

MORE WORK AT THE SHOPS

Union Pacific Giving Its Rolling Stock a General Overhauling.

MECHANICS GETTING IN LONGER TIME

No Increase in the Force, but More Hours for Those Employed—Great Rush of Business Lets Up a Little.

The men connected with the operating and the mechanical departments of the Union Pacific have just caught their breath after the greatest rush of business that was ever seen on the "Overland Route" since it was built across the plains. The enormous amount of travel attracted to Omaha by the exposition and the unusually good fall traffic in grain, live stock and merchandise combined to make the season one without precedent.

The let up has just come along and the opportunity is being seized to put a good part of the rolling stock that carried the heavy fall traffic through the shops for repairs. One of the officials of the mechanical department says: "Not since I've been with the Union Pacific was there such a rush as we had this fall, and we're just getting straightened out from it. Every freight car and passenger car that we could get hold of was in use and there was no chance to put any of the cars through the shops for even necessary repairs, but we're catching up with the same now. For three months we couldn't take a passenger coach off the line as it is coming to the shops because the demand for cars was so great."

The cars being repaired at the Omaha shops are put out on the road again as quickly as the repairs can be completed. There are now about 100 freight cars and twenty-five passenger cars going through. A number of the locomotives are being put through the Omaha shops and other shops of the company so that another month will see the rolling stock of the Union Pacific in the best condition it has been for a long time.

In addition to the extensive repairs to the old rolling stock the department has been strengthened by the addition of 6,000 new box, stock and furniture cars and several new locomotives built by outside concerns. The number of men employed at the Omaha shops has not increased any on account of the period of activity. Most of them are still working five days a week, but on the last two Saturdays a number of the men have been kept at work. There are always some of the men who work on Saturdays, as there are always rush jobs that are hurried through. But for the last two weeks the number of shopmen given Saturday work has been larger than for a year past, and the men are hoping that a similar condition of affairs will continue to exist for several weeks to come.

The live stock business from the west has also stopped for the season, and this fact allows the stock cars to be overhauled. The stock traffic held on about two weeks longer this year than usual, heretofore having stopped about November 1. The traffic officials are expecting the movement of California freight cars this season. The dried fruit is moving eastward now in large quantities, but the fresh fruit does not come in any considerable quantities until January. The California fruit business of the Union Pacific is growing heavier each winter. It is interesting to note the decrease in fruit rates as the traffic has increased. About fifteen years ago it cost \$450 to ship one car of fruit from Los Angeles to Omaha on slow freight trains, and \$800 per car if the car was attached to passenger trains, and was always the case with perishable fruit. Now a car of fresh fruit is shipped from Los Angeles through to Chicago on an express freight train, run at the rate of thirty miles an hour, or nearly on passenger train time, for \$240 per car. Even at this rate the traffic is profitable for the railroad companies, and the fruit trade of the coming winter is being looked forward to with some eagerness.

Washing Peavy's Elevator.
The excavating for the new Peavy elevator in the south part of Council Bluffs has been completed and work on the foundation of the building will be commenced in a short time. The elevator will be an immense structure. The ground dimensions of the building will be 130x219 feet and its capacity 1,500,000 bushels of grain. The contractor Maloney, who is building the side-tracks necessary to reach the elevator from the Union Pacific tracks, has a large force of men and teams at work grading. When work on the building is commenced as large a force of men as can be handled conveniently will be put on the job. It was stated yesterday by a representative of the contractor that it was the intention to have the elevator completed and ready for use by the first of next March.

Consents to Pay Back Taxes.
NEW YORK, Nov. 15.—The Central railway of New Jersey sent word to the city officials in Jersey City today that it is ready to pay the city \$500,000, which represents the amount of back taxes due the city from the company. The payment of the money will mark the end of a long fight between the city and the railroad company over the latter's back taxes, which have been accumulating for some fifteen years on the company's property at Communipaw. Details are to be adjusted.

New Trains on the Omaha.
On Sunday evening next the Chicago, St. Paul, Minneapolis & Omaha road will place another passenger train in service. It will leave here every morning at 6 o'clock for Nebraska points on the Omaha road. It

will arrive at Emerson at 8:55 a. m., Norfolk at 10:35 a. m., Hartington at 11:15 a. m. and Bloomfield at 11:30 a. m. Returning the train will arrive in Omaha at 6:50 p. m. daily. The trains will arrive and depart from Webster street station. The service will be daily except to Hartington and Bloomfield, where it will be daily except Sunday. The additional train in each way will undoubtedly prove to be a great benefit to northeastern Nebraska.

