Chief Engineer of the Union Pacific Given Charge of Short Line.

Process of Assuming Control Begins to Assume More Definite Form and the Old Branch is Becoming Assimilated.

That the Union Pacific railroad is gradu-Line appears to be made more certain every day. The latest announcement along this line is the appointment of John B. Berry. chief engineer of the Union Pacific, as consulting engineer of the Oregon Short Line.

The appointment will be effective on November 15, but it has already been announced by General Manager Bancroft of the Oregon Short Line. Mr. Berry left here, and will be built later on. for the west in his private car on Friday, and it is thought he will be in Sait Lake City within a few days to asusme formal charge of the engineering department of the Oregon Short Line. His principal office will still be maintained in this city, but he will also have an office in Salt Lake City. John C. O'Melveny, at present chief engineer of the Short Line and formerly division engineer of the Union Pacific in charge of the Short Line work, will remain in his present position, but will be subordinate to Mr. Berry and will report to him.

The appointment is no surprise in Union Pacific circles here. It is no secret that Mr. Berry stands closer to President Burt than any other man on the Union Pacific road, and his rapid advancement has been noted on all sides. Soon after Mr. Burt came to the Union Pacific from the Northwestern he made Mr. Berry chief engineer. The latter had formerly been chief engineer of the Elkhorn branch of the Northwestern. Since he has been chief engineer of the Union Pacific the jurisdiction of that department has been greatly enlarged, and the chief engineer of the Union Pacific today has more authority than ever before. The appointee is a well known Omaha man, and is building a handsome new residence opposite President Burt's in the West End.

ROCK ISLAND PASSENGER MEN J. L. DeBevoise to Retire from the

Service on December 1. Further changes in the passenger department of the Rock Island road are announced. J. L. DeBevoise, formerly stationed here and now general agent at Portland, Ore., will retire from the service on December 1. So will Phir Rupp, traveling passenger agent out of Chicago, also well known in Omaha. The latter will be succeeded by Frank L. Miller, now city passenger and ticket agent at Lincoln, Neb. A. E. Cooper, now district passenger agent at Wichita, Kan., will go to Portland to succeed DeBevoise. The positions of general excursion agent, city passenger agent at Lincoln and district passen-

filled It is not improbable that there may be other changes before first of the month rolls around. Charles Kennedy, general eastern agen and formerly stationed in Omaha as general agent, will remain at his present position. It is a source of gratification to the Omaha patrons of the Rock Island that Charles A. Rutherford will remain here as general agent of the passenger department. Samuel F. Boyd, who has been first assistant general passenger agent for a number of years, will exchange places with L. M. Allen, now general agent at Davenport, Ia.

ger agent at Wichita have not yet beer

The changes made are indicative of a more aggressive policy on the part of the passenger department of the Rock Island road during the coming year. The whole department has undergone a big shake-up, and as re-constructed it is thought to be one of the strongest passenger departments in the United States. The rearrangement of assistant general passenger agents is such as to relieve General Passenger Agent Sebastian of detail work. Passenger matters west of the Missouri river will be largely under the supervision of E. W. Thompson, who will

Will Discuss Redemption Now. SIOUX CITY, Nov. 12 .- (Special.) -- D. L. Plumer of Wausau, Wis., president of the Credits Commutation company, is in the city conferring with F. L. Eaton, general manager, on railroad matters. He will remain in the city several days, going over the affairs of the Sioux City, O'Nell & West-

to speculate on their action. It is the intention of the Credits Commutation company to renew the fight in congress for a connection with the Union Pacific on a basis of a fair division of the "We are fighters," said Mr. Plumer, "and at no time have entertained any other idea in this matter but that we ultimately will win."

When asked what his company would want with a connecting line between O'Neil and North Platte, if it did not own the Pacific Short Line or some other line to Sloux City, Mr. Plumer shook his head and said that would be talking about railroads. He had nothin gto say about the survey in progress between Sloux City and Omaha on the west side of the Missouri river.
