.

Richard Bjorkman, who enlisted in the United States navy at the beginning of the war with Spain, has been mustered out of the service and arrived home yesterday. Mr. Bjorkman was on board the Newark and saw service at Guantanamo, Santiago and Manzanillo. When hostilities were suspended he was transferred to the Marble- ing the republican senator from this distri head and on it returned north. During the as he was defeated in his own count short term of service Mr. Bjorkman was promoted three times and comes home with to elect him. The populists put lots of mon his discharge marked "excellent" as a heavy gun marksman. This is no doubt due largely tive ticket, especially W. D. Haller for reto his years of training in both the Swedish and American navies.

Gayety for Charity's Sake. FREMONT, Neb., Nov. 12.—(Special.)— The annual charity ball of the Ladies' Charity club was given at Masonic hall last evening. The ball room was very tastefully arranged for the occasion, the decorations consisting largely of chrysanthemums and other flowering plants. The attendance, which comprised nearly all the society people of the city, was larger than usual and many elegant and elaborate costumes were worn by the women. Supper was served in an adjoining hall about midnight and the ball added a considerable sum to the treasury of the Charity club.

PLATTSMOUTH, Neb., Nov. 12 .- (Special.)-The November term of the district court convened yesterday with Judge B. S. Ramsay on the bench. The docket has many civil cases for consideration but few criminal and those of little importance.

When Baby's III. When the little loved one is sick, when its brow is fevered, its pulse rapid, its features pinched with pain and there are great blue circles under its eyes, the mother hovers about the bedside, and with anxious eyes tries to read the meaning of every ex-

pression upon the physician's foge.

A woman may save herself almost all of this worriment about her children if she will but take proper care of her womanly health during the period of gestation. A child born of a mother who is thoroughly healthed in a womanly way will almost healthy in a womanly way will almost unfailingly be healthy and robust. Dr. Pierce's Favorite Prescription acts directly on the delicate and important organs that bear the burdens of maternity. It makes them well, strong and vigorous. It heals all internal ulceration and inflammation. It stops debilitating drains. It fits for motherhood and insures a healthy child. Thousands of hanny mothers have lestified Thousands of happy mothers have testified to its merits. No honest dealer will urge you to take an inferior substitute for the little added profit it may afford him.

little added profit it may afford him.

"A lady told me that Dr. Pierce's Favorite Prescription was good to take when with child," writes Mrs. Annie Simpson, of No. 13 Chelmstord Street, Lawrence, Mass.: "I was suffering terrible pains, and was unable to get about the house without being in misery. I began taking Dr. Pierce's Favorite Prescription and the first bottle greatly relieved me. I took three bottles before my baby was born, at which time I suffered very little. The baby has been heaithy since birth, and is now three months old and weighs fifteen pounds. When my older child was born I suffered terribly. I don't know how to thank Dr. Pierce enough."

Indians on Sloux Reservation Taking Long Steps Toward Civilization. CHADRON, Neb., Nov. 12 .- (Special.)-The Indians on the Sloux reservation in South Dakota were never in a more peaceaspondents remote from the Pine Ridge but such is not the case.

The story of 500 young Indians having banded together or organized to subvert the RETURNS ALMOST COMPLETE existing order of things is entirely and wholly untrue. The Indians are now as quiet and contented as they have been at any time in the past. As evidence of the progress that they are making there are thirty-two day schools and a large boarding school in operation on the reservation, school age are now, for the first time, in gave a populist plurality of 251. school.

During the last two years Major Clapp. the agent, has sold to these Indians having machinery, wagons and harness to the value of more than \$20,000, all of which they have paid for from their own earnings, and this has been taken up and credited to the United States. They pay for all repairing done at the agency shops and they are steadily learning to value property and Ada money. The Sloux Indians on the Pine Ant Ridge reserve are the owners of over 40,00 head of horned stock, and sell annually the government more than 1,500,000 poun of beef raised by themselves. During th present year over 8,000 calves were brande Crime on the reservation is compartively small.

of the proprietors, and family, lived over the barn. Mrs. Taylor, her daughter and an old man named Clark were buried beneath the fallen roof and burned to death. The building was so suddenly enveloped in flames that they could not escape. Taylor was able to get out, but he was frightfully burned. Dr. A. L. Compton, a veterinary surgeon, and a boy, who slept in the office, also escaped. The cause of the fire is unknown. The bodies when pulled out of the ruins were burned beyond recognition. A dozen horses and carriages and a few cattle and hay, grain, etc., were burned. The village has no water supply and nothing could be done to extinguish the flames. The property loss is about \$6,000, partly insured.

# REVIEW OF WORLD'S CROPS

Revised Figures Raise the Estimate of the Yield of Wheat.