Iowa Central's New Line.
L. M. Martin, general manager of the Iowa Central, writes as follows regarding the proposed extension from Okaloosa to Des Moines and from Belmont to Algona, Ia: "It is true that we have begun making surveys for these two extensions, but up to the present time sufficient data has not been collected to furnish detailed information. In a general way we propose to run a line from Okaloosa to Cordova, Ia., through Mahaska and Marion counties, via Pella, connecting with the Wabash road at Cordova and having joint use of its track from there to Des Moines. The Belmont branch will be extended through Hancock and Kosciusko counties, via Corwith, to Algona. This is all the information I am in position to give you at the present time, except that this work is being done by the Iowa Central & Western railway, lately organized under the laws of Iowa, whose principal place of business is at Okaloosa, Ia. Its officers are: L. M. Martin, president; George W. Seever, secretary and treasurer, and C. W. Huntington, general superintendent."

Low Joints After Clayton.
There was a special meeting of the local passenger association at the Elkhorn headquarters yesterday morning. Complaint was filed against George Clayton, northwestern Western railway, lately organized under the laws of Iowa, whose principal place of business is at Okaloosa, Ia. Its officers are: L. M. Martin, president; George W. Seever, secretary and treasurer, and C. W. Huntington, general superintendent.

OUR GREAT DRESS GOODS SALE.
Our immense \$50,000 dress goods and silk sacrifice sale continues. Enjoins the Costly History.
Judge Fawcett issues restraining order to prevent the prosecution of the work.

On application of Edward Rosewater Judge Fawcett has issued an order restraining the executive committee of the Trans-mississippi Exposition from proceeding with the appropriation of \$10,000 for the purpose of publishing a history of the exposition. J. P. Breen appears as attorney for the plaintiff.

The petition was filed yesterday and the order issued at once, made returnable on Saturday, November 19. It is the plaintiff's articles of incorporation of the Trans-mississippi and International Exposition association are set forth, showing the object and scope of the association. The fact that the exposition was successfully organized and carried out is mentioned together with the further fact that the association is now engaged in liquidating and winding up its affairs preparatory to dissolution. The resolution adopted by the Board of Directors in October, providing for the appropriation of \$10,000 for the purpose of preparing and compiling a history of the exposition, the copy to be in the hands of the printer by June 1, 1899, providing for the appointment of a committee to prepare the material and directing how the books should be disposed of, are all set forth in full.

The fact that a majority of the board of directors is on record as in favor of the appropriation requires that the plaintiff seek the courts for relief. The petition then goes on:

Your petitioner avers that manifestly the prosecution of the said business described in the foregoing resolution is without the scope and purpose of the business for which the corporation was organized and is not within the meaning of article III of the articles of incorporation of the defendant company, already quoted, which describes the nature of the business, and that there is no amendment, instrument or bylaw adopted by the defendant company which stops or restricts the power of the power to carry on the work described in the foregoing resolution. And that the action of the directors in passing and enacting the said resolution is without the scope and purpose of the business for which the corporation was organized, and is ultra vires and in violation of the charter of the company, and that the defendant company, through its directors and other agents and officers, will not obey the same, and that the plaintiff is restrained by an order of this court the defendant company, through its directors and other agents and officers, will not obey the same, and that the plaintiff is restrained by an order of this court the defendant company, through its directors and other agents and officers, will not obey the same.

Activity of Vesuvius.
Much anxiety has been caused in Naples by the renewed activity of Mount Vesuvius. An overwhelming danger of this description produces universal terror. As a matter of fact, there is little likelihood that Mount Vesuvius will do any serious damage. On the other hand, thousands die daily from stomach and digestive disorders who might have survived had they resorted to Hostetter's Stomach Bitters. It is the greatest known tonic for stomach and digestive organs. It cures kidney, liver and blood disorders.

Magnificent Trains.
The Chicago, Milwaukee & St. Paul railway has just placed in service two magnificent electric lighted trains between Omaha and Chicago, leaving Omaha daily at 5:45 p. m., arrive Chicago at 8:25 a. m. and leaving Chicago 6:15 p. m., and arriving Omaha 8:20 a. m. Each train is lighted throughout by electricity, has buffet smoking cars, drawing room sleeping cars, dining cars and reclining chair cars and runs over the shortest, line and smooth road-bed between the two cities.