GREATEST CHANGE APPEARS IN RUSSIA

Only Unfavorable Report Comes from the Southern Hemisphere, Where Drouth Has Affeeted the Crops.

WASHINGTON, Nov. 12.-Statistician

Hyde of the Agricultural department has completed the official report of the crops of the world for this month and a revised review and practically all the Indian children of last year cast a total vote of only 1,709, and The Russian wheat crop is now put by the of the world's wheat is an important feature. race rioting in the Carolinas, it is altogether ministry of agriculture at 417,000,000 Winover the Hungarian official estimate. An the Hungarian wheat crop at 132,277,200 bushels of sixty pounds. An estimate, said to be the preliminary official one, puts the German wheat crop at 8,000,000 bushels more than the 1897 crop, making it, in round numbers, 115,000,000 bushels of sixty pounds. The official estimate of the Italian wheat crop puts it at 133,371,900 Winchester bushels. The latest estimates of the Spanish wheat crop are a little less than 95,-000,000 Winchester bushels. The London Times estimates the wheat crop of the United Kingdom at 77,900,000 Winchester bushels, considerably in excess of the estimates a month ago. The official estimate for Roumania makes its wheat crop 58,456,-904 Winchester bushels.

Official figures for Manitoba give its wheat crop at 26,729,808 Winchester bushels. Preliminary official figures make the crop of Ontario 33,028,079 Winchester bushels, the total for the two provinces being 59.597,887 Winchester bushels. As the wheat area of the more eastern provinces was much larger than in recent years it seems likely that the total for Canada will reach the highest of last month's estimates, 63,700,000 im perial bushels.

On the whole the changes from a month ago increase the total estimate of the world's wheat crop, but the conditions affecting the crops of the southern hemisphere are scarcely as favorable as they were commonly supposed to be when the estimates used in the table published a month ago were made. Australia has suffered from Australia and New South Wales. If the Australasian wheat crop should fall short of the Broomhall estimates, the largest, it may in any case equal or perhaps exceed the very moderate estimates of the other two authorities announced last month. The Broomhall estimate was 54,000,000 and the Hungarian estimate only 37,000,000 bushels of sixty pounds, while the estimate of the Bulletin des Halles was 37,000,000 Winchester bushels. Severe frosts have been reported from Argentina, but the latest accounts as to the outlook for the wheat crop in that country are not favorable.

As to other crops, the estimate for for oats 299,059,074 bushels. The provisional estimate of the Russian agricultural ministry gives in Winchester bushels: Winter wheat, 141,639,000; spring wheat, 275,811,000; total wheat, 417,450,000; rye, 717,786,000 barley, 320,141,000; oats, 606,861,000; maize, 42,779,000.

The official crop report of Austria for the middle of October represents the oats crop as generally satisfactory in quantity and still more so in quality. Except in the mountain districts, maize is mostly barvested, and hardly a medium crop. Buckwheat suffered partly from drouth and ... 89801 92359 88297 101873 ern provinces, but in the middle zone is more satisfactory. The barley crop was somewhat deficent in quantity and quality. In general, however, the cereal crops were satisfactory, the kernels being mostly full neavy and of a good color.

In the mountain districts and in the south the yield of potatoes was below the average, but in other sections they were satisfactory and especially so in upper Austria and par-OWOSSO, Mich., Nov. 12 .- The village of of Moravia and east Galicia, though in the Perry, south of this city, was visited by a last named province the latest part of the terrible fire early today. Rowe & Co.'s crop suffered somewhat from frost. Beet large livery barn, with its contents, was roots suffered from drouth more than other burned to the ground. Charles Taylor, one root crops, the yield is barely up to the

average, but the quality is satisfactory. The fruit crop, though good in the middle zone and in some districts of Silesia and west Galicia, is on the whole disappointing. The vintage in lower Austria exceeded the estimates, and the quality of the most was quite good. In Karst and the coast districts the yield was only medium, but the quality in general was satisfactory.

Fall sowing was delayed by drouth throughout a large part of Europe, bas there is no reason to apprehend any terial detriment to the crop from delay though in some countries the returns may be somewhat smaller than under more favorable circumstances. In Russia sowing was effected under generally favorable conditions, but the weather was too cold for the welfare of the young crops. No injury has been experienced, and in most oths. countries the grain so far as sown has been favored by subsequent rains and mild tem-

## GOVERNMENT WILL NOT ACT Riots in Carolinas Will Probably Not Now Receive Attention of

Federal Authorities.

WASHINGTON, Nov. 12.-Except in the unlooked-for event of a fecurrence of the improbable that the government will interfere by force or otherwise. The attorney chester bushels, an increase of 30,000,000 general had another conference with the president this morning in regard to the estimate, believed to be below rather than matter, and the conclusion was promptly above the actual yield, is credited to the reached that as the demonstrations were Hungarian agricultural ministry, estimating not directed against the collector of customs in the performance of his duty as such, the government had no authority under the constitution or laws to exercise its federal authority. Collector Tolbert was shot while away from his home and on business entirely disconnected from that or his office, and under the circumstances the government, it is said, has not a shadow of right to interfere. If the collector had been shot in the discharge of his offician duties and in an effort to enforce the laws of the United States, the case would have been very different and the duty of the government would have been clear. In the present case, however, it is said that the lawless acts of the mob were not directed against the execution of the laws of the United States, but against the individual. The case would have been the same had Tolbert been shot on the highway by a

Administration officials have no sympathy with the Carolina rioters and regard their acts with abhorrence, but up to this time there is no evidence that would warrant any interference by the government. The attorney general late last night sent the follow ing telegram to the assistant United States ttorney at Anderson, near Phoenix, S. C.: DEPARTMENT OF JUSTICE, WASH-INGTON, Nov. 11.—Ernest F. Cochran, Assistant United States Attorney, Anderson, S. C.: You will at once take energetic steps. incurring the necessary expense, to ascer-tain the exact situation in Greenwood and adjoining counties and report the same a once to me with a view to advising me whether any such condition of insurrection drouth, but this is now broken, good rains having fallen throughout Victoria, South Australia and New South Wales. To which the following response has been

received: ANDERSON, S. C., Nov. 11 .- Attorney General, Washington: My information is that there was much rioting near Greenwood, at Phoenix, Tuesday and Wednesday Several negroes killed and wounded. On white man killed and several wounded Thursday there was also some rioting, but condition quieter. My information is that it is quiet there now, though the community is very much excited. From all information have I think federal intervention is too late now. It seems the mob was espe-cially anxious to get the Tolberts, and I am As to other crops, the estimate for informed they are now all safely out of France for barley is 52,167,766 bushels, and their reach. Intense excitement still prevalle there, but no violence now. Will wire further tomorrow.

# INVESTIGATORS PLANS

Will Hear Important Witnesses at th Capital and Go to New York for Two Weeks.

WASHINGTON, Nov. 12 .- All the members of the War Investigating commission except ex-Governor Woodbury were present partly from frost in the northern and east- at today's session, which was devoted to a discussion of the subcommittee which wer to western cities and to preparation for the New York and Boston trip. A large number of complaints have been received from that city and the opinion was expressed that two weeks' time might be put in there. Among the witnesses who will be heard before leaving for New York are Generals Young, Humphrey and Breckinridge; Colonels Knox and Forward and Dr. Huldekoper. Dr. Huldekoper has been much criticised as an army surgeon and he has sought an opportunity to go before the board for his vindi-

General Dodge, Colonel Sexton and Dr. Conner gave the other members of the board a great deal of information concerning their western trip, which they consider was productive of important developments. General Dodge expressed the opinion that the commission would be at le to conclude its duties by the 1st of January next.

NAVAL HERO ON NATIVE SOIL. Schley Feels Somewhat the Worse for Summer's Work.

WASHINGTON, Nov. 12 .- Admiral Schley today presented to the president, the secretary of state and the secretary of war copies of the report of the Porto Rican evecuation commission. This report contains a record of the proceedings of the commission from day to day, all of the interesting features of which have been published. In the main it is nothing more than a transcript of the daily record of proceedings of the commisgion, noting each proposal made to the Spanish commissioners and their counter propositions and winding up with an account of the ceremonies attending the end of Spanish sovereignty and the assumption of control

by the United States' forces. The admiral is looking thin and worn as the result of his labors affoat and ashore during the past summer. He is desirous of taking a rest in the mountains for a few weeks before undertaking any active duty. As to his next assignment he says that he has made a request and is content to allow the Navy department to decide that question.

Coming to the Navy department about 10 o'clock, Admiral Schley called first upon Captain Croninshield, chief of the navigation bureau, in company with Lieutenant Sears and Ensign McCauley of his staff. His presence was announced to Secretary Long. and he chatted a few minutes with Captain Croninshield until he was admitted to the secretary's office. The conference between I teera Secretary Long and the admiral lasted nearly half an hour, and at the end of that time the admiral quietly slipped over to the White House, eluding as far as he could, a number of persons who were lying in wait for bim in the corridors of the Navy depart-

Schley to the European Station. WASHINGTON, Nov. 12 .- Admiral Schley having asked again for sea service has been promised the command of the European squadron, which will be re-established in a short time with some of the finest cruisers in the navy to exhibit the American flag creditably to the European nations. Two Consular Vacancies Filled.

WASHINGTON, Nov. 12.-The president has made the following appointments: Richard Guenther of Wisconsin, to be consul general of the United States at Frankfort, Germany: Frank H. Mason of Ohio, to be consul general of the United States at Berlin, Germany. Condition of the Treasury.