Bank Officials on Trial.
KANSAS CITY, Nov. 15.—David W. Rieger and Richard P. Covington, formerly president and cashier, respectively, of the Missouri National bank, failed in October, 1898, were placed on trial in the United States district court today on indictment charging embezzlement and misapplication of the bank's money. E. P. Moxey, government expert who examined the books soon after the failure, will be the chief witness for the government. Rieger and Covington are now engaged in the insurance business at Springfield, Ill.

HAYDEN BROS.
Special new lining taffeta. Extra wide and it is claimed to be the best wearing taffeta in existence, having no dressing or stiffening, thus making it less liable to cut or crack. It is cheaper and better than any narrow taffeta made, being 27-in. wide. We have just received a large assortment of the leading shades, price, \$1.00.

SPECIAL SALE ON NEW DRESS GOODS.
20 cases of new goods just received from the Boston mills of Fossils, N. Y., all the surplus goods manufactured for this fall and sold to us at one-third of their value to make room for spring stock. Remember these goods were never out of the mill, never on the shelves of a dry goods store, and will be sold at about 1-3 of the price generally asked for job lots and bankrupt stocks. One full dress pattern, 3 yards, all wool, 41-in. wide, for 95c. All wool dress goods, 10 different neat new designs, fresh from the mills, only 15c per yard—just the thing for school dresses—36-in. novelties, all designs and colors, just opened up and made to sell for 35c; all you want for only 15c. All wool flannels in black, blue, red, wine brown and other shades, sold elsewhere for 30c, our price only 21c; this is a rare bargain. 60-inch ladies' cloth, every thread wool, all at the leading color, opened up new from the mill, this making it less liable to cut or crack. You have all you want for 25c. We are headquarters for all kinds of plaids, and will sell you a 50c plaid for only 25c. We have just received a new consignment of French, English and German plaids. We are exclusive agents for Priestley's celebrated black goods, Couillard's English crepons, Couillard's French crepons and Malin's German crepons. We sell them at 50c to \$7.50 per yard. Examine our American crepons at 85c. We carry only complete sets of dress goods in Omaha.

GENUINE FRENCH FANNEL. Why will you pay 50c for a 49c French fannel and 75c for the 50c quality and \$1.00 for the 75c quality?

ANNOUNCEMENTS.
The program which the Trocadero offers its patrons this week is a sterling one in every respect and the management is certainly to be congratulated for its extraordinary strength of the bill. Eight acts are offered, each one of national reputation, headed by the famous and only George H. Lamme troupe, presenting the funny comedy, "A Country Terror." Howard's comedy ponies, Miss Maude Rockwell, concert and descriptive vocalist; Ray Burton, equilibrist and champion swinging wire rife shot of the world; Faurette sisters, Breton Runkle trio, Tom Mack and Mayer, Carroll and singers, dancers and comedians.

The inaugural performance which is to be given at Boyd's theater Thursday evening by the International Grand Opera company, of which Clementine De Vere is at the head, will far outshine any grand opera that has been put on in Omaha. Madame De Vere will be heard in the title role, the cast of which is certainly of the highest quality. De Vere herself is one of the greatest singers of this century. But few people suspect what a really grand operatic artist she is. Her performance of Lucia is certainly one of the Washington Star to be the equal of those of Patti, Nilson, Hellbrun, Gerster and far more than any other purely operatic singer of today. At Covent Garden theater, London, last year she created a furor. Here is a voice that is not alone strong and vibrant, but is also melodious and sweet. Nobody of today understands vocalism as well.

An Energetic Representative.
Mr. Charles W. Bird, who has so ably represented Montgomery Ward & Co. at the exposition, will remain in Omaha a couple of weeks looking after the shipping of their exhibit and the disposal of their building. Mr. Bird has been most remarkably devoted to the interests of the great firm which he represents and the disposal of their building adapted to the feature of entertaining the public. His lectures were particularly interesting and it is safe to say that out of over 400,000 people entertained by him at Montgomery & Ward's building that 350,000 of them left feeling that they had not only been most hospitably entertained but that they were welcome to return and had made good friends with the firm of Montgomery Ward & Co. through the kind and courteous treatment of their manager, Mr. Bird.

Shoes

Every pair of shoes that we sell was made for The Nebraska direct—made for us as we want them made—made of honest stock and made by honest makers.

Every pair of shoes sold by us is sold with the distinct understanding that they are honest shoes. We do not buy any job lots or doubtful stock and run the risk of having you dissatisfied for the sake of a few additional pennies profit.

Good shoes are so cheap now-a-days that
